WOMEN AND BABES MASSACRED

RAIN AGAIN PREVENTS GAME

Ball Player Decides to Stay With Team Despite Death of Sister

Championship Series to Be Continued Tomorrow if Weather Conditions Permit

PHILADELPHIA, Oct. 19.—Rain today caused another postponement of the playing of the fourth game between Philadelphia and New York for the world's baseball championship. The grounds were in a soggy condition and as a light rain was falling, the umpires called up the members of the National Commission in New York and informed them of conditions. It was decided to call off the game for today and it will be played tomorrow if weather conditions permit.

When the postponement was announced there were nearly a thousand persons around Shibe Park, hoping that the rain would cease and that the game would be played.

Death has entered the family of one of the Philadelphia players, but it will not break up the combination. Reuben N. Oldring, the Philadelphia centerfielder, was notified today that his sister, Lillian, had died last night in Mount Vernon, New York. She had been ill since July and the announcement of her death was not unexpected but at the same time it was a shock to him.

"My first impulse was to jump to New York," said Oldring today, "but considering the matter calmly, I have decided to stick to the team. It may seem strange for me to play baseball with my sister dead, but I can do her no good now and at this critical stage of the world's series I feel I had better remain with the team."

Oldring will go to New York today and expects to be back for tomorrow's game. In case Oldring later decides not to play in any of the other games, Strunk will play in his place. Strunk is a good substitute. He played in four of the world's series games last year, making five hits and scoring two runs, his batting average being .278.

Widespread rumors that Centerfielder Snodgrass of the New York team had been attacked by partisans of the Philadelphia Athletics in connection with the Baker spiking incident in New York last Tuesday are untrue. Snodgrass was about the Majestic Hotel, the headquarters of the team, as usual today.

Sell Bogus Tickets For Philadelphia Game

Couple Accused of Flooding Hotel District With Fake Pasteboards.

PHILADELPHIA, Oct. 19.—Accused of selling bogus tickets for today's game at Shibe Park between the Athletics and the New York Giants, Richard Anderson of New York and Lewis P. Greenberg of Boston are under arrest here. It is alleged that they brought a satchel full of the fake tickets from New York and flooded the hotel district with them before they were arrested.

LOS ANGELES, Oct. 19.—Edward C. Robinson, a talesman who says he is opposed to labor unions and believes that the Los Angeles Times was blown up by dynamite, underwent a severe cross-examination in the McNamara murder trial at the hands of Attorney Lecompte Davis, who is seeking basis for challenge for cause. The examination, steadily contested by District Attorney John D. Fredericks, brought many rulings from Judge Walter Bordwell but counsel and spectators alike centered their interest in the court's expected decision in the big issue as to whether a talesman who believes the Los Angeles Times was dynamited but is unprejudiced regarding the guilt of James B. McNamara may or may not be an acceptable juror so far as this view is concerned.

CHALLENGE NOT OFFERED.

No challenge to Robinson, however, was offered. When court recessed Robinson's steady insistence that he had no prejudice against the defendant remained unshaken. F. D. Green, an orange grower of Pomona, 56 years old, was examined by Attorney Joseph Scott, after Davis had finished temporarily with Robinson, and saw he was acquainted with the use of dynamite.

BIDDERS ON CONTRACTS ACCUSED

Collusion Among Concrete Men Charged by Commissioner James P. Edoff

'We'll See That the Work Is Done According to the Specifications'

That there has been collusion among contractors in bidding for city sidewalk laying contracts to the extent that a responsible bidder finds it impossible to compete, was the charge made by James P. Edoff of the park commission this morning when that body met to consider bids on sidewalk work around Lincoln square, Mosswood park and San Antonio park.

According to figures submitted by the commissioner, thorough work cannot be done in keeping with the city's specifications for less than $14.75 per hundred feet, whereas a bid submitted for sidewalk work surrounding Lincoln park was at $9.20 per hundred feet. The price was offered by H. G. Williams but the contract was awarded to the Oakland Paving company on its bid of ten and eight-tenths cents per square foot, in spite of a protest on the part of Williams, who denied the accusations of Commissioners Manuel and Gould that work he had done in the front of the fire alarm and police telegraph building had been unsatisfactory.

EDOFF EXPLAINS.

In explaining the stand he had taken Commissioner Edoff said:

"I still think that there is a nigger in the wood pile in regard to these bids on cement laying and I want it understood that when work commences under the contracts awarded today that an efficient inspector be assigned to the job and every particular of the specifications complied with by the contractor. Bonafide bidders hesitate to come forward and attempt this work for they evidently know that they have no chance against such low figures."

President Walter G. Manuel of the commission, in voting against a motion of Commissioner Gould to award the contract to the lowest bidder, in the instance of the Lincoln park work, said he thought Williams should be taught a lesson for the manner in which previous contracts had been carried out

"POOR WORK," HE SAYS.

"Both Mr. Gould and myself investigated the last job and we found that it was a poor piece of work. While I do not take the stand that Williams should not be permitted to do any more work for this commis-

LIVES HANG ON PRONUNCIATION

HANKOW, Oct. 19.—At least 900 Manchus, including women and children, have been massacred here. To make sure the identity of their victims, the rebels took advantage of the slight difference in the Chinese and Manchu pronunciations. When a suspect was taken he was ordered to count and the crucial test was his pronunciation of the numeral "6," which in Chinese is liushiliu

SHANGHAI, Oct. 19.—Six packed steamers arrived here from Hankow today carrying refugees. The steamer Belgravia was occupied exclusively by foreign passengers, who were given free accommodations at the direction of the consuls in Hankow.

The ship was so crowded that many of the passengers slept on the floors of the hold. Most of the foreigners were Russians, who were employed in the tea factories, and Belgian ironworkers employed in the steel works, the Han Yang arsenal and on the Peking-Hankow Railway.

REBELS VICTORIOUS.

The refugees declare that the whole Yang Tze valley from Hankow to Shanghai is in the hands of the rebels, with the possible exception of one or two of the larger cities, to which provincial officials have retired with their available troops. It has been insistently stated here that Kru Klang, 150 miles below Hankow, is under revolutionary control. This is denied, however, by foreign officials and by the representatives of the Chinese customs service.

Accounts of the revolutionary attack on Wu Chang as given by the refugees today emphasize particularly the massacre of the Manchus in that city. In the slaughter neither age nor sex was regarded and it is doubtful, the refugees say, whether a single representative of the Manchus race was left alive there.

Similar slaughter of the Manchus followed in Hankow and Han Yang when those cities fell.

"GHASTLY BLOW."

Copies of the Central China Post, which arrived on the Belgravia, describe the early progress of the revolutionary movement. "The revolutionary leaders," the paper says, "displayed secrecy, promptitude and thoroughness—qualities seldom shown by the governing classes in China. But the massacre of the Manchus in our three cities is a ghastly blow on the reputation of the revolutionists."

The run on the imperial bank here still continues, but the officials appear to have ample resources. They are now paying out for the first time the newly minted dragon dollars from the mint at Nanking, the provisional cap-

AVIATOR ELY IS KILLED IN FALL

MACON, Ga., Oct. 19.—Eugene Ely, the aviator, fell 50 feet while making a flight at the state fair grounds today at 2:55 o'clock. He was so seriously hurt that death soon ensued. He had just risen from the ground and was making his first turn in a dip over the crowd when his machine plunged to the ground.

Ely died 11 minutes after he struck the earth. He regained consciousness just before he died, long enough to mutter: "I lost control—I know I am going to die."

Ely is survived by a young wife whom he married in California.

Ely was the first man successfully to land with an airship on a war vessel. He sailed recently from the Tanforan track south of San Francisco and alighted on a warship in San Francisco bay.

PRESIDENT WM. H. TAFT THANKS CONGRESSMAN J. R. KNOWLAND

The following note to Congressman Knowland from Charles D. Hilles, secretary to President Taft, shows how pleased the nation's chief executive was with his visit to Oakland:

SAN FRANCISCO, Oct. 14, 1911.

My Dear Mr. Knowland:

The President has asked me to acknowledge gratefully your kind attention during his visit to your Congressional district yesterday. He was charmed with the warmth of the welcome and the greeting seemed as genuine as it was generous. Sincerely yours,

CHAS. D. HILLES, Secretary to the President.

Hon. J. R. Knowland, Alameda, Cal.

President Taft Now in Snow-Covered Montana

BUTTE, Mont., Oct. 19.—President Taft came into Montana today from the south, more than one hour behind schedule. In place of the temperature of 95 degrees that he encountered at Los Angeles, Taft found snow and frozen streams here today. His stay in Butte was not long and the program for his entertainment included an automobile parade through the city, breakfast at the Silver Bow club and an address. From Butte the President travels eastward through Bozeman and Livingston to Billings, where he will stop for five hours tonight.

Upon President Taft's arrival he was welcomed to the State by Governor Norris and United States Senator Dixon. Lewis J. Duncan, the Socialist mayor of Butte, was not on hand.

Hennings Said to Be on Way to Chicago

CHICAGO, Oct. 19.—Word was received here today that John C. Henning and wife, central figures in the $25,000 alienation of affection suit filed last Saturday against Clarence S. Funk, general manager of the International Harvester Co., have left Mobile, Ala., where they had been staying since October 6. Outwitting detectives who have been watching them, the couple are reported to have boarded a train in the night for the north. Their destination is said to be Chicago, where they are believed to be coming to confer with their attorneys.

Hobble Skirts Boom Shoe Button Making Industry

PORTSMOUTH, N. H., Oct. 19.—The hobble skirt is proving an important factor in an industrial boom in this city. To the increasing popularity of the hobble is attributed to the largely increased use of fancy shoe buttons and the vastly increased business of the button factories here. This city is known as the world's shoe button center and all the factories engaged in this particular line have been forced to double their working staff and to employ day and night shifts in order to keep up with the demand.

Woman Victim of Burns to Survive

PIEDMONT, Oct. 19.—Mrs. Mary E. Miller, who was badly burned at her home in Scenic avenue Tuesday morning, was reported today as resting easily and it is believed by her physician that she will recover. Mrs. Miller is the mother of Mrs. O. E. Hotle of Dormedera and Pacific streets, Piedmont, whose husband is connected with the Realty Bonds and Finance company of Oakland.

The accident happened to Mrs. Miller when she was tending a bonfire in her yard. Unknown to her, her dress caught a spark and on returning to the house, the garment burst into flames. She screamed, and her cries attracted the assistance of her daughter, Minnett, and a Japanese servant, who extinguished the flames with the aid of rugs, which they enveloped about her form. Mrs. Miller is past middle age, and it was at first feared that she could not survive the injuries. Mrs. Hotle, who went East about two months ago to attend the wedding of her sister in Pittsburg, has been sent for and it is expected she will arrive the last of this week.

Cheaper Grade Coffees to Advance From 2 to 3 Cents

NEW YORK, Oct. 19.—A general advance of from 2 to 3 cents a pound on all the cheaper grades of coffee will be declared by retailers in this city within the next ten days, it was announced today. No increase in the price of the higher grades is expected. Several reasons are advanced for this. One is that most of the higher grades are brand coffees, which the owners do not wish to hurt by advancing the prices; another is that many of the better grades come from Central America and are not affected by the Brazilian situation.

Secretary Wilson to Quit Is Rumor in Circulation

WASHINGTON, Oct. 19.—Rumors were in circulation here that Secretary of Agriculture Wilson had resigned, to take effect November 15, or as soon as the President may elect, but it was impossible to verify the story. Secretary Wilson is en route here from Chicago. Former Representative Scott of Kansas, for some years chairman of the House committee on agriculture and Assistant Secretary of Agriculture Hays were mentioned as among those likely to succeed Wilson.

Prof. Liberty H. Bailey, dean of the New York Agricultural College and head of ex-President Roosevelt's country life commission, was recently reported under consideration for the place upon the retirement of Secretary Wilson. It was understood in official circles that Wilson desired to remain until spring, but would resign before the regular session of Congress has had a chance to dispose of the investigation of his department and settle the controversy in which he has been plunged in dealing with Dr. Wiley and the pure food law.

Berries of Virginia Creeper Deadly Poison

Child of Portland Physician Dies Shortly After Eating Them.

PORTLAND, Oct. 19.—Investigation following the mysterious death of the infant son of Dr. A. M. Smith of this city here September 20 has resulted in tracing the cause to poison in the berries of the Virginia creeper. According to local chemists, the poisonous character of the berries of this vine has hitherto been unknown. In order to prevent further fatalities, the city health board will notify each of the several thousand families of Portland, whose porches are covered with Virginia creeper, of the dangerous nature of the berries it bears.

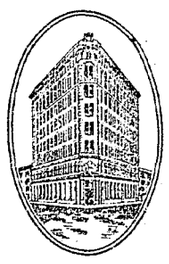

Pino Suarez Is Elected Vice-President of Mexico

WASHINGTON, Oct. 19.—Pino Suarez, candidate for vice-president of Mexico on the ticket with Francisco I. Madero, has been elected by a substantial majority, according to formal announcement telegraphed to the state department by Ambassador Wilson at Mexico City today. Ambassador Wilson returned to his post a few days ago after several months' stay in this country.

Chief Surgeon Pronounces Herrin Out of Danger

SAN FRANCISCO, Oct. 19.—Chief Surgeon Ainsworth of the Southern Pacific hospital declared this morning that W. F. Herrin, head of the law department of the Southern Pacific company, was practically out of danger, and on the road to recovery, following the operation for appendicitis performed on Monday. Mr. Herrin spent a good night and his condition at present indicates a speedy recovery.

COURT SOLICITOUS AS TO HEALTH OF AGED TALESMEN AND EVERY COMFORT ORDERED PROVIDED FOR THEM

Illness of One Prospective Juror Would Undo All Accomplished Up to Date in Los Angeles McNamara Case

(Continued from page 1.)

the public have any weight with you in forming your verdict" asked Scott, and Green said it would not.

E. J. Shower, a painter and paper hanger, followed Green, and said he had a prejudice against labor unions. He was still under examination at recess.

No one but the judge knew at the opening of court at what time this ruling would be made, but its importance in determining who shall say whether McNamara caused the death of Charles J. Haggerty, who was killed in the Times disaster, attracted many persons who sat in the courtroom patiently for an hour before court opened.

QUESTION IS LONG.

Incidentally the examination elicited from Attorney Davis the longest question asked thus far. One of the court stenographers, having taken a considerable part of it, left in the middle, and when the question was ordered repeated, only the last half, taken by another stenographer, was left in court and the question had to be put again.

Robinson finally admitted that he had discussed the matter with his son and with one neighbor. Previously he said he had not talked with his son about the explosion.

BEGINS NEW WEEK.

The McNamara murder trial opened today at the beginning of a new court calendar week, with prospects that, in the course of the session Judge Walter Bordwell would rule on two peremptory challenges made yesterday by the defense on the ground that a talesman who believes the Los Angeles Times building was blown up by dynamite cannot be a fair juror.

This position is taken because of the defense's position that the explosion in the Times building was caused by gas, and that counsel defending James B. McNamara, on trial for the murder of Charles G. Haggerty, who was killed in the district, should not be compelled to show otherwise in order to get a fair trial. The state contends that so long as any juror has no opinion as to McNamara's guilt or innocence, he may be a fair juror.

MAY RULE LATER.

Judge Bordwell, it was explained, need not rule on the point until the jury box is full of talesmen not otherwise ineligible for cause, from the standpoint of the defense, but as the question, brought up on the first day of trial, has been open ever since, it was considered possible that he would terminate it today.

The course of challenges, under California procedure, promises much work ahead before a jury is secured, regardless of the way the court may rule. The defense, which tentatively has passed seven talesmen as to cause, but may return to some of them, will continue until the quota of twelve is secured.

Then the state, under District Attorney John D. Fredericks, will go over these twelve, to see if any are to be challenged for cause. Whenever one man is successfully so challenged, another will take his place, and the defense will first examine him, followed by the state. When finally twelve men, all having escaped successful challenge for cause are in the jury box, each side will have the privilege of peremptory challenge. Of these the state has ten and the defense twenty.

STATE CHALLENGE FIRST.

The state will challenge first, then the defense, and so on alternately until the state's ten peremptory challenges are used up. This will leave the defense with ten challenges to be used on other talesmen as they replace those peremptorily removed. In many instances, under this procedure, the court decisions show that the pinch comes on the last man, where all peremptory challenges of both sides are exhausted and challenge for cause is not allowed. All appeals thus far cited have been in such instances.

Beyond this, if at any time in the trial reason is found or thought to have been found for challenge for cause, such challenge may be made. If it is granted another juror must be found and the work of presenting testimony must be begun all over again.

Six theoretical court days have elapsed in the progress made thus far, but one was Saturday, with only a two-hour session, and the first day's session lasted only about an hour and a half.

While new angles are developed daily in examination of witnesses, much of the questioning has become somewhat a matter of form and counsel for the defense took turns today, relieving each other of the wearisome work of interrogating talesmen. In this way also the talesmen become better acquainted with the five attorneys representing McNamara.

COMFORT OF JURORS.

Efforts toward further comfort of jurors are being made by Sheriff Wm. A. Hammel and his deputies. Among other things another shower bath was installed in their quarters.

Nearly every talesman is over 60 years old. One is 68 and others are 65 or over. Because the trial is likely to extend to an unusual length, grave concern is being manifested to see that every possible aid to the comfort of these men is provided. Their large lounging room is airy and light and the big table at one side is stacked with magazines and other literature, selected so as to have no possible bearing on the trial, even indirectly. The brief morning automobile ride through parks and boulevards is almost an institution, and today brought the men to the courtroom red-cheeked and refreshed. The chairs in the jury box are high backed, leather cushion affairs in which almost any comfortable attitude may be assumed to mitigate the monotony of sitting for hours. Two recesses are granted daily.

Singing, playing cards and reading pass the time between dinner and bed time. Should the health of any talesman break during the trial, all the work done up to that point would go for naught.

Judge Bordwell's solicitude on this point apparently was evidenced by courteous inquiries put to some of the older men concerning their states of health.

Another diversion found for the talesmen is vaudeville. After the program of a local vaudeville house had been scanned the men were escorted last night to see the show, which they appeared to enjoy. The sat in two boxes at the left of the stage and were guarded from the public when they entered and left the building.

Before court convened at 10:10 o'clock James B. McNamara was in whispered consultation with his attorneys for several minutes. Talesman E. C. Robinson, who was on the stand yesterday, was again interrogated today by Lecompte Davis for the defense.

"Did you hear about O. E. McManigal's statement in this case?" "Yes."

"Where did you hear it?"

Objections of irrelevancy entered by the state were sustained.

"Did you read the statement of McManigal implicating this defendant?"

"I may have read it in the paper."

"What is your best recollection of it?"

"I could not say."

"Did you learn that McManigal made a statement before the grand jury?" "No."

"Did you hear he had made a written statement to Detective Burns?" "Yes."

"Did you learn he was to be a witness in this case?" "Yes."

"Did you ever acquaint yourself with what the grand jury did?" "No."

"Do you know any of the members of the city committee which rendered a report of the cause of the explosion?" "No."

ASKED AS TO REWARD.

"You also know that the Merchants and Manufacturers Association of this city offered a large reward for the arrest of the guilty persons?" "Yes."

"Do you know any of the manufacturers?" "No."

"Now, are your impressions as to labor unions fixed?" "Yes."

"Feeling as you do on organized labor, could you, if chosen as a juror in this case, would you be inclined from what you know of labor unions' position in the fight between the Times and unions and strikes, would you attribute the explosion to labor unions?"

The state objected that the defense was seeking to get promises in advance of a juror's opinion on testimony yet to be introduced.

The court advised counsel for the defense to re-frame the question, "Knowing that the defendant belonged to a labor union and arrested by Burns and brought here, and knowing of McManigal's statements, would you be inclined to attribute it more to him because he is a member of a labor union?"

Again the state objected and the court again advised a different wording.

"Would you, if sworn as a juror, and it should be proven that the Times was destroyed by dynamite placed there by human agency, would you be inclined to believe any member of organized labor did it?"

"Not necessarily, no sir."

"Well, would it be the first impression of your mind?"

The state objected and the court sustained the objection.

"Would you, if it should be proven that the Times was destroyed by dynamite, would you deem it a material question that the defendant was a member of organized labor and would you take it in consideration in judging whether or not the defendant was guilty?"

AGAIN SUSTAINED.

"Irrelevant and immaterial," objected District Attorney Fredericks, and again the court sustained it.

"If it were disclosed to you during the trial that the Times was destroyed by dynamite and human agency, would you give any weight at all to the fact that the defendant was a member of organized labor?"

Objection here, however, was overruled.

"No," was Robinson's answer.

"So, if it were proved that the defendant was a member of organized labor you could disregard that fact?"

"Yes."

"And you will do so if chosen as a juror?"

"Yes."

"You said yesterday that you had expressed your vews to certain people on the case; what were those views?"

"There always was a question in my mind as to how it was destroyed."

"Did you discuss whether it was dynamite or gas?"

"No."

"You said yesterday that you had a 'version' of it; what was that?"

"Simply that I did not know how it was destroyed."

"You had made some effort to ascertain how it was caused?" "No."

"Did you ever associate the destruction of the Times with labor unions?"

"I did not."

BARRED DISCUSSION.

"I gained the impression when you said yesterday that you and your son never discussed labor unions, that you also refrained from talking with him about the disaster because it might bring up some unpleasantries. Is that correct?

"Yes."

Now if the question of labor unions in connection with the destruction of the Times never entered your mind, why did you fear to talk with him about it?"

"I never felt like bringing up the subject."

"Well, did you ever talk about it?"

"I may have."

"When you did, your son took the view that labor unions had nothing to do with it, and you took a view that labor unions did."

"No," he said if unions did do it, he wished they would catch the guilty parties."

"So the matter of labor unions in connection with the blowing up of the Times was discussed?"

Objection to the question was sustained.

"Why did not you tell us yesterday what your son said. You told us you did not talk to your son about the Times explosion."

"I did not think it was necessary; did not think it of much importance."

"Are you withholding anything else?"

FREDERICKS OBJECTS.

The District Attorney objected that the question impeached the juror's veracity, but the Court allowed a question asking if he had told all of his conversation with his son and Robinson answered that he had.

"Did you on the morning after the Times was destroyed say to your son that you believed labor unions had blown up the Times?" continued Mr. Davis.

"No."

"Do you understand that in a criminal trial a man must be proven guilty beyond a reasonable doubt before he can be convicted?"

"Yes."

"Do you give the defendant that presumption?"

"Yes."

"I suppose you know circumstantial evidence is sometimes produced?"

"Yes."

REASONABLE THEORY.

"Now, if there was any reasonable theory under the evidence by which you could account for the destruction of the Times other than by dynamite and was a crime, would you adopt that theory?"

District Attorney Fredericks objected to the question, but the court said he could answer.

"Yes sir," replied Robinson.

"You know of any reason why you could not act fairly and impartially in this trial?"

"I know of none."

"That's all at present," said Mr. Davis.

Examination of Talesman E. D. Green a fruit raiser followed. He said he had read the report of the city committee of investigation which alleged dynamite as the cause of the Times explosion.

"Have you ever had any trouble on your ranch with labor unions?"

"No."

"Ever have any controversy with labor unions?"

"No."

"Would the fact that the defendant was a member of a labor union have any effect on your judgment as to his guilt or innocence?"

"Yes."

"Ever read an article by Mr. Burns on the case?"

"Yes."

"I take the magazine," he added.

"Would the fact that Mr. Burns attempted to show this man guilty influence you in judging the defendant?"

"No."

HENEY'S STATEMENT.

"Would the fact that Francis J. Heney in a speech at St. Louis said that he believed McNamara guilty because Burns said so, justify in your mind a similar belief?"

"No."

The talesman said he had had experience with explosives, frequently using it "to blow up stumps."

"Would you be deterred by the possibility of popular disfavor from bringing in a verdict of not guilty if it had not been proven that the defendant was guilty beyond a reasonable doubt?"

"No."

Green was temporarily passed.

E. J. Shower a painter and paperhanger was the next talesman examined. He said he was a Republican but took no active part in politics.

"Have you ever had occasion to employ union men?"

"Yes."

"Have you ever had occasion to be asked to join a labor union?"

"No."

"In employing men have you had occasion to make a distinction between union or non-union men?"

"No."

"Have you ever made any personal distinction in your mind as to them?"

"No."

HE IS BIASED.

"Have you any feeling or bias against labor unions?"

"Yes, I have."

"You feel that labor unions are not for the welfare of society?"

"Yes, I believe I do."

"This is founded on personal observation from the manner in which unions are conducted in California and other parts of the United States?"

"Yes."

"Is this a fixed opinion?"

"Yes."

"Do you have any belief as to what the feeling of organized labor is toward the Times?"

"I understand that there has been a fight going on."

"Do you believe the labor unions were or are embittered against the Times?"

"My idea is that they are."

"Your feeling was that they would look with pleasure upon the destruction of the Times?"

Objection was made to the question.

The Court ruled that the question might be answered.

"I should think they would," was the answer.

"You thought labor unions really desired the destruction of the Times?"

"Yes."

At this point court recessed until 2 o'clock.

SYNOD ELECTS A NEW MODERATOR

Rev. W. A. Hunter of Riverside Head of Presbyterians in California.

LONG BEACH, Cal., Oct. 19.—The Presbyterian Synod of California, which embraces all California and Nevada churches of that denomination, which is holding its annual session here, today elected Rev. W. A. Hunter of Riverside, Cal., moderator for the coming year.

W. S. Young of Los Angeles was re-elected clerk and Rev. Arthur Hicks was established as student pastor of all Presbyterians attending the University of California. John Willis Baer, president of Occidental College, pledged a fourth of the sum required for the establishment of Rev. Hicks. ALLEGED PASSER OF BAD CHECKS ARRESTED HERE

Portland, Oregon, Youth in His Teens Taken Into Custody Today by Sergeant Brackett and Inspector Hodgkins

Wholesale writing of fictitious checks of small denomination is charged against George C. Thomas, an 18-year-old youth, from Portland, Ore., who is believed to have victimized merchants in many Pacific Coast cities. Thomas was taken into custody last evening by Sergeant William Brackett and Inspector St. Clair Hodgkins on complaint of C. O. Evans, at Seventeenth street and San Pablo avenue, and was today formally charged with having passed bad checks.

Thomas is believed by the police to be "Henry Sels." His answers to the description of a young man giving that name, who has passed many checks in bay cities. His description also answers to that of a young man who has operated as a check-passer in Stockton, Sacramento, Fresno, Bakersfield and other cities.

SHOWS SKILL.

In his operations in Oakland the young check-passer showed unusual boldness. Upon presenting a check for $11.80 on a local bank, and signed by Warren Bros. & Co., upon C. O. Evans in payment for a pair of reins, Thomas received the lines in return and the change in the form of a good check drawn in his favor by Evans. Believing that it would require some time for Evans to discover that the $11.80 check was no account, Thomas is alleged to have manufactured twenty checks almost exactly similar to the checks given him by Evans. When arrested a score of checks, each for $6.80, drawn by Evans in favor of Thomas, were found in the possession of the young man.

Thomas was arrested at the tailor establishment of G. W. Twomey in Broadway, where he attempted to pass the first of these bad checks. Thomas suggested, when Twomey questioned the check, that the tailor telephone to Evans to find out whether he had issued such a check, believing that Evans would declare the check to be good. Twomey followed the suggestion and Evans, who had found that the original check was bad, notified the police, and Thomas was placed under arest.

Thomas explained that he was unaware that the original check was bad, but when Captain of Inspectors W. J. Petersen found a rubber stamp, "Warren Bros. & Co., Civil Engineers, Portland," in his possession, he refused to explain his possession of the stamp used on the check.

sion, I do feel that he should be taught a lesson."

Commissioner Edoff referred to the wording in the new charter, providing that any and all bids might be thrown out, and particularly that of any bidder who in previous contracts had failed to abide by the specifications.

Williams, however, was awarded the contract for cement work along the Webster street side of Mosswood park on his bid of 9.4 cents per square foot.

Grant Skidmore was the lucky bidder on the San Antonio park cement work on his price of 10.42 cents per square foot. The amount of cement sidewalk laying to be done at Lincoln park will cost in all $712.80; that at Mosswood, $607.80, and San Antonio, $608.

"MYSTERY TO ME"

"How any contractor can afford to do this work for much less than 14c is a puzzle to me," said Commissioner Edoff at the close of the meeting "I have spent some time in looking into the matter and cannot figure a legitimate profit for them if the work is done according to the specifications of the city engineer. Personally I would rather pay 15 cents per square foot for the work and have it done right than 10 cents per square foot and run the risk of having to tear up the walk and relay it within a year."

The commissioners referred the matter of the drainage system in Lakeside park, which will cost about $4000 when completed, to the city engineer's office for further consideration.

BRIDGE PROJECT GAINS HEADWAY

Allan C. Rush Says He Will Be Able to Dispose of $20,000,000 Bond Issue.

Allan C. Rush, promoter of a scheme to bridge the bay between Oakland and San Francisco, which was endorsed by the directors of the Merchants' Exchange some time ago, has notified the directors that he has had two offers for bonds of the project, which is assuming promising proportions. Rush proposes to build the bridge at a cost of $20,000,000, Oakland and San Francisco to furnish terminals.

Rush, who has been in the East in connection with his scheme, states that he has prepared a bill to be presented in both the Senate and House of Representatives at their next session granting all rights for carrying out the project. This was made necessary by the inability of the Secretary of War to grant all the rights needed.

Upon the passage of these bills and the granting of sixty acres for terminals from the city of Oakland and fifteen acres from San Francisco Rush declares that he can dispose of the bonds for the project at 5½ per cent to a Paris concern, or at 6 per cent to a New York party.

HUSBAND MUST WASH CHILDREN

As Much His Duty to Care for Babes as His Wife's, Rules Court.

By an objection he raised to a question put to his client this forenoon in Judge Harris' department of the Superior Court, by opposing counsel, Attorney Austin Lewis, socialist and ardent advocate of Woman's Suffrage, went on record as believing that in the home it was not the duty of a husband to wash children, even though the wife allowed them to go to bed with dirty hands and faces. Judge Harris overruled the objection, indicating thereby that he was not in accord with Attorney Lewis' view, even though he was an "old line" Republican.

It was during the trial of the suit brought by Christian Gehb for a divorce from Julius Gehb that the incident occurred. Mrs. Gehb had told the court all about alleged brutalities her husband had inflicted upon her and the children, when Gehb took the stand in his defense. He said that his wife was careless in her personal habits and household duties, that she allowed her home to accumulate vermin and that she neglected the children to a degree that she even let them go to bed with dirty bodies.

"Why didn't you wash the children when you saw this?" asked Mrs. Gehb's attorney.

"I object to that question," interposed Attorney Lewis, representing Gehb, "because it is immaterial and for the further reason that it is not the duty of a husband to wash the children when he has a wife for that purpose."

"Overruled," announced Judge Harris, with a twinkle in his eyes. "It is as much the duty of the husband as of the wife to see that children are properly cared for."

MONETARY COMMISSION MEETS IN CHICAGO

CHICAGO, Oct. 19.—The first sitting in the west by the National Monetary Commission opened here today. Edward B. Vreeland, chairman of the sub-committee which is holding the sessions in the west, said he expected the hearing would continue over two days and that during that time anyone having suggestions relative to monetary systems usable by the United States, was invited to air his views before the sub-committee. CHINESE WOMEN NURSES.

A Red Cross organization has been started here. At Hankow and Wu Chang Chinese women are serving as Red Cross volunteers for the first time in history.

Shanghai is a hotbed of revolution and rumors of plots and counterplots are numerous. A formal appeal issued by the revolutionary agents here says:

"We appeal for the co-operation of our brethren throughout the world. Those with money should contribute funds; those with wisdom should devise plans; those with physical prowess should mount steeds and join the ranks; those with information should secretly report the enemy's condition. We expect that our movement will succeed. If it fails the ten days' massacres of Hang Chow and Kialing, when the Manchus subdued China, will be repeated.

"It is hoped that our patriotic brethren will respond from all directions and with unanimous hands will turn this universe about."

Pekin Alarmed by Rumor of Reverses

PEKING, Oct. 19.—The court's official announcement this morning that telegraphic communication with Hankow had been interrupted since sunset last night caused consternation throughout the capital today. The wildest rumors of reverses to the Imperial arms spread like wildfire, although no definite facts to support them were available. Much significance was attached to the fact that the government has refrained from issuing any official announcement of a victory in yesterday's engagement with the rebels.

Among foreigners who may be regarded as impartial observers it is generally believed that the situation at Hankow has not been appreciably improved by the events of the last 24 hours.

Government officials continue to express the utmost optimism. They declare that the severance of telegraphic communication for a period of only 12 or 18 hours over a line 650 miles long is no ground for apprehension. They insist that the 21,000 troops and seventy guns which have left Peking for Hankow, most of which are now enroute, should be sufficient to swamp any revolutionary attack. Some of the rumors current today, however, hint at dissatisfaction in the army.

An imperial edict today places all naval and military forces in the region of the Yang Tse Kiang under the control of Yuan Shi Kai, who is directed to inflict rigorius punishment on the rebel ring leaders and to appeal to "the misguided and coerced rebels" to renew their allegiance to the state.

Yuan Shi Kai is expected to start tomorrow for Hankow to assume the vice-royalty of the district formerly known as Hu Kuang Province but now divided into the provinces of Hupeh and Hunan. The movement of troops southward is proceeding smoothly. Official circles minimize the importance of yesterday's fighting at Hankow, describing it as a preliminary skirmish which forced the rebels to retreat. Natives of Hankow claim the rebels are deserting.

Queues or Heads Must Come Off

SAN FRANCISCO, Oct. 19.—Short hair has been made the distinguishing mark of the Chinese revolutionists, according to a message from Hankow received today by the Chung Sai Yat Po, the Chinese daily paper which says the revolutionary government has given the male inhabitants of Hankow and Wu Chang until October 22 to cut offtheir queues. This means that those reuntil October 22 to cut off their fusing to lose their queues will lose their heads, says Ng Poon Chew, editor of the paper and of one of the local leaders of the young China movement.

Another special dispatch to the paper from Shanghai records a rumor that three imperial warships have surrendered and raised the flag of the republic. It is also said that the rebels have captured Wang Chow, Province of Hupeh, occupied the forts and telegraph office and are now advancing toward Sheung Yang.

Other messages say that the American consul at Nanking has asked the American legation at Peking for warship protection, indicating serious trouble there. Two daily papers have been established by the rebels in Wu Chang.

A cable dispatch from Hongkong received here today by the Chinese Free Press says the government is extremely apprehensive because of the revolutionary feeling in the district of Hueng San, and fears that the four imperial regiments stationed there are likely at any time to desert to the enemy. Viceroy Chan Ming Chi at Hongkong has placed General Leung Chy Quong in charge of the affected district with orders to quell promptly any disturbances that may arise. Large quantities of ammunition for the use of the imperial troops are being forwarded to the city of Canton. The Hongkongese also are reported to be in open sympathy with the republicans.

SUIT DOESN'T FIT; WOMAN WINS ONE

Justice Called On to Act Part of Modiste and Rules for Defendant.

SAN FRANCISCO, Oct. 19. — Justice of the Peace Conlan was called upon this morning to determine the fit of a tailor-made suit with hobble skirt effect ordered some time since by Mrs. Ida Crawford, a beautiful matron of 515 Ninth avenue.

The tailor, Joseph Fero, of 228 Grant avenue, brought suit against Mrs. Crawford for $37.50, because she refused to pay for the dress. It developed in court that she had ordered a semi-fitting jacket, a long coat and a hobble skirt, and that in no particular, according to her claim, did the product of Fero's workmanship fit her.

She asserted that the skirt was entirely too loose, and that the sleeves had been "gathered" instead of being made plain. The court found judgment in her favor and she does not have to pay the bill.

Both cases were set for November 3 for preliminary examination.

Millionaire Moore Lumps 'Em With Women in Divine Complaint.

SAN MATEO SOCIAL SET THE SETTING

Wife Retaliates With Counter Charge of Cruelty and Other Things.

SAN FRANCISCO, Oct. 19.—"A number of women in the San Mateo social set do nothing but play bridge or poker, drink cocktails and smoke cigarettes. Their dissipations unfit them for household duties and the home life is rendered unhappy or impossible."

This from John J. Moore, millionaire merchant of San Francisco, who is being sued for divorce by his wife, the beautiful Lillian Wagner-McCarthy-Moore.

Mrs. Moore charges her husband with extreme and repeated cruelty and with a graver offense. Moore denies the truth of every allegation in his wife's complaint, and declares that he will at once file an answer and cross-complaint, and demand that he and not his wife, be given a divorce.

TIES UP PROPERTY.

Attorneys Jordan, Lowe & Brann represent Mrs. Moore, and McClanahan & Derby are guarding Moore's legal interests. The superior court of San Mateo county has issued a temporary restraining order which prevents Moore from sequestering any of his property, and October 26 the lawyers for Mrs. Moore will ask that this order be replaced by a permanent injunction, and that the complaining wife be granted counsel fees, alimony and costs of action pending the determination of the divorce action.

There seems to be a lively prospect that the trial of the Moore suit will involve a general upturning of peninsular society. Moore accuses his wife of many of the offenses she has lodged against him in her complaint, and he says he will fight the case to the last ditch.

To the influences of high society Moore ascribes the wreck of his domestic happiness. He does not hesitate to condemn a social system that operates, he says, to make a woman forget that she is a wife and mother, to make her reckless of her good name, to break down her moral ideals, and to consume her with a vanity that fattens or hungers according to the granting or denial of the wish to be a social "high flier."

MARRIED TWICE.

Mrs. Moore is 46 years old, according to her husband's statement. She formerly was the wife of E. Avery McCarthy, who is now a resident of Los Angeles. She has two children by that marriage. One of them, an 18-year-old girl, lives with her father in the south. The other, a 12-year-old girl, lives with her stepfather, Moore, in this city. Moore has a 22-year-old son by a previous marriage. This young man is employed by the firm of J. J. Moore & Co., of which his father is the president.

"My one great wish in this matter," said Moore yesterday, "is that I may be able to shield my wife's little girl from the injury that must follow the necessary exposition of facts during the trial of the divorce action.

"I did my best to have the trouble between my wife and myself adjusted quietly and without much publicity. She has made this impossible by suddenly filing a false and sensational complaint against me.

CHARGES UNTRUE.

"There is not a word of truth in any of her accusations of cruelty. Never, during the years of our married life, have I raised my hand against Mrs. Moore. But she, on the contrary, often has beaten me until I was black and blue. I have a number of valid grounds for divorce against my wife, and her repeated acts of physical cruelty are only one of them.

"As to the other and more serious charge that Mrs. Moore lodges against me, I can only point to the fact that during the last twelve years I have slaved at my desk from 9 o'clock in the morning until after 5 o'clock in the evening, and have spent every night at my home in San Mateo county. I never was away from my wife until she recently drove me from my home when I took up my residence at the Pacific Union Club."

Tears welled in Moore's eyes and his voice quavered as he told of the long struggle he had had to satisfy the demands of his wife's vanity, her vaulting desire to be a social "high roller."

"WANTED TO BE A 'SPORT'."

"She wanted to be a sport," he said. "I bore the load as long as I could, but found at last that I could not satisfy her growing demands. Why, the Bank of California could not satisfy her!

"Yet," added Moore, "my wife was not wholly to blame. She was more or less the victim of bad influences of the social set in which she moved. She was brought under these influences by her former husband. He was a sort of real estate dealer, and he taught her to crave publicity and to aspire to the leading position in society. He had figured it out that every time his wife's name and picture appeared in the newspapers as a social leader his real estate business was advertised and benefited.

"I was opposed to that sore of thing, and after our marriage I went so far as to request the publishers of San Francisco newspapers not to print Mrs. Moore's picture. But she was wholly controlled by the contrary notion. She would give almost anything to see her name and picture in the newspapers, and I could not persuade her to take a different view of the matter.

"And then there came the baleful work of the follies and dissipation of the San Mateo social set. Many of the women of that set are addicted to gambling, drinking and cigarette smoking. They give but little thought to their home duties, and the effect of it all is to disrupt and destroy the true domestic relation. My wife was not the victim of any of these evil habits when we were married; but she was vain and ambitious and her mind was not strong enough to resist the environment in which she was placed.

"I always have wanted a home that was a real home, and I have worked early and late in the hope that I might give my wife all she desired, and that she finally would break away from the society evils that held her so close.

"But it was a useless strggle. The more I gave my wife the more she wanted, and the more I pleaded for the home the stronger became the grip that society held on my wife."

ANNEXED DISTRICT STILL ASKING FOR SEWERS

Van Alstine, Realty Expert, Makes Report On Subject to Council.

TELLS OF EFFORTS TO GET RIGHTS OF WAY

Improvement Clubs Seek to Have Streets Graded as Was Promised.

The city council is engaged in getting the proceedings under way for putting in the main sanitary sewers in the annexed district, and this morning received a report from E. L. Van Alstine, a realty expert employed by the city to secure rights of way for the sewers, that he is meeting with success in the work.

A communication was also received from the United Improvement clubs, imperatively petitioning the council to use the utmost expedition in grading and curbing certain streets in the annexed district.

The following communication from E. F. Van Alstine was placed on file, and City Clerk Frank R. Thompson was authorized to reply to that from the United Improvement clubs, detailing to that organization the present status of the case. The letters follow:

EXPERT'S COMMUNICATION.

Oakland, Cal., Oct. 18, 1911.

F. C. Turner, Esq., City Hall, Oakland.

Dear Sir: In response to your inquiry as to how the matter of obtaining rights-of-way for sewers in the annexed district, is going, I will say that I have already turned in about a dozen deeds for rights-of-way, all of which have been signed without any cost to the city of Oakland, and I hope soon to have several very important ones additional, without cost.

I find that people in the district are disposed to help out in this matter, but it is difficult to force things very fast, as property owners wish to have full and complete information of what is involved before they sign deeds, and it requires in many cases a number of visits before they can make up their minds. In other cases, delay is occasioned by absence of owners, and in still other cases the property is held jointly by several people, all of whom have to be seen and their signatures secured. In addition there are obstacles in the way of contracts to sell and mortgages, and in many cases owners desire to consult friends or their attorneys, and in one case the attorney has been out of town and unable to advise his client. However, I hope to be able to get things in shape as rapidly as possible.

Yours very truly,
(Signed) E. F. VAN ALSTINE.

CLUBS' COMMUNICATION.

Oakland, Cal., Oct. 17, 1911.

City Clerk, Oakland, Cal.

Whereas, it has been called to the attention of the United Improvement Clubs that over two years ago, one of the City Council had introduced proceedings to have some of our main streets improved, and petitions for this purpose had been circulated, signed and filed with the City Council, and street commissioners had been appointed for this purpose:

And whereas, the matter of this street work on Twenty-third, Twenty-fourth, Twenty-fifth and Twenty-sixth avenues is being unnecessarily delayed and the request by petition of the property owners and tax payers of this section was being neglected to the injury of all the people;

And whereas, nothing definite has been done by the city in this matter in the last few months, and we feel that it is time this work should have been completed,

Therefore, Be it resolved, that the United Improvement clubs hereby respectfully urge that there be no further delay in this matter, and that the Council act at once to give relief to this section, and be it further resolved, That our secretary send a copy of this resolution to the City Clerk, and request him to advise us how the matter stands, and when we can expect action.

UNITED IMPROVEMENT CLUBS,
Per A. A. Leonard, Secy.

SAN FRANCISCO, Oct. 19.—Felix McHugh of 1217 San Bruno avenue, was a passenger on a Howard street car this morning, when a man standing next to him dropped a knife on the floor. In stooping to pick it up the stranger asked McHugh to kindly step aside, at the time brushing against him. Hardly had he gained possession of the knife before he ordered the car stopped and left hurriedly. A few seconds later McHugh discovered that he had been robbed of $53. The dropping of the knife had been a trick to cover the light fingered work of the pickpocket.

SAN FRANCISCO, Oct. 19.—Mrs. N. Logan, wife of an eastern newspaper man and a resident of the Palace Hotel, is mourning the loss of a valuable crescent brooch containing twenty-six diamonds, said to be worth in the neighborhood of $1500; a gold bracelet set with emeralds and pearls and $305 in cash, which has been missing since yesterday.

With a party of friends Mrs. Logan went on an automobile ride through Golden Gate Park to the ocean beach, and when the hotel was reached on the return journey it was found that the chamols bag which had contained the valuables had disappeared.

Whether the jewels were lost from the car or were stolen when the party left the machine at several places, has not yet been determined. Dr. H. J. Cohn reported the loss to the police this morning.

DISEASE PUZZLES HEALTH OFFICERS

Mysterious Ailment Bears the Stamp of Dreaded Hog Cholera.

HAYWARD, Oct. 19. — At the request of Dr. F. W. Browning, local health officer, the State authorities will make an investigation into the disease which has been killing off numerous hogs on ranches in this vicinity. The disease is of a mysterious nature but shows signs which might stamp it as hog cholera.

When at its height many animals died daily but the disease seems to have abated within the last few days. Every precaution to prevent tainted meat getting into the market is being taken. The local authorities are unwilling to give out any names in connection with the ranches upon which the epidemic is prevalent.

SQUIRREL POISON STARTS BIG BLAZE

Phosphorus Ignited by Hot Sun and Big Acreage Burns as Result.

LIVERMORE, Oct. 19. — An examination made by Fire Warden McGlinchey into the cause of the destructive grass fire which swept over eighty acres of land near Carnegie a few days ago revealed the fact that it was started by phosphorus, used in poisoning squirrels, becoming ignited through the heat of the sun.

It is believed to be the first time that a fire has originated in this manner in the county.

It is not alone the convenience, or the freshness, or the crispness, or the unusual food-value, or the digestibility, or the cleanliness, or the price, that has made Uneeda Biscuit the National Soda Cracker.

It is the remarkable combination of all of these things.

If everyone, everywhere, knew how good they are, everyone, everywhere, would eat them—every day.

FOOTPAD HURLS GIRL TO GROUND

The Fiance of Young Woman Appears and Robber Shoots at Him.

RICHMOND, Oct. 19.—Attacked by a footpad while on her way home last night, Miss I. E. Roberston, assistant postmistress in the East Side postoffice, while carrying a large amount of the postoffice funds, escaped serious injury and the loss of the money by the fortunate appearance of Fred Rader, Miss Robertson's fiance, who frightened the robber away. Miss Robertson lives in San Pablo and it was after she had left the street car and was within a short distance of her home that the attack was made. The police have an accurate description of the footpad.

Miss Robertson, according to her custom, left Richmond after the closing of the office last night, taking the San Pablo car in charge of Motorman Snelling. The only other passenger in the car was a tall, smooth-shaven man, dressed in a grey suit and presumably about 26 years of age.

Snelling stopped the car at the usual place for Miss Robertson. She got off, and Snelling started the car. He failed to notice if his other passenger left the car. Miss Robertson proceeded in the direction of her home, and after she had gone about fifty feet the voice of a man behind her startled her.

The man ordered her to stop and then seized her by the throat, throwing her to the ground. At this point Rader, whose custom it is to escort Miss Robertson home from the car, appeared on the scene and the thief fled. Rader started in pursuit, when the footpad drew a revolver and fired three shots. Rader was unarmed, so abandoned the chase and assisted Miss Robertson to her home, where, aside from the nervous shock and bruises, she was found to be none the worse for the experience. She declares that her assailant was her fellow passenger of the street car.

DISCOVER CLUE TO CHICKEN THIEVES

The Horse and Buggy Used by Men Traced to Livery Stable.

SAN LEANDRO, Oct. 19.—The horse and buggy captured by Constable M. Borge after a pistol duel with a bold chicken thief here on Tuesday night has been traced to the Garrison livery stable on San Pablo avenue between Twenty-seventh and Twenty-eighth streets, Oakland. A good description of the two men who rented the rig has been given the officer.

The description of one tallies with that of the man who was nearly captured by D. MacMillan, superintendent of the orphanage at San Lorenzo. It is believed by the local authorities that a father and son have been perpetrating the numerous chicken thefts which have occurred in this vicinity in the past few weeks. The loss to ranchers aggregates hundreds of dollars.

The flames swept over six blocks, destroying many fences and threatening a number of homes.

Another grass fire, which originated at Eighty-third avenue and East Fourteenth street, gave the fire fighters considerable trouble late in the afternoon. The origin of the blazes is not known.

HOLDUP MEN SEEK SAFETY IN FLIGHT

Two Attempted Robberies Are Frustrated by the Victims.

SAN LEANDRO, Oct. 19.—Two attempted holdups occurred here last night in quick succession and caused considerable excitement. According to the stories told by the victims, both "jobs" were perpetrated by different men.

While on his way to the home of a patient, Dr. B. F. Mason was commanded to throw up his hands by a lone highwayman near Dutton avenue and East Fourteenth street. Dr. Mason, who was riding a bicycle, drew a revolver on the wouldbe bandit and frightened him away.

About an hour later Mrs. W. E. Oakes and her daughter, Miss Myrtle Oakes, were held up just after alighting from a Hayward car at Dutton avenue and East Fourteenth street. The bandit pointed a revolver at the women and demanded their money. Their screams frightened the robber and he disappeared into the darkness.

The man who attempted to hold up Dr. Mason is described as short and heavy. Mrs. Oakes declares the miscreant whom she and her daughter encountered, was tall and slim and wore a stiff hat. Town Marshal Geisenhofer and Constable M. Borge are working on the case.

AUSTRALIAN BOYS LEAVE RICHMOND

Realize $200 as the Result of Vaudeville Show Last Evening.

RICHMOND, Oct. 19. — With an excellent vaudeville and musical entertainment the visit of the 45 Australian boys, members of the Young Australian League, was brought to a close here last night. The entertainment was given in the opera house and was witnessed by one of the largest audiences of the season.

The program as given by the boys is one which they have been presenting in other cities of the State during their stay here. It consisted of several orchestral numbers, solos, both vocal and instrumental, and the presentation of a number of short sketches, together with an allegorical act, introducing Australian and American patriotic songs, which met with marked applause.

Following the entertainment the boys were the guests of a number of local people in their homes for the night, their visit closing this morning at 7 o'clock when they left for San Jose.

The boys are paying their traveling expenses through this country by giving their entertainments, and as a result of their Richmond visit and the ball game, which they played yesterday afternoon with the boys of the Union high school, they realized some $200. The ball game resulted in a defeat for the visitors by a score of 9 to 4.

FATHER DYING; SON IS BLAMED

Manuel Nenez Charged With Attempt to Kill Parent.

DANVILLE, Oct. 19.—Charged with assault with attempt to kill his father in a family row, Manuel Nenez, 35 years old, is out on bonds of $5000, while his father, Antone Bent Nenez, an aged farmer, is lying in a dying condition at the Danville hospital. The trouble between father and son broke out yesterday morning on the Nenez ranch near here when Manuel tried to choke his father after a wrangle concerning a division of family property.

Mr. and Mrs. Nenez, both well known in this vicinity, and who had lived together for forty years, decided to separate on Monday. Then came the question of settling the property rights. All went well until Nenez began to turn over some of the property, which, it was claimed, belonged to the son, Manuel. Manuel objected to the manner of procedure, claiming he was not given his full share. Following an argument, Manuel grappled with his aged father and secured a hold on Nenez's throat and choked him until neighbors intervened.

Manuel was arrested yesterday afternoon by Sheriff R. R. Veale of Contra Costa county and Constable Claude Harris of Danville. He was taken to Martinez and booked on a charge of assault with attempt to commit murder.

DYNAMITE FOUND IN CEMENT MIXER

Explosive Was Attached to the Power Wires Ready to Be Set Off.

RICHMOND, Oct. 19.—But for a fortunate discovery a serious explosion with almost certain loss of life might have occurred when J. J. Davis, a street contractor, started work with his concrete mixer yesterday. The discovery was of several pounds of dynamite placed in the mixer and so attached by fuse to the power wires that when the current was turned on to start the mixer the explosive would have gone off. Davis has had trouble with some of his former employes and believes he knows the men responsible for the placing of the explosive. The police have been asked to aid in their apprehension.

The mixer in question stands at Third street and Cutting boulevard. When one of Davis' men went yesterday to put the machine in operation he detected something wrong with the wiring and the dynamite was discovered concealed in the side of the mixer.

JUST IN TIME

Some Oakland People May Wait Till It's Too Late.

Don't wait until too late.
Be sure to be in time.
Just in time with iney ills
Means curing the back
Before backache becomes chronic;
Before serious urinary troubles set in.
Doan's Kidney Pills will do this.
Here is testimony to prove it:

Mrs. Mary Cannon, 2014 Tenth St., Berkeley, Cal., says: "Ten years ago I began to suffer from kidney and bladder trouble and the misery I endured cannot be fully described. The trouble must have been in my system a long time, as it seized me suddenly without warning. I had a pain in my back and often it was so severe that I could not refrain from screaming. I often had to take to my bed. As if the pain were not enough to annoy me, trouble from the kidney secretions set in. This steady drain weakened my entire system. My complexion became sallow and dark rings encircled my eyes. Headache and dizzy spells were common and I was in despair. Being advised to try Doan's Kidney Pills, I did so and they proved to be just the remedy I needed. The contents of the first box made me feel like a new person and before long I was cured. I am now in good health and my kidneys are doing their work as they should." (Statement given August 12, 1907.)

A SECOND STATEMENT.

On January 19, 1910, Mrs. Cannon said: "During the past year I have had no need of a kidney medicine. I gladly re-endorse Doan's Kidney Pills and shall always have a word of praise for them."

WOULD-BE KIDNAPER FOILED BY CONSTABLE

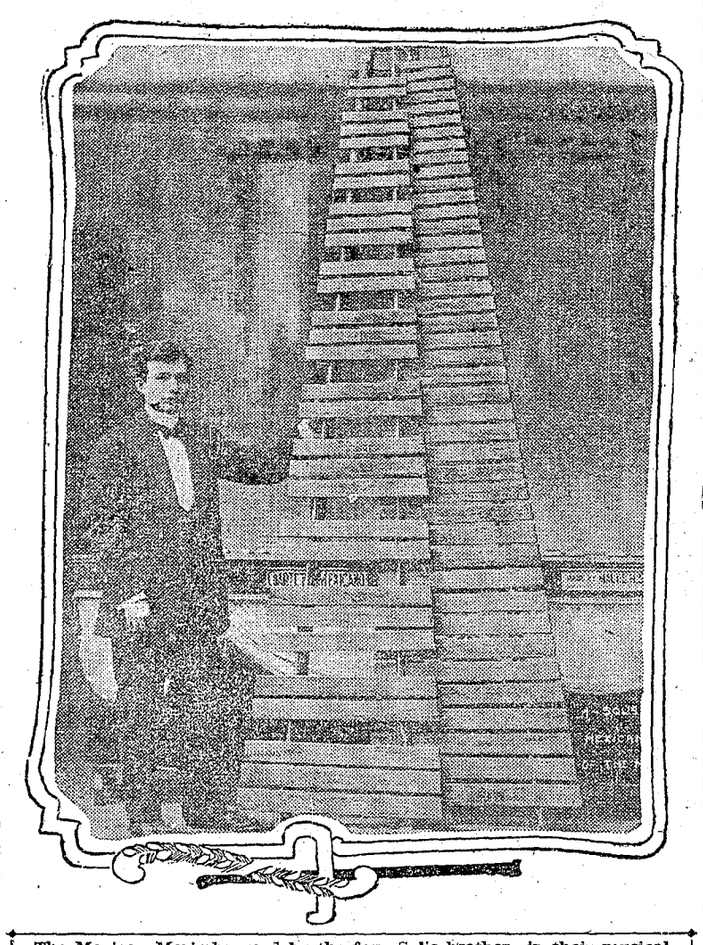

RED BLUFF, Oct. 19. — Fred Pickett, a teamster of this county, tried to kidnap his child from the home of its grandmother at Anderson Tuesday night and was fired upon by Constable Martin at Cottonwood, who took the girl from him and returned it to its grandparents. Pickett was arrested, but gave bail and has started legal proceedings to secure the custody of his child.

Mrs. Pickett dropped from sight a week ago and it is claimed by Pickett and many others that she eloped with Constable Harris of Tehama county, who disappeared at the same time, leaving a wife and two children. Every effort to locate the couple has failed.

CHARGED WITH FORGERY.

FRESNO, Oct. 19.—After a search of several months, B. P. Phillips, wanted in Coalinga on a charge of obtaining property under false pretenses, and in Fresno, of forgery, has been caught in Ventura county and brought to this city. Phillips got into trouble selling oil property, to which, it is alleged, he had no claim, and is charged with forging deeds to the land.

BELL AUDIENCES HEAR NEW AND TUNEFUL INSTRUMENT

The Mexican Merimba used by the four Solis brothers in their musical act at the Bell.

It has been said that the greatest and most soul inspiring music to be heard anywhere in the world can be had down in Mexico. Guitars have had their fling for soft, mellow Spanish ditties. Now comes the merimba, an instrument which resembles a xylophone in many ways, but the tones gained from this instrument makes the xylophone sound like a hurdy-gurdy. The program of the Solis brothers at the Bell theater this week embraces popular, semi-classic and classic, but not too much of either to become wearisome.

Those who still retain the memory of that delightful vocal combination, "The Empire City Quartette," will rejoice in the announcement of the appearance at the Bell this week of Harry Mayo, who will be remembered as having a pleasing, big resonant basso voice. Mr. Mayo boasts of one of the deepest bass voices on the vaudeville stage. Mayo renders a most pleasing program of popular song hits. He sings most of the songs made popular by the famous quartette, of which he was the leading member.

KLUTING'S ANIMALS.

Probably one of the greatest drawing cards in vaudeville is a good animal act, excepting, of course, the ferocious kind. But there are so many of these acts of so ordinary a nature that large circuits hesitate to book them because they rarely are up to the standard set by the management. There is, as almost everyone knows, a science in training dogs and cats, but when it comes to training rabits and pigeons that's quite a different matter, because of the usual indolence of this particular species of animals. Prof. Kluting declared it took just three years to prepare his animals for their debut. Probably the most interested spectators at any animal act are the children. They do not miss a "stunt" that's done, and go home usually and experiment with their own comrade. Prof. Kluting does not whip his animals—all his success in the art of training has been accomplished by kindness

SEVEN COLONIALS.

By far the most pretentious acrobatic act are the Seven Colonials. The act is dressed in the most striking colonial costume, and as the curtain ascends on a colonial parlor the company is discovered playing and singing. Quick as lightning, several members are thrown in the air, and the acrobatic part of the offering is begun. Sensation follows sensation in this, the cleverest; by far, the swiftest acrobatic act to fare this way. Without fear of contradiction it might be stated that their equal is yet to be found.

Bijou Russell, the sunny Southern song bird, is vivacity itself in a lively song and dance number.

Violette & Olds, mental telepathists, startle with their power of thought transmission, as demonstrated in a series of practical demonstrations.

A good character singing and dancing number is contributed by the Ballicini sisters.

The War Department has advised Beneral Bell it is without authority to act.

PRISON CONGRESS DEBATES MORALS

Tuberculosis Among Convicts Also Comes Up for Long Discussion.

OMAHA, Oct. 19. — Tuberculosis among prisoners was a topic of discussion at today's session of the American Prison Congress. A paper by Frank Moore, superintendent of the State reformatory at Rahway, New Jersey, treated the question of reforming those whose moral delinquencies might be traceable to mental defects.

The number of persons in penal institutions who belong to the class whose minds have a certain amount of development, but who are too weak to reach the full mental standard of civilization, was declared surprisingly large by Frank Moore.

In the New Jersey reformatory 46 per cent of the inmates were found to be deficient, he said, in the last two years. A special system of training must be adapted to such charges, he declared, and he challenged the belief of many that such charges should be kept in permanent custodial care.

"Our success with this class on parole has been fully as good as it has been with the normal minded," said Mr. Moore. "Of 83 paroled during three months, not long ago, they have made even a better record than the normals. Sixty-three of the 83 were mentally normal, and of that number nine, or 14 per cent, have been returned, either for committing crime or breaking parole agreements. Twenty of the 83 were deficient, of whom only two, or 10 per cent have been returned, and in neither of these cases was it for committing crime. We have on record very many instances of this class that are doing remarkably well."

PAINTER FALLS FROM SCAFFOLD AND IS HURT

While working on a building in Forty-third street, F. Bailey, a painter, lost his balance late yesterday afternoon and fell from a scaffold thirty-five feet to the ground. He was picked up in an unconscious condition and taken to the Receiving hospital, where it was found his right shoulder was broken, his right wrist sprained, the muscles of his back strained and that his body was bruised and lacerated from head to foot. His condition is precarious. Bailey resides at 5705 Adeline street. He is 43 years old.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

Terrible Suffering

Eczema All Over Baby's Body.

"When my baby was four months old his face broke out with eczema, and at sixteen months of age, his face, hands and arms were in a dreadful state. The eczema spread all over his body. We had to put a mask or cloth over his face and tie up his hands. Finally we gave him Hood's Sarsaparilla and in a few months he was entirely cured. Today he is a healthy boy." Mrs. Inez Lewis, Baring, Maine.

Hood's Sarsaparilla cures blood diseases and builds up the system.

HITCHCOCKS DENY SEPARATION RUMOR

Declare All Is Peace in the Household of the Educator.

SAN RAFAEL, Oct. 19.—Announcement was made yesterday that Mrs. Hitchcock, wife of Rev. Charles Hitchcock, principal of the Hitchcock Military Academy, at San Rafael, would sever her connection with that institution in the early future and depart for England on a visit to relatives. This, following upon the recent purchase of the interets of Dr. Hitchcock in the academy by Rev. W. Sherer, a former member of the faculty, has caused considerable comment in social circles in Marin county, but the rumors that a separation, and possibly a divorce, would follow are emphatically denied by those interested.

"Dr. Hitchcock has decided to give up control of the academy," said W. A. Richardson, attorney for the Hitchcock's, yesterday. "He has been in ill health for some time, and at the solicitation of his family and friends has decided to relinquish his work in educational matters.

DENY RUMORS.

"Reports that have been current to the effect that a separation has taken place between Dr. Hitchcock and his wife are utterly without foundation. When Dr. Hitchcock sold his interests in the academy to Mr. Sherer it was decided that Mrs. Hitchcock would remain there for a time for the purpose of assisting in the work of the institution. Later, however, it was found that her health was too poor to admit of her assuming the responsibility.

"Mrs. Hitchcock will leave for England within a few weeks. She will leave here her young son, who will continue his studies in the academy. Mervin Hitchcock, the son of Dr. Hitchcock by his first wife, will accompany his father to Porterville, where the doctor has large interests in the Porterville Land and Water Power Company. Later Dr. Hitchcock will take a trip to England and will there meet Mrs. Hitchcock.

PLAN TO RETURN.

"It is certain that Mrs. and Dr. Hitchcock will return to this country together and will reside at Porterville. Any talk of a separation or divorce is utterly without foundation. Neither of the parties involved has any grounds upon which to obtain such a result."

Sherer, who has assumed the interests hitherto held by Dr. Hitchcock, also declared that no trouble existed between the former head of the academy and his wife, and that the only reason for the minister's withdrawal from the institution was because of ill health.

MASONS TO HAVE MAGNIFICENT HOME

Scottish Rite Headquarters at Washington to Cost a Million.

WASHINGTON, Oct. 19.—A cornerstone of what Sovereign Grand Commander Richardson of the Scottish Rite Masons of the Southern jurisdiction declared would be the most magnificent building in the world devoted alone to use of Masonry, was put in place yesterday with elaborate ceremony. It is to be the national home of the supreme council southern jurisdiction Scottish Rite Masons, and the first stone was laid with the trowel and square used by George Washington in beginning the United States capital.

Prominent members of the order from all parts of the United States attended the ceremony.

An interesting feature of the ceremony was an impromptu suggestion by Grand Commander Richardson. The stone having been laid and all the speeches having been concluded he asked former Senator Teller of Colorado and Erasmus T. Carr of Montana, the two oldest members of the Supreme Council, to step forward and with the Washington trowel spread a little mortar on the big block of granite. They were followed by all the other members of the council and by William Homan and Stephen B. Affleit, deputies from the northern jurisdiction of Scottish Rite Masonry.

The building, which is to cost more than $1,000,000 will be completed in about a year and a half.

WIFE SAYS LIFE WAS IN DANGER; ASKS DIVORCE

In addition to imbibing alcoholic beverages so freely that he has been unable to earn a living for his wife and three minor children, according to Christine L. Leidecker's complaint for a divorce filed today in the superior court, Alfred Leidecker has repeatedly gone home under the influence of liquor and threatened to take her life by pointing a loaded pistol at her. He has also threatened her with razors and butcher knives, it is alleged, driven her and the children from home and promised to knock Mrs. Leidecker's head off if she returned.

PROVES SHE WAS CRAZY AND SECURES DIVORCE

Lillian Peterson had her marriage to William Peterson annulled late yesterday afternoon in the superior court. Peterson, the testimony showed, only secured the consent of his wife to marry him after he had repeatedly proposed to her, and Mrs. Peterson proved to the satisfaction of the court that she was insane when she finally accepted him.

SAVAGES RETURN TO CANNIBALISM

Preacher Says Recrudescence Is Due to Illegal Recruiting.

VICTORIA, B. C., Oct. 19.—"Lack of proper supervision over French adventurers engaged in illegal recruiting, or rather kidnapping of natives in the New Hebrides, where the joint control by British and French is now working well, has been responsible for several massacres and a recrudescence of cannibalism recently," said Rev. J. G. Paton, who is a son of the noted South Sea missionary killed in the New Hebrides and who arrived last night by the steamer Zealandia from Malekuls, New Hebrides, where he has been engaged for 19 years in mission work.

Rev. Mr. Paton said that shortly before he left a French trading vessel made a raid and a number of natives were kidnapped, and the natives in revenge attacked the steamer and captured three of the crew, all natives. These were killed and eaten. Illegal recruiting, he said, was responsible for many murders and eleven men had paid the price of this business with their lives since last October.

ALASKA SHAKEN BY BIG EARTHQUAKE

Terrifying Roar Precedes the Shock On Coast to Southwest.

TACOMA, Wash., Oct. 19.—The southwestern Alaska coast was visited by another severe earthquake Tuesday. Cordova cables say the shock lasted several seconds. The coast glaciers were shaken up and sluicing mining operations were stopped. Captain Harry George of the United States navy, retired, who was camped at Port Wells, ninety miles west of Valdez, has written a thrilling description of the September earthquake, which followed a singularly calm evening of oppressive warmth. He says:

"At 8 o'clock a peculiar rumble was heard to the eastward which grew in intensity until it became a deafening roar beyond the power of mortals to adequately describe. The gravel beach undulated in well-defined waves, sea grasses swayed as in a heavy gale and the crags and trees rocked in unison before our bewildered eyes.

"For two or three hours afterward we experienced quakes at frequent intervals. It was as though the earth's crust over a wide area had been upset by the initial disturbance and these secondary vibrations were due to the re-establishment of repose throughout the perturbed zone."

Before Having an Operation

Please Read These Two Letters.

The following letter from Mrs. Orville Rock will prove how unwise it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before. Then after all that suffering Lydia E. Pinkham's Vegetable Compound restored her health.

HERE IS HER OWN STATEMENT.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement—I could not be on my feet for a long time. My physician treated me for several months without much relief, and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. To-day I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise every woman who is afflicted with any female complaint to try it."—Mrs. Orville Rock, R. R. No. 5, Paw Paw, Mich.

"There never was a worse case."

Rockport, Ind.—"There never was a worse case of woman's ills than mine, and I cannot begin to tell you what I suffered. For over two years I was not able to do anything. I was in bed for a month and the doctor said nothing but an operation would cure me. My father suggested Lydia E. Pinkham's Vegetable Compound; so to please him I took it, and I improved wonderfully, so I am able to travel, ride horseback, take long rides and never feel any ill effects from it. I can only ask other suffering women to give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation."—Mrs. Margaret Meredith, R. F. D. No. 3, Rockport, Ind.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

WOMAN AND JURY TURN HIM DOWN

"Ruzzie Lamb" Wanted "Love, Not Money;" Was Awarded Neither One.

NEW YORK, Oct. 19.—Russell G. Griswold, was today denied the verdict by a jury in his $50,000 breach of promise suit against Helen Woodruff Smith, divorced wife of Homer Cummings, three times elected mayor of Stamford, Conn.

"Ruzzie Lamb" as he had been affectionately designated in numerous love epistles written prior to the action of suit, declared that he "Cared nothing for money; it was love I wanted," he said, "and she turned me away."

The case went to the jury yesterday afternoon and after three hours' deliberation the foreman announced that they could not arrive at a verdict. Judge Brown sent them back and this morning an agreement was reached.

During the hearing yesterday afternoon "Ruzzie" was asked if he remembered a letter addressed to him on September 27 from South Dakota, in which Miss Smith asked him to destroy all her letters. He remembered only a letter in which she asked him to destroy three or four of her letters.

Attorney Mooney then read a letter from Miss Smith asking Griswold to destroy it on sight. Another letter was read and Griswold was asked if he had not written that in answer to Miss Smith's communication. He denied it. The letter read as follows:

"As for the letters, they are all destroyed—even the one I got yesterday. Helen, dear, I have been most guarded about the whole affair."

One of the letters he did not destroy read:

"Dear Ruzzie Lamb: Where in the devil have you been? I have been sitting here alone enjoying the drinks and the smokes. Oh gee! Doesn't that sound devilish? Yours for health, Lydia Pinkham."

MRS. LENNA STANNARD CHOSEN GRAND MATRON

SAN FRANCISCO, Oct. 19.—The grand chapter of the order of the Eastern Star, in session in the Palace yesterday, was engaged in the election of grand officers for the ensuing term, but at the adjournment the the grand secretary and grand treasured were still to be elected.

The first officer chosen was John L. McNab of Casimer chapter of Ukiah, who was elected grand patron by acclamation. Then followed a contest for grand matron, there being a number of candidates in the field. The choice fell on Lenna W. Stannard of Long Beach chapter of Long Beach, the incumbent grand marshal of the chapter. Dr. G. G. Vandelip of San Rafael was chosen associate grand patron and Mrs. Addie L. Sleeper of Berkeley, associate grand matron.

Last evening the past matrons and past patrons gave an entertainment in Golden Gate hall. This was followed by a supper.

It is probable that the next session of the grand chapter will be held in Los Angeles.

BIG CONGRESS SOUGHT FOR SAN FRANCISCO

KANSAS CITY, Oct. 19.—San Francisco, a little early, but early with a purpose, expresses a desire to entertain the Trans-Mississippi Commercial Congress in 1915, the year of the Panama-Pacific exposition. In a letter to A. F. Francis, secretary of the congress, Hugh Craig of San Francisco says that "to be early is to be on time."

The congress meets in Kansas City, November 14 to 17, and nearly 300 delegates and visitors from California will attend. Many of them will be from San Francisco. The entire delegation, Craig says, will be instructed to get the 1915 session.

GREAT TIDINGS TO SUFFRAGETTES

Woman Is Captain and Pilot of Mississippi River Steamboat.

ALTON, Ill., Oct. 19. — Holding a pilot's and master's license, and with a thorough knowledge of the Mississippi and Illinois river, a woman at the wheel of the steamboat Mary, is one of the competitors for transportation of the apple crop from the Illinois district.

Mrs. William G. Hulett, captain and pilot of the boat, belonging to her husband, is the only woman steamboat master in this section of the Mississippi valley.

Several years ago, when her husband failed in his examination for a pilot's and master's license, because of defective eyesight, Mrs. Hulett came to St. Louis and passed with credits to spare. The Mary was tied up at Alton last night.

BRILLIANT WEDDING REVEALS QUIET ONE

BROOKLINE, Mass., Oct. 19. — That the brilliant wedding of Miss Frances Habirshaw of Brookline and Henry Gordon Hawes Jr., of Santa Barbara, Cal., which was announced as having taken place at the Church of Our Savior, Longwood, was only formal to follow a secret ceremony at Medford, June 1, startled society when it became known here yesterday.

The second marriage was one of the most brilliant of the season and was followed by a magnificent reception. The bride is the daughter of Mrs. Frederic Habirshaw, formerly of New York, and a graduate of a school at Briarcliff on the Hudson, class of 1909.

The bridegroom is the son of Mr. and Mrs. Henry Gordon Hawes of Santa Barbara, Cal. The Medford marriage was performed by Allston P. Joyce, city clerk and justice of the peace. The certificate was not filed until October 11.

UNABLE TO PAY FINE; FACES LIFE SENTENCE

PORTLAND, Ore., Oct. 19.—United States Commissioner Cannon is confronted with the curious problem of how to avoid sentencing a man to imprisonment for life for debt. Hugh Hough, an Indian from the Klamath reservation, is the man. His debt is the amount of his fine owing to the federal government. His crime was the introducing of liquor on the Klamath Indian reservation.

Although the constitution of the United States forbids cruel and unusual punishments, there seems to be no getting around a federal statute providing that persons convicted of taking liquor on a reservation shall be imprisoned until they pay the amount of their fines. Hough says he has no money and cannot pay his fine of $100 and costs. If he doesn't pay it, the life sentence is staring him in the face.

Schlitz in Brown Bottles

No "Skunk" Taste

That "Skunk" taste sometimes detected in pure beer is the result of exposing it to the light.

Light starts decay even in pure beer. Dark glass gives protection against light.

Schlitz is brewed in absolute cleanliness—cooled in filtered air—then it is aged for months, to prevent biliousness, then filtered through white wood pulp—then every bottle is sterilized, and delivered to you in brown bottles, thus protecting Schlitz purity from the brewery to your glass.

If you knew what we know about beer you would say "Schlitz—Schlitz in brown bottles."

See that crown or cork is branded "Schlitz."

EX-CONVICT IS SOUGHT FOR MURDER

Thirst for Vengeance Prompted Slaying of Family, Is Belief.

Slav Families of Ellsworth Are Terrified; Posses Scour Country.

ELLSWORTH, Kas., Oct. 19.—William Showman, his wife and three children who were slain with an ax last Sunday, were victims of the person who afterwards registered at the Baker Hotel in this city and during the night fled, leaving behind a bundle of clothing including a bloody shirt. This was the finding of the coroner's jury announced in the case of the murders of the five members of the Showman family discovered last Monday.

The search for the Slav ex-convict, Charles Marzyek, whose description is said to fit that of the man who left the shirt in the hotel, continued today. The handwriting of "John Smith, Junction City," placed on the hotel register, is said to be identical with that in letters received from Charles Marzyek.

The terror among the Slav families who were in any way associated with Marzyek's sentence to prison for wheat stealing had not subsided early today although posses have searched the country for five miles in every direction from this city.

CLOSE ON TRAIL.

Near Genezo, Kans., a sheriff's posse is believed today to be close on the trail of Marzyek. A deputy sheriff sent to Genezo by Sheriff Bradshaw reported today that a man answering the description of Marzyek had been seen there a few hours previously.

Sheriff Bradshaw and a deputy immediately raced to Genezo in an automobile. The prosecutor's office awaits a report from the posse and is prepared to send additional assistance to the officers in case they need it.

The suspect seen at Genezo is said by Prosecutor Samuel Bartlett to be the same man who stopped at the Baker Hotel here and left some bloody clothes the night of the murder. Officers from Ellsworth found that the man walked from here to Kanapolis and then rode a passenger train to Genezo. He was then traced to a rooming house in Genezo.

'COUNT' ACCUSED NEGLECTING WIFE

John Von Dolgorouki Is in Jail, While Spouse Is Dying.

"Count" John von Dolgorouki is being detained in the city prison while his wife, whom it is alleged he neglected to care for while she was suffering, is dying at the county infirmary. Mrs. J. P. Warren, who came from the East to care for her sister, declares that she will swear out a complaint against "Count" von Dolgorouki, charging a felony under the penal code which makes it compulsory for a man to provide medical attention for his wife when she is ill.

Von Dolgorouki claims to be a physician and declares that he was giving his wife medical attention. A bottle containing a sulphur blood-purifying concoction is displayed by the man to prove that he provided for her. Von Dologorouki claims that he is a graduate in medicine and surgery from the University of Heidelberg.

Mrs. Von Dolgorouki is under the care of Mrs. Warren, her sister, and it is anticipated that she will not live for more than three or four days. When her condition was brought to the attention of the Associated Charities it was found that she was in an unclean room and that the food and medicine provided was unclean and unhealthy. No physician had been called in attendance.

Von Dolgorouki was taken into custody yesterday afternoon and as he was led away by Captain Brown and Patrolman Collett the ambulance was driven to the house to take the woman to the hospital. Von Dolgorouki is alleged to have threatened the life of anybody who should interfere to care for his wife.

SHE'S ONE AND CARES NOT WHO KNOWS IT

DES MOINES, Ia., Oct. 19.—Mrs. Ella Flagg Young, superintendent of the Chicago public schools, delivered an address before several hundred teachers here last night. Just before the close of the meeting, Mrs. Young arose from her seat and waving her arms in the air shouted: "I am a suffragist."

VULCAN TROUBLES NOT YET ENDED

Insurance Company Faces Internal Struggle Over Presidency.

The roubles which the new Vulcan Insurance company of this city has been experiencing for several months past, as a consequence of the discovery by the State insurance commissioner that the company had not subscribed the million dollars with which it proposed to do business, have not ended.

Even when the full amount is on hand, the question will be raised to to who is to become the general manager of the concern. There have arisen two opposing factions, one of which is composed in the main of the friends of I. H. Clay of this city, who has a contract with the corporation to act as general manager of the concern for five years at a salary of $10,000 per year.

The other comprises friends of E. S. Wangenheim, of Newman who is the newly elected president of the concern. Wangenheim declares that Clay's contract is without value now and that the same will be the case even when the company secures the requisite amount of capital and secures a permit to do business.

Clay, on the other hand, declares that he will see that the terms of the contract are carried out and there is no danger of any person usurping the position to which he has been elected.

CITY WOULD KNOW RIGHTS TO STREET

The Spur Track in 42d Avenue Brings About Legal Investigation.

At the instance of Superintendent of Streets Perry F. Brown the City Council this morning authorized City Attorney Ben F. Woolner to make an investigation as to the right and title of the city in Forty-second avenue at the crossing of the Southern Pacific company, as a spur track has been placed across this street for the California Condensed Fruit and Syrup company without due authorization from the City Council. The dedication of this street, which has never been opened to the public, is in question, and Superintendent Brown is anxious that the matter shall be decided, as it affects certain sewer rights the city is attempting to gain in the annexed district.

Mayor Frank K. Mott stated that in making the investigation the syrup company should be notified that the Council has no wish to deprive them of the use of the spur track if it is not within the jurisdiction of the city. The company applied for permission to put down a spur track last January, but afterwards concluded that the permission of the city would not be necessary, and failed to prosecute the matter with the city.

JOHN HANKS, PIONEER RESIDENT, IS DEAD

John G. Hanks an old resident of this city died at his home, 1066 Market street, yesterday. Mr. Hanks will be long remembered by his numerous friends, many of whom, since his death, have learned what they would never have known from his manner—that he was suffering from a dangerous malady. With him the greeting was as cordial and the handshake as hearty to the last as though there were no clouds hovering over his future.

Although many disappointments and reverses fell along his pathway he was always hopeful.

CARMAN TO BE TRIED ON BATTERY CHARGE

BERKELEY, Oct. 19.—Elijah Jennings, conductor on the San Pablo avenue line of the Oakland Traction Company, pleaded not guity yesterday afternoon to a charge of battery, upon complaint of Charles Mains of 471 Grayson street, and his trial was set for next Monday in Judge Edgar's court. He is accused of having struck Mains in the mouth during a row on a street car.

FUGITIVE CAUGHT IN SOUTH.

LOS ANGELES, Oct. 19.—William Proper, aged 30 years, who, it is claimed is wanted in Portland, Or., on a felony charge, was arrested here late yesterday. Proper had just finished testifying in a case here wherein his wife was on trial under a serious charge when he was recognized and arrested.

'BENNIE' BENJAMIN DIES AT BERKELEY HOME OF SISTER

THE LATE BENNIE BENJAMIN

NOTED SPORTING WRITER PASSES

Many Mourn Him as Co-worker and Friend; Funeral Tomorrow.

SAN FRANCISCO, Oct. 19.—Benjamin S. Benjamin, for more than twenty years prominent in the world of sports as a newspaper writer, and was familiarly known to thousands as "Bennie" Benjamin, died yesterday in the home if his sister, Mrs. G. C. Stephen, 2405 McKinley avenue, Berkeley. Death was due to a complication of organic troubles and did not come as a surprise, as the well-known writer had been ailing for more than two years. His activity had only been discontinued during the last few months.

As sporting editor of the Chronicle during his long activity in this city Benjamin was best known.

Probably there was no person better informed in the United States on harness racing than "Bennie" Benjamin. This particular branch of sporting events had great attractions for him. This does not mean that he was not well informed in running horses. But with trotting stock Benjamin knew every sire and grand dame, time and driver that was ever registered on the trotting turf. In prize fighting he always was a recognized authority. Of the many sporting editors of this country Benjamin was one of the few who picked Johnson to win over Jeffries. This fact was rather singular, because Benjamin predicted years before that Jeffries would some day be champion heavyweight of the world, when the fighter first came to San Francisco from Los Angeles as a mere stripling of a boy.

BORN IN AUSTRALIA.

Bennie Benjamin was born in Toowoomba, Queensland, Australia, June 12, 1861. He held the 100-yard championship for Australia when a young man, and also was rated as a first-class football player. It was as a foot racer and football player that Benjamin came to San Francisco from Australia in 1880. He soon became identified with the Breeder and Sportsman. Leaving that paper he went to Los Angeles, where he did sporting writing. In 1890 he returned to San Francisco and shortly thereafter became sporting editor of the Chronicle, a position he held until the time of his death.

Besides his sister, Mrs. Stephen, at whose home he died, he leaves two other sisters, Mrs. Sarah Pitcher of Los Angeles, and Mrs. E. J. Hart, of San Francisco; B. A. Benjamin and Percy M. Benjamin of Los Angeles; L. S. Benjamin of Portland, Ore., and David Benjamin of San Francisco. His mother died last May.

WAS REAL BOHEMIAN.

Benjamin will be missed as much by the histrionic fraternity as by sportnig people. He had an exceptionally large acquaintance among actresses and actors. All the noted play folks that came to San Francisco were entertained by Benjamin in his bohemian fashion. His first and probably mose celebrated home was an attic at Clay and Kearny streets, formerly the studio of Mrs. Fred O'Brien. At the time of the fire he was living on the third floor of an old building at Montgomery and Pine streets. He was generous to a fault. The entertainments given to his friends and acquaintances will long be talked of by those fond of reminiscences. Integrity was his chief characteristic. He could neither be bought nor influenced.

The funeral will be held at 11 o'clock Friday morning from Third and Townsend street depot. Rev. M. S. Levy will officiate.

DE LORME DENIES STORY OF ACCUSER

SANTA CRUZ, Oct. 19.—The prosecution yesterday rested its case against Henry de Lorme when Detective George Van Gilder and Chief of Police Frank Briare of Stockton had given their testimony. While Briare was denying in the cross-examination that he had urged De Lorme to plead guilty to a vagrancy charge and thus receive a light sentence, the defendant called out in court that he was lying.

De Lorme was on the stand in his own defense all afternoon. He made a complete denial of the story told by Helen Whitson. When he told of pleading guilty in Stockton to vagrancy he told the judge that he had never been in jail before. De Lorme broke down and cried at this stage.

ALLEGED HORSE THIEF TAKEN.

SAN JOSE, Oct. 19.—After an all-night automobile ride, Frank Fumigali of Saratoga, wanted for horse stealing and for failure to provide for his wife and minor children, was captured yesterday at Ben Lomond by a posse from the sheriff's office and brought to this city and lodged in the county jail.

'LINCOLN' THEME OF HIS ADDRESS

Prof. Livingston Speaks Before Alameda County Teachers' Institute.

The ideal American was portrayed in the address entitled, "Abraham Lincoln and American Education," by Professor E. O. Sisson of the department of education in the University of Washington, who closed the Alameda County Teachers' Institute yesterday afternoon in Idora park theater, where 1000 pedagogues heard the distinguished savant.

The three days' convention was presided over by County Superintendent of Schools George W. Frick, who expressed his appreciation to the teachers and the lecturers for the assistance they gave him in making the institute a success. Mrs. Orrin Kip McMurray, soloist of St. John's Episcopal church of Berkeley, and Miss Muriel Andrews, violinist, furnished the musical numbers at the closing session.

Professor J. W. Livingston, formerly president of the Wisconsin State Normal school, who delivered a series of talks spoke upon, "Building up a Vocabulary."

"The true use of great men is prospective and educational," said Professor Sissons. "The essence of Lincoln's character was its purity. In our efforts to study the lives of great men we will have to elliminate other things. Lincoln tried to see things as they were and tried to avoid ambiguity. He always sought to prove things rather than admit them.

"He always considered both sides of a question. That was a human trait. He was a leader in civil crisis. He always thought of the whole side of an issue and never discussed things in fragments. He had a stern devotion to the right and an inflexible conscience. Lincoln was a common character with ideals that could be reached by every citizen."

ADOPT RESOLUTIONS.

The following resolutions introduced by Henry C. Petray, principal of the Grant school, were unanimously adopted by the Institute:

"Resolved, That we, the teachers of Alameda county extend to County Superintendent Frick our sincere thanks for the excellent program presented by him to his teachers at this Institute and also our appreciation of his geniality as presiding officer.

"Resolved, That we as teachers have received an inspiring uplift in the principles of patriotism, duty, and the high lights of educational work through the admirable presentation of the various subjects discussed by Messrs. Sisson and Livingston.

"Resolved, That we also wish to express our appreciation of the high class of music furnished us by Paul Steindorff and his assistants."

NO ILL FEELING, SAYS J. B. JORDAN

Committeemen of Chamber of Commerce Deny Members Were Slighted.

Rumors of hard feeling among the members of the Progress and Prosperity committee of the Chamber of Commerce because the committee was not suitably represented on the reception committee to greet President Taft on his visit here last Friday, are declared to be without foundation by officials of the committee. It has been reported that the committee was slighted entirely in the make up of the receiving party, and that as a result two members of the committee, who are also directors of the Chamber of Commerce, intend to resign.

John B. Jordan, president of the committee, whose name was not among those to receive the President, said when seen this morning:

"I am certain no slight was intended to the committee by anyone concerned, either by Mayor Mott, who announced the committee; Edson F. Adams, chairman of the committee; or Charles F. Cole, its secretary. The fact that my name did not appear as a representative of the subsidiary body of the Chamber was due to nothing but oversight, if it had any meaning at all. All the men concerned in the appointments are friends of mine, who would not leave my name off as a personal matter, I am sure.

"And as to the committee being unrepresented, it was not, for four members of the committee were members of the reception body, which only included 23 names in all, and five other members were on the arrangements committee.

"As for the rumors that two of the Progress and Prosperity men intend to resign as directors of the Chamber as a result of this fancied slight, if those men do intend to resign I am sure it is for no reason connected with this matter, for why should they resign from the Chamber because the committee was not represented in a matter which has nothing to do with the Chamber?"

Another of the officers of the committee when asked to discuss the rumors, declared that the absence of Jordan's name from the Taft reception committee was simply a regretable oversight and had absolutely no bearing on any resignations from the directorship of the Chamber.

GERMANY REACHES OUT FOR AMERICAN TRADE

The Oakland Chamber of Commerce has received a suggestive circular from the American Association of Commerce and Trade, Berlin, setting forth the possibilities of the expansion of American trade with Germany. This circular calls attention to the fact that Germany has a population of over 60,000,000; that the Germans, like the Athenians of old, are always looking for something new; that the Germans are larger buyers of American machinery and American-made goods than any other Europeans.

Their circular sets forth that some of the biggest American firms are doing a rattling good business in Germany. The American Association of Commerce and Trade in Berlin has been organized for the express purpose of promoting American trade with Germany. This organization is anxious to co-operate with American producers, and putting them in touch with German buyers.

FLORIST FOUND GUILTY OF BATTERY CHARGE

BERKELEY, Oct. 19.—Antone Avansino, a Shattuck avenue florist, was found guilty on a technical charge of battery by a jury in Judge Robert Edgar's court last evening, the complainant being Mrs. Nina Rhodes, who alleges that Avansino enticed her 6-year-old daughter, June Rhodes, and 8-year-old Geraldine Sherman into his shop by giving them a bouquet.

The jury which heard the evidence in the trial of Avansino on a charge sworn to by A. A. Sherman, father of Geraldine, failed to agree.

Avansino will appear for sentence next Monday.

DAUGHTER IS IN FATHER'S CHARGE

Fred Pickett Regains Possession of His 9-Year-Old Child.

ANDERSON, Cal., Oct. 19. — Fred Pickett of Tehama regained possession of his nine-year-old daughter Alma by a writ of habeas corpus here last night, the child having been taken from his custody at Cottonwood Tuesday night by Constable G. H. Martin, who fired three shots at the automobile in which Pickett was attempting to escape with the girl. Pickett drove from Tehama to Anderson Tuesday night and took the child from its grandmother, Mrs. W. W. Clark, to whom it had been given by its mother. He was intercepted at Cottonwood by Constable Martin, who returned the child to Mrs. Clark. The father has been given temporary custody of his daughter, the case to be decided in the Superior Court at Redding Saturday.

GREAT CHANGE IS MADE

An old landmark on Ninth street has responded to a general renovation, and appears in new dress for its new line of business.

The People's Express Co. lately vacated the two-story large brick building on Ninth street near Broadway, which has been one of the landmarks of Oakland.

By the application of much paint and general renovation by carpenters, roofers and tinners the place assumes a new aspect.

Mr. Henry T. Higginbotham, well-known among the fine stock breeders of the state, and formerly of the California Stables in Berkeley, will hereafter conduct a first-class livery, boarding and sales stable there. Mr. Higginbotham has purchased fine property on Grand Avenue boulevard.

Associated with him is Dr. David S. Saylor, veterinary surgeon, graduate of the Ontario Veterinary College and for four years official veterinary for the New York Jockey Club and California Jockey Club for four years at Emeryville. Dr. Saylor, V. S., will maintain a fully equipped modern office and hospital and will also specialize the treatment of fine dogs. This modern improvement on Ninth street was long needed, and the public will appreciate the services given by both Mr. Higginbotham and Dr. Saylor.

WESTERN ADDITION SUSPECT ARRESTED

Alias Reuben Smith Jailed as Man Who Has Been Busy Burglar.

SAN FRANCISCO, Oct. 19.—Detective Sergeants O'Dea, Dinan and Collins, this morning arrested Harry Randall, alias Reuben Smith and booked him at the city prison on two charges of burglary. He is believed to be the housebreaker who has broken into a dozen homes in the Western Addition during the last month, and preceding his arrest a large quantity of jewelry and other valuables were recovered by the officers from pawn shops and second hand dealers, and are believed to be part of his loot.

Randall is charged specifically with entering the home of L. Constine, 1217 First avenue, and stealing $200 worth of jewelry on October 13 and ransacking the residence of Mrs. Louis Hancock, 474 Webster street on October 6, stealing silverware valued at $150.

Among the articles recovered by the police, is a large quantity of silverware, some of which has the initial M and the balance the initial F. It is hoped that the owners of the lost property will communicate with headquarters in order that if possible, additional accusations may be placed against the prisoner.

OAKLAND TRIBUNE EDITORIAL PAGE

M. C. CHAPMAN
President

La Follette's Three Musketeers.

The California delegates to the so-called "progressive conference" which met in Chicago and presented Senator La Follette as a candidate for the Presidency were Fremont Older, Francis J. Heney and William Dixon, private secretary to Senator Works. These men, with the possible exception of Dixon, selected themselves to represent California in the conference. They were merely individuals exercising the inalienable right of the American citizen to do what he pleases politically. But they carried no commission from the people of this State, had no warrant of authority for what they did. The three tailors of Tooley street had precisely the same right to resolve that "we' the people of England, etc.," as Older, Heney and Dixon had to speak for the Republicans of California. It now remains to be seen whether the people of this State will ratify the acts of these self-appointed delegates, whether the electoral vote of California can be handed out by Older, Heney and Dixon to anybody they choose to select for President. If the La Follette backing in other States is of the same quality that it is in California it is not likely to be formidable or respectable. Fremont Older, Francis J. Heney and the political valet of Senator Works are not a trio to invite public confidence or lead the Republican voters of California. They are not even Republicans. It would be invidious and perhaps profane to say what they really are. They are trying to emulate Danton, Marat and Robespierre, but the ambitions of Danton and Robespierre ended at the guillotine and Marat died an itching pariah at the hands of Charlotte Corday The earlier trio left a record of treachery and crime and a memory that is execrated by mankind. The trio that has undertaken to hand California over to La Follette excite only amusement and contempt. A fine bunch of President-makers truly!

The San Francisco Bulletin calls upon the world to take notice that "the progressive administration of California is preparing to build a splendid system of public roads at a cost of $18,000,000." An unsophisticated reader of the article would infer that this highway project was brought forward by the present State administration. As a matter of fact it was the one pet measure of former Governor Gillett. The Legislature submitted the $18,000,000 bond issue to the approval of the voters at the suggestion of Governor Gillett. The money was voted before Governor Johnson took office ,and this administration has nothing to do but carry out the plans projected by its predecessor. That is all this progressive administration is doing to improve the road system of the State.

Let no one say hereafter that the average voter is not intelligent and well-informed True the average citizen did not take the trouble to read the 23 (significant number!) constitutional amendments, but every man Jack of them knows the batting records of the leading ballplayers by heart. What's the constitution compared to baseball, anyhow?

Killing a Guest With Kindness.

Now that President Taft has come and gone, it is to be hoped our entertaining methods will be reformed. Dollar speeches are not in accord with a twenty-dollar dinner, and hospitality becomes a bore when it becomes oppressive and neglectful of the comfort of a guest Some men make a practice of showing themselves by making a pretense of showing attention to a distinguished visitor. In their efforts to shine in a reflected light they make a mess of things for everybody else and a holy show of themselves.

The way President Taft was rushed around is a grave reflection on our conceptions of courtesy and hospitality. The kindness degenerated into cruelty. A guest should be permitted some moments of privacy; he should be allowed time for rest and refreshment, not oppressed with attentions which surfeit, banquets which pall and engagements which exhaust his strength and weary his soul.

True hospitality is generous and considerate. It seeks the comfort, convenience and enjoyment of the guest, consults his wishes and tastes and abstains from obtrusiveness. Californians are naturally prone to be profuse in their hospitality, but profusion often defeats its own object. It surfeits and wearies. It takes the edge off appetite and the zest from welcome.

We should learn to do things better, to be more considerate and discriminating, less selfish in gratifying our own desires and inclinations. Let us not advertise our hospitality by making it gross vulgarly profuse and exacting in its demands on guests. Entertainment should not be carried to such an extreme that it becomes a bore and an ordeal. The guest of honor should go away happy and refreshed, not tired and glad to be relieved of a round of festivities which become monotonous and mortifying to the flesh and the spirit.

In Illinois a Congregational preacher who came from England only five months ago is in jail for bigamy. He does not deny having two wives, but says he is innocent of wrong doing and the victim of "your barbarous American laws." He left a wife and children in England and married a singer in his choir shortly after coming to this country. He thinks we ought to amend our laws and not send a good man to prison. Really one is at a loss what to say about this matter. Perhaps the difficulty could be arranged by exempting preachers imported from England from the operation of the law against bigamy.

Another Prohibition Failure.

The recent municipal election in Nashville, Tenn., is another illustration of the futility of trying to force prohibition on a community that does not want it. The issue between the two tickets was whether the prohibition law enacted by the Legislature should be enforced. Party politics cut no figure in the contest. Both the leading newspapers of the city, the Tennessean and American and the Banner, supported the law enforcement ticket and so did the heads of the various educational institutions of Nashville and the pastors. Yet the "liberal government ticket" won by a big majority. Mayor Howse, who has winked at the sale of liquor in defiance of the State law, was re-elected by a majority of 2364 over the law and order candidate. The result speaks for itself. Speaking of it editorially the Nashville Tennessean says:

"The issue was clean-cut and specific, and without personal disparagement to Mr. Howse, it should be said that it was not an individual or personal victory for him, but his triumuph was due to the things he stands for. This is the plain, unvarnished truth. He stands for what a majority of the people of Nashville want, and they elected him because of that fact."

Here is a frank admission that the voters of Nashville are so opposed to the prohibition law that they actually endorsed an administration which has systematically defied it. Public sentiment revolted against an attempt to impose from the outside sumptuary regulations on the community. Commentary would be useless. No one can contemplate the condition with satisfaction. But it is a condition that is invariably brought about by State-wide prohibition laws. Georgia is a prohibition State, but in Savannah saloons are run wide open. The same condition prevails in other cities in the prohibition belt. Local sentiment is stronger than the law.

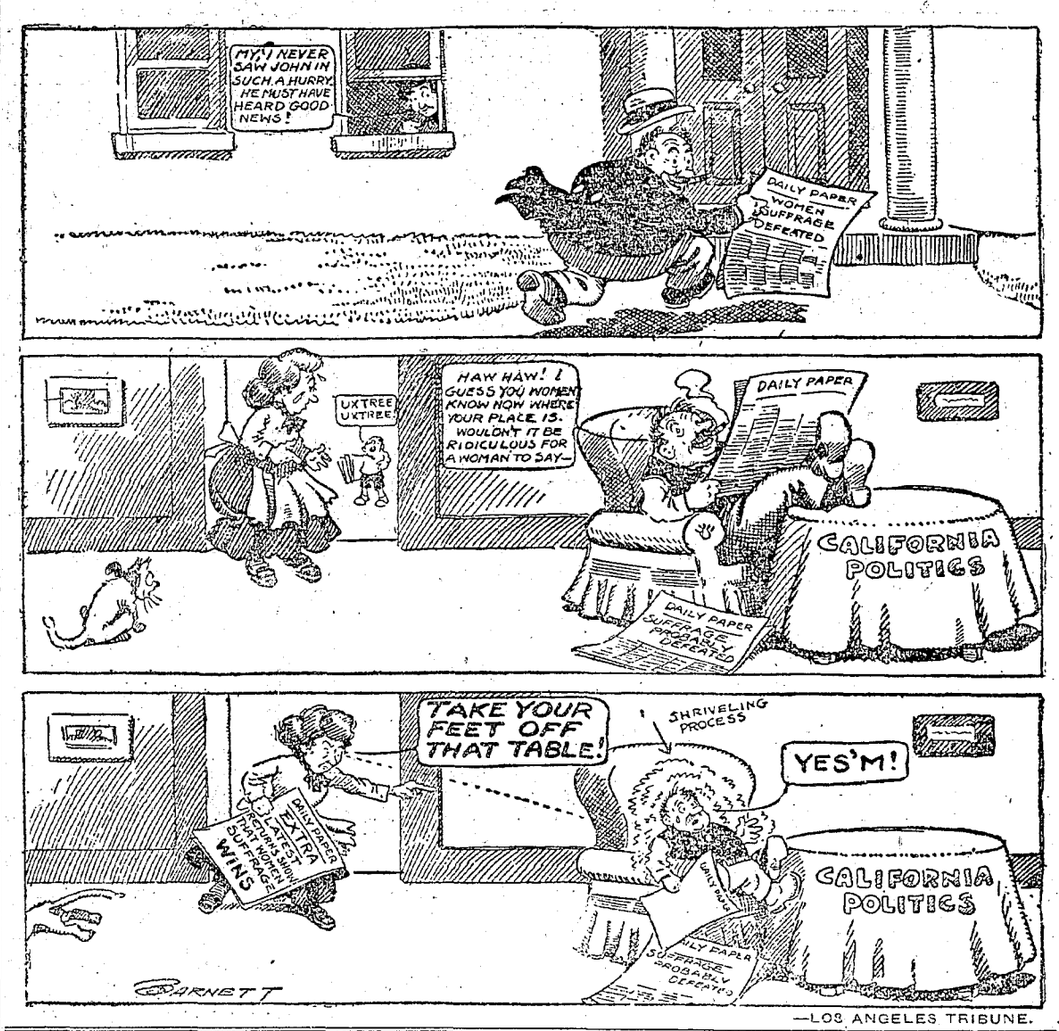

Woodrow Wilson is so busy trying to become President that he has little time to be Governor. Is there not a parable that applies to his case?

About the strongest card yet played for Woodrow Wilson is the unqualified announcement made in his favor by John Sharp Williams of Mississippi. Williams counts for a great deal in the Democratic party. He is one of the ablest men in American public life today and has a large following in both houses of Congress. His character and scholarship give him prestige and favorable attention throughout the country. Senator Williams is more conservative than some of the Democratic leaders, and hence wields a potent influence with the section of the party that is inclined to be old-fashioned in methods and opinions. When Williams comes out strongly for Wilson it means something. It means that the New Jersey Governor will receive strong support in a quarter where he needs it.

Only a short time ago the humanitarians were exchanging congratulations on the profound peace that prevailed throughout the world. There was no war anywhere. But how soon did a change come! First there was war in Central America, then the revolution in Portugal, followed by civil war in Mexico. Civil wars in Turkey, in Morocco and Persia next ensued, followed by the war between Italy and Turkey. Now there is a bloody uprising in China, and there are mutterings of revolution in Spain. Peace never lasts long. When it seems profoundest it is rudely broken by the battle trumpet. However, dynastic wars are at an end in civilized countries. Many of the most bloody and destructive wars of history were waged for purely personal and family reasons. The Hundred Years' War between England and France is a conspicuous example. The wars of the Spanish and Austrian succession are other cases in point. In modern times there are always political reasons for war. France fought Austria to liberate Italy and Prussia fought Austria to destroy the supremacy of the house of Hapsburgh in German affairs. The war with France was required to perfect the unification of Germany. No nation will now go to war to support dynastic claims.

It is not surprising that Uncle Ike Stephenson's managers think he didn't put up half enough. Of course they could have spent twice as much with ease. But they have succeeded in making an "angel" out of the aged Wisconsin Senator instead of a criminal.

The Overthrow of Monarchies Continues

—LOS ANGELES TRIBUNE.

Cheese as Food

Cheese contains all the essentials of human food, according to a pamphlet recently issued by the department of agriculture. The popular belief that cheese even when green or unripened, is difficult of digestion, or that unripened cheese or cheese in any stage of ripening is constipating is not justified.

The milk solids in cheese are very digestable and make an almost perfect food. With the addition of rennet and the development of lactic acid in cheese making, some chemical changes take place; but these do not transform digestible solids in milk into indigestible solids in cheese.

The digestive disturbances attributed to peculiarities in the cheese itself are probably due merely to over-eating, or to the custom of eating cheese only at the close of the meal, when one has already had more than enough food.

America may learn much from the Continent. Many European people eat largely of cheese, either by itself, or sprinkled on vegetables, or cooked with other food. The Italians have many foods, such as macaroni, with which cheese is mixed. They have cheese grated and constantly at hand as a flavoring, quite as we use pepper and salt.

The Swiss eat largely of cheese, which with bread forms the greater part of the dietary of this very healthy people; and those Swiss farmers who have settled in Wisconsin continue to manifest the athletic attainments and the physical endurance of their forbears.

The sensible Germans consume large quantities of the cheap, but highly flavored skim milk cheese. Such cheeses are wholesome, and their flavors are by reason of beneficient microorganisms. The consumption of cheese by the American people should be increased, from the viewpoint both of economy and its superior food value, according to The Journal of the American Medical Association. A pound of cheese has nearly the same food value as two pounds of lean meat or eggs, or the same weight of ham.

Not only is it superior in food value, but also it furnishes nitrogen without the increase of uric acid in the system. For this reason it may be eaten by those inclined to gouty affections to whom meat is denied.

Motherhood Devotion

The bond that binds mother to her offspring has been the theme of deep-souled poet and powerful writer ever since literature began, but not often is it noted in everyday life in a more pathetic manner than in the death of the Fitchburg mother and her son who have just died together in the waters of Lake Lashaway to escape the shame of wrongdoing. The son erred, and the blameless mother, making his fault her own, joined him in a compact where death was the prize.

This modern tragedy, pitiful to contemplate and stirring the sympathies, is an illustration of the extent to which the devotion of a mother can go. In the primitive forest the hunter often sees the bear die defending her cub, and wild nature can furnish many such examples of the sacrifice of the mother for her offspring, but not often do the instincts of society prompt such a tragic end. This mother in the downfall of her boy saw the end of her happiness and she chose to follow him in the oblivion of the grave. She obeyed an impulse that nature had planted within her.

Still, how much wiser it would have been if, instead of uniting in this tragic pact, the mother had urged her son to obey whatever demands the law might make, and had remained to comfort and sustain him in his term of tribulation. He might have emerged a stronger man from his experience, and her character would have seemed most noble.—Boston Post.

SPECIALIZED WOMEN

In three years since German universities were opened to women the number of women students in twenty-one leading universities has increased until this year only one out of the twenty-one, the University of Rostock, has less than a thousand. As reported by the American consul general at Berlin, the four universities of Berlin, Munich, Leipsic and Bonn have over 20,000 women students out of a total of 54,962.

A tabulated statement of their studies shows only six specializing in theology, forty-two in law, 549 in medicine and 1433 in philosophy, philology and history. These statistics imply a revolutionary change of idea for Continental Europe and raise a question of how far this "masculine education" for women is at present merely a concession, which "keeps its promise to the ear and breaks it to the hope."

Colorado, Oregon and other American states which are creating women specialists at wholesale may hold that their intellectual quality will be in all respects finer and in some more reliably permanent than the masculine. With all disputable points aside, the fact in the American West and in Germany is that of an open opportunity of specialization for women, which they are using with enthusiasm. They will be specialized not only in mind, but also in brain and nerves. When men are thus specialized a minority shows itself humanized to the higher extent, while another minority, fortunately small, seems almost completely dehumanized into the types of degeneracy studied by Nordau and his class of specialized exaggerators.

But it is a fact of all specialization, of which account must be taken, that once its influence has been exerted the results increase continuously. Mrs. Browning, herself highly specialized, knew this. It is what she referred to in her pathetic parable of "the reed that grows nevermore again, the reed among reeds by the river."

The world every year demands an increasing number of specialists. Is it to obtain them among women at the cost which specialization demands?—St. Louis Post-Dispatch.

AN AVERAGE

A Western representative in Congress was talking one day of his record while in that body. "I'm not ashamed of it," said he. "I think I've done very well, on the whole. When I reflect upon it I am reminded of an epitaph that I once saw in an old burying ground in a country town of my state.

"This epitaph devoted a verse of four lines to the virtues of the good man who lay beneath the stone, and concluded with this line in prose:

"He averaged well for this vicinity."—Lippincott's.

Many a man's self-conceit overshadows his popularity.

FIRST WOMAN OF OKLAHOMA

Although Mrs. Fred Sutton doesn't happen to be the wife of the Governor, she is nevertheless known as the "first lady of Oklahoma," at any rate to the Oklahomans themselves. She acquired her title not by marriage, but by other kinds of personal achievement.

It was she, says a writer in Human Life, who organized the women pioneers of Oklahoma into "The Women of Eighty-nine," who are to that State what the Daughters of the Golden West are to California and the F. F. V.'s to Virginia. Mrs. Sutton is its founder and president.

She conceived and with the help of the women of Oklahoma City carried into execution the plan of the Aprills Fiesta, that spring function in Oklahoma City which corresponds to the Mardi Gras carnival of New Orleans and the Veiled Prophet of St. Louis and the priests of Pallas of Kansas City.

It was she who suggested a monument, which is building, to the memory of Captain W. S. Couch, who was the first Mayor of Oklahoma City and who in the pre-state days spent all his substance and nearly his life in the interests of Statehood, for he lived at Washington on 10 cents a day while working for the admittance to the sisterhood of states of the then territory.

Mrs. Sutton may be described as the foremost woman in Oklahoma. Yet 22 years ago she was a school ma'am indigenous to Kansas, who made a run with the other settlers to take a claim on the newly opened land. At the same time Fred Sutton, a young man from Michigan, made the hardest run in the great category of mad dashes for homesteads. He killed his horse on a 13-mile dash to a claim near Guthrie, but the claim marked the turn in his fortunes, from the shallows of poverty to the full stream of affluence.

Meanwhile the school teacher, having literally pitched her tent on the claim and slept on the couch of her own making, a pile of brush, opened the first school in Oklahoma City, in the back room of a warehouse. Eventually, while both were still poor, she met and married Fred Sutton, one of the school trustees. He is the president of one bank, director in another and director in several industrial concerns, chiefly a huge packing house.

20 YEARS AGO IN OAKLAND

Cards have been received in this city announcing the wedding in New York on Thursday, October 15, of Frank H. Powers of San Francisco and Miss Jennie M. Gallatin, daughter of Albert Gallatin, the well known capitalist, formerly of Sacramento. Powers is well known in Oakland society. He is a successful lawyer and a member of the firm of Young & Powers. Recently he entered the domain of literature and his novel, "I Swear," scored a decided hit.

Tonight the famous Zopadores Military band of the Mexican army will play at the Oakland theater.

The beauty of Oakland's cemeteries—St. Mary's and Mountain View—has long been celebrated throughout the cities and towns of the Pacific coast, and their fame has even gone beyond the mountains which form the backbone of the continent. But even this beauty is apt to be cast into the shade if the negotiations now pending are completed and the plans prepared are carried out. The "Crocker Tract" is one of the most beautiful bodies of land on the shoulders of the hills back of this city and Berkeley. Contiguous to Piedmont it is easy of access. The view is unsurpassed. The opportunities for landscape gardening and scenic effects are to be seen at every turn. It is now proposed to turn this tract into a cemetery—the most beautiful in the west—and as beautiful as any on the continent.

One of the prettiest church weddings ever seen at the Church of the Immaculate Conception, corner of Eighth and Jefferson streets, was that of Councilman Cornelius Henry Brosnahan and Miss Annie A. Downey, which was celebrated this morning at 11 o'clock.

Alameda is to have erected artistic and comfortable station buildings and waiting rooms along the line of the broad gauge local road. Oakland, with its greater patronage, must continue to stand in the dust and rain. How long must this be?

HAIR HEALTH

If You Have Scalp or Hair Trouble, Take Advantage of This Offer.

We could not afford to so strongly endorse Rexall "93" Hair Tonic and continue to sell it as we do, if we were not certain that it would do all we claim it will. Should our enthusiasm carry us away, and Rexall "93" Hair Tonic not give entire satisfaction to the users they would lose faith in us and our statements and in consequence our business prestige would suffer.

Therefore, when we assure you that if your hair is beginning to unnaturally fall out or if you have any scalp trouble, Rexall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness, you may rest assured that we know what we are talking about.

Out of one hundred test cases Rexall "93" Hair Tonic gave entire satisfaction in ninety-three cases. It has been proved that it will grow hair even on bald heads, when, of course, the baldness had not existed for so long a time that the follicles, which are the roots of the hair, had not become absolutely lifeless.

Rexall "93" Hair Tonic is vastly different from other similar preparations. We believe that it will do more than any other human agency toward restoring the hair growth and hair health. It is not greasy, and will not gum the scalp or hair, or cause permanent stain. It is as pleasant to use as pure cold water.

Our faith in Rexall "93" Hair Tonic is so strong that we ask you to try it on our positive guarantee that your money will be cheerfully refunded without question or quibble if it does not do as we claim. Certainly we can offer no stronger argument. It comes in two sizes, price 50 cents and $1.00. Remember you can obtain it only at The Owl Drug Company, Inc., Tenth and Washington; Thirteenth and Broadway and Sixteenth and San Pablo.

'OREGON LAW' IS IN SUPREME COURT

State's Attorney Argues for Referendum in Shape of Brief.

WASHINGTON, Oct. 19.—Oregon's defense of the initiative and referendum method of legislation has been presented to the supreme court of the United States in the shape of a brief by Attorney General Crawford of that State. The brief is a reply to the attack by the Pacific States Telephone and Telegraph company on the constitutionality of the methods

According to Mr. Crawford, the question of whether the initiative and referendum method violates the clause of the federal constitution, which guarantees to each State a republican form of government, is a political one for Congress and the President to pass upon, and not a judicial one for the courts to decide.

The attorney general argues that the political branch of the federal government has already decided that the referendum and initiative method is constitutional.

"Senators and representatives from States reserving those powers are seated in the Senate and House of Representatives without protest," he argues in this connection.

"When new States are admitted, the President and Congress pass upon the form of government presented by the proposed State and decide whether the same is in harmony with the constitution of the United States. They have in several instances approved State constitutions, reserving the identical powers attacked in the case at bar—notably Oklahoma and Arizona—and other States have changed their constitutions to include those powers, to wit: South Dakota, Utah, Colorado, Arkansas, Maine and Oregon, without objection from any federal authority."

'I DIDN'T STRAY WITH MRS. ALISKY,' SAYS ACTOR GRAY

NORMAN GRAY.

Norman Gray, vaudeville performer, doesn't like the notoriety that the Alisky divorce suit has forced upon him "just a little bit." He is at present without an engagement and is living in Berkeley. Last evening he called at the office of THE TRIBUNE to brand as infamous and slanderous the charge made by Charles W. Alisky in his complaint against his wife, Cleta Pearl Gilman Alisky, that he (Gray) is the despoiler of his marital happiness. Gray is a very handsome young man with a wealth of black hair trained a la pompadour and dresses well. He also goes armed with photographs of himself for distribution where they will bring him the most publicity and one of these he kindly handed over for the purpose of adequately illuminating his denial that he is, or ever has been, the affinity of the sister of Maybelle Gilman Corey, wife of the former president of the United States Steel Corporation, who, recent cable dispatches from Paris said, was contemplating a divorce and returning to the stage.

Young Gray declared that Alisky had absolutely no foundation for naming him as co-respondent in his suit for a divorce, maintaining that all of his relations with Mrs. Alisky were in keeping with the strictest rules of propriety. He also had some very bitter things to say about Alisky and pointedly remarked that the "real dope" on the cause for the divorce would not come out until the trial of the case.

PLATONIC PARTNERS.

"I don't see why Alisky should have named me as co-respondent," Gray said. "I was only tied up with Mrs. Alisky in a professional way for two weeks and during that time we were simply business partners. When I first met Mrs. Alisky in San Francisco she was flat broke—had only a dollar that stood between her and irregular meals. She suggested that we should 'double up,' as they say in vaudeville and present a sketch. She imparted the information that she was going to sue her husband for a divorce and said that this and the fact that she was a sister of Maybelle Gilman Corey would bring us a whole lot of notoriety.

"'With the publicity that my divorce will bring we can make between $400 and $500 a week, and managers will jump at the chance to book us,' Mrs. Alisky said.

"The proposition looked good to me so I fixed up a sketch and we went on the road. We were together in a business way for two weeks. Mrs. Alisky had a good voice and in team work we were up to the average vaudeville standard, but the eagerness of managers to pay us the big salary that Mrs. Alisky predicted did not manifest itself. In addition to this Mrs. Alisky had too many gentlemen friends meeting her at the stage entrance after performances, and that did not appeal to me a little bit. We were making $100 a week, which we divided equally, but Mrs. Alisky's $50 would not come anywhere near meeting her expenses. After two weeks with her I saw that we could never make a go of it as partners, and we split up. We both returned to San Francisco. I had only a little money left and Mrs. Alisky had none.

WERE PERFECTLY PROPER.

"While we were together in a business way our relations were perfectly proper and I always respected Mrs. Alisky as the wife of another man.

SKY SCRAPER TO BE OF CONCRETE

99-Year Lease Is Secured On Broadway Property Opposite the Postoffice.

The ancient frame gore block at the intersection of Broadway, Telegraph avenue and Sixteenth street will be replaced with a six-story concrete building, the lower story of which will be occupied by a bank while the upper stories will be used as offices of various kinds. The proposed bank may be the result of the consolidation of two local banks.

The erection of this structure will be the sequel of a lease extending through ninety-nine years which has just been entered into by the M. T. Minney Real Estate Company of the lot at the gore which has a frontage on the south end of 8¾ feet with a depth of 100 feet on both Broadway and Telegraph avenue and a width of 36 feet at the northern extremity. The lease was secured from the owners of the property, Messrs. Morris & Lent, who have been the owners for some time, and on a valuation of the same of $150,000. The lot was formerly owned by George Roeth and Thomas Prather.

THREE-STORY STRUCTURE.

On the lot is a three-story frame structure, the two upper floors being occupied by the Avon lodging house, while on the ground floor there are two vacant and about four occupied places of business. The revenue from the structure has been nominal for some time, regardless of the excellence of the location, more especially as there has recently been a demand for business places in that vicinity. The building is located immediately opposite the postoffice and west of it Telegraph avenue is filled with a long line of stores of all kinds which are affording the property owners a fair return on the investment.

It is expected that the new structure will cost in the vicinity of $250,000. To make way for its construction the old building must be demolished. That may be deferred for a year or more for the reason that the leases of all the tenants have that time to run. It is not improbable, however, that these leases may be purchased in order to expedite the improvement.

NEW BANK FOR OAKLAND.

The erection of this new structure will lead to the establishment of a new bank or to the consolidation of two of the smaller banks at present in this city, but the promoters of the project decline to state which banks are considered in this connection.

L. E. Grimm, vice-president and manager of the M. T. Minney Real Estate Company, stated this morning that the lease in question had been entered into and that the company had given bonds to the owners of the property that the new building would be built in two years and that the real estate company he represented would occupy rooms on the second floor while the bank would control the ground floor.

RAILROAD ENGINEER IS AWARDED DIVORCE

Albert G. Wright of 920 Broadway, a locomotive engineer in the employ of the Southern Pacific Company, was granted a final decree of divorce this forenoon by Superior Judge Ogden from Mabel E. Wright, whom he sued on the ground of habitual intemperance. Wright testified that while he was at work his wife would get drunk and leave the two little children to get along the best way they could. Seldom were they fed during his absence and invariably when he returned home he found them in the street. The custody of the children was also awarded to the father.

JEAN THURNHERR TO ESCAPE FACING COURT

LOS ANGELES, Oct. 19.—Jean Thurnherr, the alleged "girl Raffles," whose case has attracted the attention of scientists and criminologists all over the country, will not be tried on the charge that led up to her most recent arrest. A continuance of her trial for alleged theft was asked by Prosecutor Shannon, who informed the court in which she was being tried that he had arranged to have her cared for by friends and ultimately would ask a dismissal of her case

WILL TEST RIVAL TYPE TORPEDOES

Navy Department Conducting Competitive Tryouts in Virginia.

WASHINGTON, Oct. 19.—Weather conditions permitting, somewhere today in the neighborhood of Fort Monroe the Navy Department will conduct what is expected to be a most important and interesting competitive test of the relative destructive value of the ordinary Whitehead torpedo used in the navy and the unique cannon torpedo which is the invention of Commander Clelland Davis, one of the naval ordinance experts. A great steel casement has been constructed at the Norfolk navy yard and towed out where the test will take place. One side will represent the underwater section of a battleship and the other side that of a cruiser.

At this target the cruiser Montgomery will discharge torpedoes of the two types named. As the question of accuracy is not involved in this test, the torpedoes will be directed against the target by wire ropes.

The Whitehead carries on its blunt nose 100 pounds of guncotton, which will explode outside of the casemate. The cannon torpedo carries an 8-inch cannon which will discharge a 250-pound shell loaded with 40 pounds of high explosives. It is expected that this shell will penetrate the casemate and explode its charge within what corresponds to the vitals of the ship.

PERCY GREER THREATENS TO GUN FOR AUTOISTS

EDITOR TRIBUNE: Will you kindly inform me through the columns of your valuable paper if there is any law in this city regulating the traffic of speed fiend maniacs, who daily run their machines on Adams, Perkins and adjacent streets in this section? It is positively miraculous that many children have not been killed in this community, for it is no uncommon occurrence to see an automobile tearing along at 60 miles an hour in front of my dwelling. If there is no law to protect my children I will await my opportunity with a shotgun and I will take good care when I do fire it will not be only at the machine. I remain, sir, yours faithfully, PERCY H. GREER.

MISS EMMY LEMCKE, who, as a belle of the bay cities, is much entertained in Oakland.

MRS. LEE COLE BURNHAM'S Linda Vista home this afternoon was the rendezvous for fashionable folk, who called to greet the mother and sister of the hostess, Mrs. William Clift and Miss Jean Clift, recently returned travelers.

A large number of guests gathered from all the bay cities, where the Clifts are well known. Beautiful costumes were in evidence, the warm weather bringing out many light summer gowns.

The hostess received her guests in a very handsome dress in yellow shades, which blended artistically with the gold and copper colors in the decoration, consisting largely of arrangements of Autumn leaves.

Mrs. Clift wore a black imported Marquisette elaborately fashioned, while Miss Clift looked charming in a Paris gown of cerise color trimmed in the pretty new style with crystal bead fringe. Assisting in receiving the guests were Mrs. Mailler Searles, Mrs. Irving Lundberg, Mrs. Frederick Clift, Mrs. William Ede, Mrs. Charles Lovell, Mrs. Clifton Croll, Mrs. George de Golia, Mrs. Churchill Taylor, Miss Marian Everson, Mrs. Henry Rosenfeld, Miss Carrie Nicholson, Miss Elsie Everson, Miss Winifred Braden, Miss Bessie Palmer, Mrs. Roy McCabe, Mrs. Kendall Morgan, Mrs. Wickham Havens, Mrs. Alexander Marx, Mrs. Leon Focqueraz, Mrs. J. PUBLIC CO-OPERATION REQUESTED BY SOCIETY

EDITOR TRIBUNE: The tuberculosis situation in Alameda county is as urgent as ever and it is very necessary that the people should be educated as to the causes, condition and necessity for prevention. We are trying to keep the matter before them by lectures to the children of the public schools, to mothers' clubs and to the public generally, assembled in halls and parks. In addition to all of this we need the constant co-operation of the press, for the newspapers reach many from whom we could not get a hearing by the aforesaid means. You, of course, appreciate that this is a matter of public health and welfare.

We are planning to send to you every month certain well-selected and concrete matter which we hope you will give place in your valued paper. In doing this we shall be working together for the physical, economic and spiritual welfare of our people.

Feeling sure that the society can count upon you for this co-operation and thanking you for your services in the past, I remain, respectfully yours,

CLIFTON MACON,
President of the Alameda County Society for the Study and Prevention of Tuberculosis.

RESTORE GRAY HAIR TO NATURAL COLOR

By Common Garden Sage, a Simple Remedy for Dandruff, Falling, Faded, Gray Hair.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy, and gradually restored the natural color.

One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days, on account of souring quickly. This objection has been overcome and by asking almost any first-class druggist for Wyeth's Sage and Sulphur Hair Remedy the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair, but will also stop the hair from falling out and make it grow.

Get a bottle from your druggist today. Use it and see for yourself how quickly dandruff goes and gray hairs vanish.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

WOMEN IN THE NEWS

SIGHT OF NIGHTIE VALUED AT $10,000

Society Woman Says She Was Forced to Parade in Gossamer Garment.

ATLANTA, Ga., Oct. 19.—Charging that she was routed out of her berth and was compelled to march barefooted and clad only in a gossamer nightie into another sleeping car in the presence of many male passengers who gazed at her, Mrs. Mary Barnhill, prominent in Atlanta society, yesterday began suit against the Pullman Company for $10,000 damages.

She alleges the conductor refused to give her time to dress. She claims that in the transfer to the other car she discovered that her various articles of artificial hair known as "rats," switches and puffs, which she had removed upon retiring, had been left in the berth. She alleges the conductor brought her these articles and exhibited them to the male passengers, much to her mortification. Mrs. Barnhill says $10,000 is small pay for what she had to endure.

Used Code

LONDON, Oct. 19.—Thomas Beecham, the famous opera producer, figured yesterday as co-respondent in the divorce suit which George Sherwood Foster, an artist, is bringing against his American wife, who was Miss Fairfax.

An elaborate code, by which it is alleged Beecham communicated with Mrs. Foster, was disclosed.

The wife entered a counter claim for divorce on the ground of cruelty.

Couple Reconciled

FLORENCE, Italy, Oct. 19.—The former Crown Princess Louise of Saxony has arrived here and is occupying a villa with her husband, the pianist, Enrico Toselli. The couple had been living apart for a considerable time and reports were current that divorce proceedings had been instituted. Now they are appearing in public arm in arm.

Saves Brother

LONG BEACH, Oct. 19.—Vera Dean, a Denver girl visiting here with her mother and brother, saved the latter's life yesterday when the undertow was about to take him out to sea. The boy, Dell Dean, aged 15, got beyond his depth and, as no one was near by, Miss Vera plunged into the ocean. Though she could not swim, she waded out until the water rolled over her shoulders. A lucky incoming breaker pusher her brother toward her, and she grabbed him. Barely able to keep her footing, she managed to get her brother far enough in where aid reached them. It took physicians an hour to revive the boy.

Pastor Remembered

LOS ANGELES, Oct. 19.—Fifty thousand dollars, approximately, was left to her pastor, Dr. Hugh K. Walker of Immanuel Presbyterian church, by Mrs. Mary J. Rankin, a wealthy and philanthropic woman who died recently. The will was probated yesterday. Dr. Walker, in addition to the valuable house which he has long occupied, is bequeathed $11,000 cash, 120 shares of Union Oil stock and various bank stocks.

Mrs. Rankin, who was 82 years old, gave a birthday dinner for Dr. Walker a few months before her death, and when the dessert came the pastor found a deed to the residence with his. Mrs. Rankin explained that she had willed the property to him, but wanted to experience the pleasure of presenting it personally. She gave much to charity during her lifetime.

Sues for $26,000

SAN JOSE, Oct. 19.—Because she has been crippled for life and has been unable to earn her own living, Miss Julia Leona Hoffman, formerly a cashier in a local store, yesterday filed suit for $26,000 damages against that firm.

The accident in which Miss Hoffman sustained her injuries, she declares, occurred in the local store on November 5 last, while she was employed as a cashier. A heavy sliding door which inclosed a switchboard and formed one wall of the tiny office in which she worked became loose and fell, hitting her on the head and severely injuring her. Miss Hoffman charges that her employers knew of the imperfect working of the door and that they carelessly omitted having it repaired.

Jury Acquits Woman

LOS ANGELES, Oct. 19.—Mrs. Caroline P. Ford, who shot and killed her husband, A. P. Ford, president of the Merchants' Fire Dispatch, at a breakfast table quarrel last June, was found not guilty of murder by a jury in the superior court yesterday.

The verdict for acquittal followed the request of the prosecution that the case be dismissed because of inability to obtain witnesses for the state, and also because of the belief that Mrs. Ford was insane when she shot her husband. The judge instructed the jury to find a verdict of not guilty on the ground of insanity. But in spite of that the jurors who had heard testimony to the effect that the woman, who was considerably younger than her husband, had been reviled by him, found a verdict of self-defense.

Will Try Again

SAN JOSE, Oct. 19.—When Aleatha Martin Perry accompanied aged Stephen Maples into the office of the county clerk yesterday afternoon to ask for a license to become Mrs. Maples, she confessed to having weathered 63 summers and three marriages. Maples is 75 years old and never turned a hair when she told the license clerk that she had buried all his predecessors. Both are natives of England.

Mrs. Bertorelli stopped at San Francisco last Thursday en route from Watsonville to Santa Cruz, to make some purchases. Her husband and children knew nothing of her whereabouts until the receipt of the letter.

A Daily Beauty Regime

By LILLIAN RUSSELL

A WONDERFUL restorer of flabby muscles and ugly complexions is ice applied to the face.

First wash your face, ears and neck with warm water and pure castile soap; then apply some pure face cream. This one is particularly good:

Oil of sweet almonds	3 ounces
Oil of bitter almonds	10 grams
Balsam of tulu	2 grams
Benzoin	2 grams
Essence of lemon	4 drops

Pat this cream into your face until your skin tingles; then rub off with a soft piece of antiseptic gauze. After that put a bit of ice in a clean piece of gauze and rub the face up toward the ears and forehead, under the chin, and up behind the ears as well until your face is quite cool. It will also be red, but don't worry about that.

You must then lie flat on your back without a pillow and rest for about twenty minutes in a darkened room. Be sure that you are perfectly relaxed and allow your mind to become almost a vacuum—perhaps you will sleep, but whether you do or not you will find a marvelous change in both the texture and color of your skin.

Ice is a great stimulant to the skin and often drives away pimples of itself. Many women use it instead of cream. They put a piece in a cloth and rub it over the face slowly. It is the most valuable therapeutic agent used, both externally and internally. It will check hemorrhage, reduce a moderate inflammation, and soothe headache, sore throat and fever.

If you have blackheads which still remain after you have used the foregoing regimen for a week make up a lotion of:

Precipitate of sulphur	1 gram
Tincture of camphor	1 gram
Glycerin	1 gram
Orange flower water	4 ounces

Apply this to your face frequently with absorbent cotton.

Even moth patches, freckles and pimples will hie themselves to other haunts if you use:

Sulphocarbonate of zinc	1 ounce
Glycerin	12 ounces
Rose water	12 ounces
Pure alcohol	3 ounces

This is to be applied three times a day, leaving it on 40 minutes each time. Never apply at night.

However, none of these blemishes can be obliterated unless you are in perfect health, so you must take care of your digestion and circulation before you use these external remedies.

Remember: Women should all be missionaries, spreading the gospel of health and happiness.

MRS. R. M.—I am very sorry for you in your trouble, but the only thing I can advise is for you to consult an ear specialist, or maybe a physician, as your trouble may not be in your ears, but due to some organic trouble.

MRS. W. D. S.—Although I seldom answer in this column queries about anything except beauty, I am going to tell you about "Come Down, My Evening Star," which was written for me at the time I was playing at Weber & Fields' by John Stromberg. The author committed suicide before the song was sung and the manuscript was found in his pocket and given to me by Weber & Fields. I never shall forget the first time I sung it. All the members of the company stood back of me with tears rolling down their faces, for we all loved Mr. Stromberg, who was Weber & Fields' musical director for a number of years. I consider the song as fine as "Way Down Upon the Swanee River," and I never sing it without a feeling that somehow Mr. Stromberg put a great deal of himself into the music, and I am voicing a melody of a voice that is still forever.

BESSIE—There may be several causes for your hair turning gray. Is your scalp covered with dandruff? This is frequently the cause of the annoying threads of gray in a young girl's head. Often it is hereditary. Every head of hair needs constant attention and you should have a bottle of hair tonic to apply every night. Scalp massage frequently is an effective preventive for prematurely gray hair. Deep breathing never should be neglected, as it forms the greater part of one's beauty. If you will send me a self-addressed, stamped envelope I will gladly send you an excellent hair tonic and scalp massage, a set of deep breathing exercises and a few harmless methods by which a number of my friends develop their busts. There is nothing so effective for superfluous hair as the electric needle. If you feel you cannot afford the needle I will also send you an inexpensive remedy which will bleach the hair and gradually kill the roots.

THE ANXIOUS ONE—To prevent the hair from turning darker it should be washed at least every two weeks and you should be careful to wash all the soap out of it. Once a month add a tablespoonful of peroxide of hydrogen to the last rinsing water. If you will send me a self-addressed stamped envelope and letter asking for it I will gladly send you a recipe for an excellent shampoo. It is harmless and leaves the hair bright and lustrous. I am sure you will be pleased with the results if you you give it a fair trial.

CASSANDRA—If you will massage the line under your eyes with a bit of skin food on the tips of your fingers it will gradually disappear. If you will send me a stamped, self-addressed envelope, I will be glad to send you the recipe for the skin food.

E. M. C.—Plenty of soap and warm water used at night before retiring will clear the complexion. Also twelve or fourteen glasses of water is good. To bleach the hair on your lip use two-thirds peroxide of hydrogen to one-third of ammonia. This will bleach it and gradually kill the roots. Long walks taken early in the morning before breakfast are excellent for giving one color.

OAKLAND'S BOYS AND GIRLS

ADVISES TEACHING OF PUBLIC SAFETY

Prof. Frederick S. Hughes, who has been lecturing throughout the southern states upon the public safety movement, is advocating the establishment of leagues in the schools of this city. Recently he submitted a communication to the board of education asking for permission to form safety organizations in the local institutions.

In an interview Professor Hughes gave the following reasons for the existence of the leagues:

"Out of a busy life close to the emergency side of accidents, many serious, and from numerous rides in the ambulance and the physician's auto, and talks with the injured on the way to the hospital, the constant repetition of identical excuses, explanations, attempted reasons, gre wthe conviction that our methods were faulty, if not altogether wrong. We were beginning at the wrong end. True, the ambulance and the hospital are signs of our progress and civilization, but there is one thing better than 'first aid to the injured,' and that is 'first aid to the uninjured'—to keep them whole and strong and happy.

"Our agitation for a 'safe and sane Fourth of July' is commendable, but why limit it to one day in the year? Why not 'a safe and sane everyday' that would necessarily be inclusive of the day or gunpowder and lockjaw, and that would prevent the hundreds of thousands of automobile, motorcycle, street car and railway accidents?

"To keep a person out of an ambulance or hospital is better than all cures and recoveries. And these things were learned and out of the conviction they forced grew the educational work in the public and private schools in the principal cities of the Pacific Coast, and from those schools and the great public service corporations that have joined hands and heads and hearts has come the public safety movement of the American Safety league, with no less purpose than 'for safe America.'

MUSIC FEATURE OF CURRICULUM

WILLETA LAYMANCE.

Many vocalists are being developed in the local schools by means of the musical course which is being given in all the classes. The choral work which has been made a feature of the branch, has proved very attractive to the pupils. Hosts of youngsters will fit themselves for musical careers upon completing their studies in the grammar and high schools. Willeta Laymance, daughter of Mr. and Mrs. Edward Laymance of East Oakland, is studiously following the courses.

CHICKEN DROPPED FROM ARMY'S BILL OF FARE

WASHINGTON, Oct. 19.—The elimination of chicken from the army menu, the limitation of turkey to Thanksgiving and Christmas, the substitution of so-called "field bread" for hardtack and the abolition of the field ration sum up the important changes in the army ration for the American soldier made during the last year, according to the report of Commissary General Sharp. The elimination of chicken has resulted in a yearly saving to the government of $52,000.

DE FREMERY GIRLS VICTORS OVER ALLENDALE

The girl baseball fans of Allendale witnessed one of the most exciting games of the season yesterday afternoon in De Fremery park playground, where the girls' baseball team of De Fremery park defeated the Allendale squad in one of the fastest games of the year. The score was 18 to 3.

The members of the Hikers' club of Bushrod park took a dip in the surf in Alameda this afternoon, where they displayed their athletic ability in odd aquatic stunts.

INJUSTICE RECOGNIZED

There is some reparation due
To one whom we must hold
In fond regard, e'en while the new
Blots out the story old.
We smiled and said, "What monstrous lies
Are those he tells in turn!"
It's time that we apologize
To our old friend, Jules Verne.
The nautilus now cleaves the deep
Far 'neath its surface rough.
Around the world, the fare is cheap,
Some weeks give time enough.
Of earth and ocean and the skies
New mysteries we learn.
We really should apologize
To our old friend, Jules Verne.

JAILER SAYS THAT LYMAN OFFERED $3500 BRIBE

PRISONER IS PUT IN CELL OF STEEL

Accused of Agreeing to Give Money if Permitted to Leave Prison.

Physician Will Start for California Tonight in Charge of U. S. Authorities.

PORTLAND, Ore., Oct. 19.—According to the story of Dave Fuller, night jailer at the county jail, who has had charge of Dr. John Grant Lyman, awaiting transfer to California on a charge of conspiracy in connection with his escape from an Oakland hospital, he was offered $2500 by Lyman last night if he would permit him to walk out of the jail and was promised an additional $1000 if Lyman reached Vancouver, B. C., safely.

Fuller told the story to a deputy United States marshal, who communicated the alleged facts to United States Marshal Leslie M. Scott. Lyman was immediately ordered transferred to a stell cell, his crutches were taken from him and other precautions taken to frustrate any possible attempt of Lyman to escape.

Lyman will be taken to California tonight. Owing to the boldness of the prisoner he will be carefully watched from the moment he leaves the county jail until he is turned over to the authorities in California.

YOUTHFUL AVIATOR INJURED IN FALL

Ogden Youth Glides 300 Feet, Then Drops Into the Sagebrush.

OGDEN, Utah, Oct. 19.—The first flight of Ogden's youngest aviator resulted in disaster yesterday afternoon. Fired by the accounts of the experiences of the Wright brothers in North Carolina, Ray Irwin, 14 years old, constructed a biplane glider with a wing spread of 26 feet, mounted on the wheels secretly removed from the perambulator of his little baby brother.

With the assistance of his business manager, Sam Bullough, and his mechanician, Joseph Deis, both aged 15, he arranged an exhibition flight yesterday afternoon before a crowd of 300 spectators.

Starting from the top of the sand ridge, Irwin took the air easily and sailed across the Weber river. After a glide of about 300 feet, however, the machine plunged to the earth, throwing the young aviator into the large sage brush. He escaped with slight injuries.

TO BE BUDDHA IS JOHN D.'S FINISH

Varsity Professor Says the Oil Magnate May Be When Next He Is On Earth.

What Old Chap Who Now Holds Down the Job Thinks of Plan, Not Stated.

UNIVERSITY OF CALIFORNIA, Oct. 19.—After declaring that Buddha, in countless reincarnations, had brought to perfection some one great virtue, A. W. Ryder, assistant professor of Sanskrit, speaking at a meeting in celebration of the twenty-fiv hundredth anniversary of the Indian teacher's first preaching, at California hall last evening, suggested:

"John D. Rockefeller is perhaps to be a Buddha in some future life, exemplifying the administrative power carried to its highest degree.

"We are not likely to become Buddhists, as Buddhism is a religion of profound pessimism, holding that all individual life is pain and evil, to be got rid of."

Prof. Ryder asserted, however, that Buddha had influenced more human beings than any other man, and that he was the only member of the Aryan race who had founded a world religion.

BUDDHA PESSIMIST.

"Buddha," said Prof. Ryder, "was a thoroughgoing pessimist, who denied God, denied the existence of the individual soul and denied the possibility of immortality, and who did not invent nirvana or overthrow the caste system and who hardly introduced any new ethical system, but who was, nevertheless, one of the greatest persons. Sometimes one is tempted to think he was the greatest person who ever lived."

Buddha's success, according to the speaker, depended upon a lovable personality and power of organization, Buddha being a great administrator. In countless reincarnations he had brought to perfection some one great virtue, leading Prof. Ryder to suggest:

WHERE JOHN GETS IN.

"John D. Rockefeller is perhaps to be a Buddha in some future life, exemplifying the administrative power carried to its highest degree. Buddha," he concluded, "was perhaps the most lovable character that ever lived."

Prof. John Fryer, agassiz professor of Oriental languages and literature, presided at the meeting, which was addressed by Surendra M. Bose of Calcutta, India, a graduate of Stanford University and a graduate student at the University of California; by Prof. A. W. Ryder, assistant professor of Sanskrit, and by Prof. Fryer.

Bose recounted the chief events of the life and reviewed the teachings of Buddha, who was born in th sixth century, B. C., and who, at the age of twenty-eight, renounced his claim to his father's throne and became a hermit. After seven years of struggle, he is said to have received enlightenment while sitting under a sacred tree. He then became a wandering ascetic and teacher and continued his work as a teacher until his death, at the age of eighty.

Prof. Fryer, in a closing address, illustrated by stereoptican views, showed and described places famous in the life of Buddha and history of his religion and declared that under the name of Saint Josaphat, Buddha was canonized by the Roman Catholic Church and November 27 was his day in the church's calendar of saints

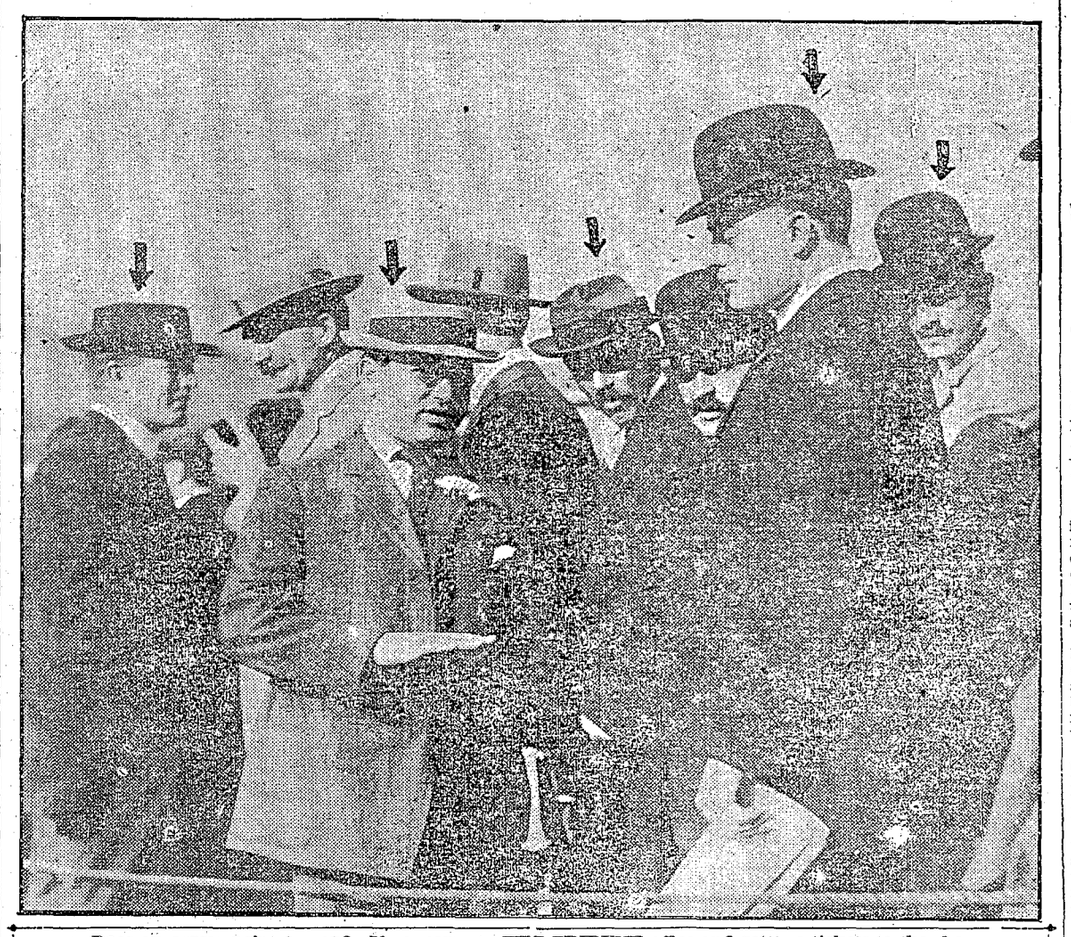

KENTFIELD HOTEL BURNS ENTAILING $5000 LOSS

SAN RAFAEL, Oct. 19.— Fire of unknown origin last night destroyed the vacant hotel property known as Kent Mount in Kentfield, entailing a probable loss of $5000. The flames were discovered by a watchman at a public school near by, and although the Ross and San Anselmo fire departments reached the scene in quick time, they were too late to render effectual aid in saving the structure and confined their efforts to protecting a number of cottages near by.

The property is owned by Mrs. R. Johnson and has been vacant for several months.

WHAT HO! YOU COMMUTERS! JUST FOLLOW THE ARROW

DOES IT POINT TO YOU? YES? COME QUICK TO THE TRIBUNE

Does an arrow point to you? If so, come to THE TRIBUNE office and get two tickets to the show.

Two Seats to Clever Play, Free of Charge, Are Waiting for You if You Are Lucky Man or Woman Singled Out by Camera

Are you a member of the Dependent Order of Five-O'clockers?

Are you a slave of the alarm clock?

Do you make your own coffee—and drink it?

Is the oncoming rumble and mournful whistle a signal for a marathon each morning?

It is, eh?

Then you are a commuter.

You're a commuter and you admit it.

And if you are, this is for you. Read it carefully. It means something for nothing.

You don't have to do a thing—except be a commuter, and that's an easy matter if you have the habit.

Squint at the photograph above. There are two things you'll notice. First, the I've-got-to-get-there-look on the features of the persons in the picture; second, the arrows. The persons are commuters; there are a number of them. But there are only five arrows, and each one points to some individual in the photograph.

Now that you have digested that, harken to this:

THE TRIBUNE is going to publish a group of commuters every day for more than a week. Every day also there will be five arrows pointing to as many persons in the picture. The lucky ones, thus designated, will bring the picture to THE TRIBUNE'S main business office at Eighth and Franklin streets, be identified and receive, free of any charge whatsoever, two tickets for any performance of "The Commuters," which will be seen at the Macdonough theater all of next week, beginning Monday, October 23.

What d'ye know about that! Doesn't cost a cent!

THE TRIBUNE photographer will visit the railway stations every day and catch a group of commuters on a sensitive plate. When the picture is printed in THE TRIBUNE that night five arrows will be found singling out five persons. Every one of those persons will be given free of charge two of the best seats in the theater for any night or afternoon performance of "The Commuters."

Secretary-treasurer B. A. Forsterer of THE TRIBUNE will identify the lucky ones when they call at this newspaper's main business office. Then he will give them an order for the tickets.

"The Commuters" was written by James Forbes, who was also responsible for "The Chorus Lady." Remember how you raved over the latter? They say you'll like the other even better, especially if you commute. "The Commuters" will show you a picture out of your own daily life.

See the play as THE TRIBUNE'S guest. Look for the picture in THE TRIBUNE every day for the next week, and more. And one of these times you'll say to your wife or your husband:

"That's me! How lucky!"

And you'll hie yourself to THE TRIBUNE office, show your face to Mr. Forsterer and he will give you that coveted order for two admissions to "The Commuters."

Watch for the pictures!

BERTRAND YORK CLAIMS MISS SADLER AS BRIDE

Friends of Popular Couple Crowded Christ Church in Alameda Last Night to Witness Marriage Ceremony

Bertrand York claimed Miss Ruth Sadler as his bride last night at 9 o'clock in Christ church, Alameda, before about 900 guests from San Francisco, Alameda and this city.

The appointments were elaborate and beautiful. One hundred guests attended the reception which followed, and at which were displayed some charming evening gowns.

The rooms suggested an autumn scene with their fall foliage and artistic effects in grapevines and golden fruit, with lovers' knots of tulle in yellow, making a riot of color.

An innovation in the wedding details at the church was the entrance of the bridal party, who came in from the door near the altar, traversed the front aisle one by one, Mrs. Louis Mead as matron of honor coming first, followed by Mrs. Edgar Jones, and the trio of bridesmaids. The party met the bride on the arm of her father at the church entrance and then retraced their steps to the altar, where the impressive Episcopalian service was read by Rev. Everett Couper.

The bridal gown was a shimmering satin made after a Paquin model, the bodice trimmed with a fichu of rare old lace, while fringe and an exquisite beaded underdress completed the costume, with which was carried a bouquet of lilies of the valley and gardenias.

The gowns of the bridal party were in the golden shades relieved with white, and they carried yellow bouquets.

Mr. and Mrs. York will return from their honeymoon about the middle of next month. Meanwhile they will tour the Atlantic coast.

Mr. York is at present the manager of Idora Park. He is the son of R. B. S. York, a pioneer of Oakland. The many friends of the beautiful bride will doubtless entertain for her upon her return.

Gov. Dix Takes Peep at Harry Thaw at Matteawan

NEWBURG, N. Y., Oct. 19.—It became known here today that Governor Dix this week paid an unostentatious visit to Matteawan state hospital for the criminal insane, where Harry Thaw is confined. His visit was without the knowledge of anyone at the hospital, it being his request that formalities be abandoned. At the hospital he was taken through several of the wards and Harry Thaw was pointed out to him in one of the corridors. Thaw was sitting in one of the sitting rooms. The governor paused and looked at Thaw several minutes and then passed on without making any comment.

ANNOUNCES HER BETROTHAL TO GHIRADELLI

Miss Gladys Ostrander to Wed Son of Late Manufacturer

BERKELEY, Oct. 19.—Miss Gladys Ostrander, daughter of George and Mrs. F. G. Ostrander, surprised her guests at a gathering this afternoon with the announcement of her engagement to Harvey Ghiradelli, son of the late Louis Ghiradelli, millionaire manufacturer, and Mrs. Ghiradelli of Oakland. The engagement is the culmination of a university campus romance, both young people being members of the University of California of the 1913 class. Young Ghiradelli recently gave up his studies to engage in business.

Members of the Alpha Phi sorority of which the prospective bride is a member, and a few other guests were bidden to the Ostrander home at Magnolia street, ostensibly to meet Miss Cheryl Merrill, fiancee of Professor Richard Scholz, and the interesting news of the engagement was a surprise to the thirty or more present.

Miss Ostrander has been prominent in college activities and is affiliated with several campus organizations. Ghiradelli is a member of the Sigma Nu fraternity.

Miss Ostrander further announced this afternoon that the wedding would be an event of December. She was assisted in her duties as hostess by her sister who is a guest here from Round Mountain, Nevada.

Among those who were the first to hear the engagement news were the Misses Elva and Juanita Ghiradelli, sisters of the groom elect, his cousin Miss Carmen Ghiradelli and Miss Aimee Jorgensen, Miss Janet Torrey, Miss Marjorie Cook, and members of the Alpha Phi sorority.

DEATH TAKES FRIEND OF DICKENS

Late Mme. Berton Numbered English Author and Hugo as Acquaintances.

Was Widow of Former French Consul in City of San Francisco.

BERKELEY, Oct. 19.—Madame Catherine Berton, intimate friend of Victor Hugo and Charles Dickens, and widow of the late Colonel Jules Berton, French consul in San Francisco, died yesterday at the home of Mrs. C. C. Jones, 1815 Walnut street.

Madame Berton was a woman of unusual intellectual attainments and until she passed away at the age of 80 years, vigorously manifested signs of her scholarship. Associated during the life of her husband with such men as Hugo and Dickens, she became interested in literature and philosophy, and but a few days before her death penned the results of her thinking upon the subject of friendship.

Following the death of her husband in San Francisco twenty years ago, after he had served for years as consul in that city and held other high posts under his home government, Madame Berton lived simply with friends across the bay and this city, although she had been accustomed to the gaiety of court life in France and England. Shortly after the fire of 1906 she came to Berkeley, residing for a year, after which she returned to San Francisco to undergo treatment by a French specialist. A month ago she returned to Berkeley and took up her residence with Mrs. Jones. She was a prominent member of the Kakeeklatsch, a social organization of North Berkeley women.

ROMANTIC LIFE.

Until her latest years, Madame Berton's life was one of romance and throbbing interest, on account of the novelty of her meeting with Berton, her subsequent acquaintance with notable personages and her wide travels and study.

Daughter of a well known English family, she went to France as Catherine Garrow, at the age of 10 years, to attend school and learn the French language in the Parisian capital. Her guardian in Paris happened to be the guardian of young Jules Berton, who was also a student. Once a month the barrister who looked after the welfare of the two young people brought them together at a dinner. A few years later Catherine Garrow returned to her home in England and did not see Berton again until they chanced to meet at a ball in London. Meanwhile she had become engaged to wed her cousin. But her fiance tarried long in India, where he held a position, and the engagement was broken off. She later became betrothed to Burton.

After the latter had won recognition at the French court and married the English girl, the couple frequently associated with the leading authors of France and England, as well as diplomats of the period. Berton had attended school with the two sons of Hugo, who died before their illustrious father. The Bertons dined more than once with Dickens. Madame Berton kept for many years letters which she and her husband had received from Hugo and which she finally presented to the French library.

ACTED AS SECRETARY.

During a long period of invalidism suffered by Colonel Berton, his wife acted as his secretary and was familiar with many of the most intimate state affairs.

She leaves no relatives. Members of the family of Colonel Berton are wealthy perfume manufacturers in Southern France.

Shortly before her death Madame Berton wrote the following:

"One can bear grief, but it takes two to be glad.

"We reach the divine through some one, and by dividing our joy with this one, we double it.

"The sky is never so blue, the birds never sing so blithely, our friends are never so gracious, as when we are filled with love for some one close.

"Being in harmony with one, we are in harmony with all. The lover idealizes and clothes the beloved with virtues that exist only in his imagination and in the contemplation of the transcendant qualities that his mind has created the lover is raised to heights otherwise impossible.

IMPRESSED ON SOUL.

"Should the beloved pass from this earth while such a condition of exaltation exists, the conception is indelibly impressed upon the soul. The highest earthly relationship is in its very essence fleeting, for man is fallible and living in a world where the material wants jostle and time and change play their ceaseless parts, gradual obliteration comes and disillusion enters. But the memory of a sweet affinity once fully possessed, and snapped by fate at its supremest moment, can never die from out the heart. All other troubles are swallowed up in this and the memory of that once ideal condition will chant in the heart a perpetual eucharist.

"The dead have ceased their labors and are at rest.

"But for the living, when death has entered and removed the best friend, fate has done her worst and thereafter nothing can inspire terror.

"To have known an ideal friendship and have it fade from your grasp and flee as a shadow before it is touched with the sordid breath of selfishness, or sullied by misunderstanding, is the highest good. And the constant dwelling in sweet, sad recollection on the exalted virtues of the one that is gone, tends to crystallize these very virtues in the heart of him who meditates them."

The funeral of Madame Berton will be held tomorrow morning at 10 o'clock from local undertaking parlors, the interment being in Sunset cemetery.

WILSON FEELS THE LORIMER PROBE

Senatorial Investigators Pry Into the Witness' Safe Deposit Box.

Committee Also Expresses Bit of Curiosity Anent Bath-Room Episode.

CHICAGO, Oct. 19.—The records of State Representative Robert E. Wilson's safe deposit box in the First National Bank building, when suomitted to the Senator Lorimer committee today, showed that Wilson had rented the box July 31, 1909.

Senator Jones and Attorney Marble questioned the witness regarding telegrams sent to the legislators who met Wilson at the Southern hotel in St. Louis. One of these telegrams was addressed to former Representative Charles A White at O'Fallon, Ill. This message asked White to meet Wilson in St. Louis at the time of the so-called bathroom episode. The telegram was dated July 14, 1909. The meeting in St. Louis took place July 16, 1909.

Wilson disclaimed all responsibility for the message to White and denied that the trip to St. Louis was arranged by Lee O'Neill Browne, and that Browne or his secretary sent the telegrams to those who were to meet Wilson.

CAPTAIN TESTIFIES IN MURDER TRIAL

Meilses Gives Damaging Evidence Against the First Mate.

SAN FRANCISCO, Oct. 19.—Captain Thomas Meilses of the bark Makaweli contributed his important testimony this morning during the trial of Charles T. Smith, first mate of the vessel, accused of murder on the high seas off the South African coast, on April 9 last.

Smith was arrested following the disappearance of K. Inabi, the Japanese steward of the ship, and according to the evidence given by Captain Meilses, he found blood on the deck immediately after the second mate had reported to him that Inabi could not be found. He immediately concluded that a murder had been committed and subsequently, on the strength of the evidence, gathered by his staff, placed Smith in irons. There had been bad blood between Inabi and the first mate and following the preliminary examination here in which most of the evidence was submitted, the United States Grand Jury found an indictment charging murder.

CARBON LIGHT ON ELECTRIC TRAINS

Are to Replace Incandescents Now in Use on Southern Pacific Locals.

ALAMEDA, Oct. 19. — The Southern Pacific electrical department made the first road test last night of a new electric headlight which will probably be adopted for use on the Alameda and Oakland electric trains in lieu of the present incandescent light now in use. The new light is a high-powered carbon lamp, carried in front of the platform, similar to a street car headlight, instead of on the roof as the present train headlights are mounted. The new headlight was used last night on one of the loop trains and apparently was an unqualified success. It lighted up the track for a long distance ahead and also lighted the track immediately in front of the train. The roof lights throw a light ahead but the track just in front of the train is in deep shadow.

The new light would have to be shifted each trip, the same as a street car light and therefore requires more attention than the incandescent roof lights, which are stationary and work on switches at the motorman's hand.

There is some talk among train hands than an actylene light would be the best as such a headlight would not depend on the power current. If anything happens to the power line at night a train would be stalled in the dark with no lights at all. The new carbon light used last night lighted up the dangerous curve at High street and Encinal avenue to fine advantage. The light was thrown so far ahead of the train that it gave warning of the train's approach almost as early as did the whistle.

HONOR COMMITTEE UNDERTAKES REFORMS

UNIVERSITY OF CALIFORNIA, Oct. 19.—Large classes are to be divided into sections for examinations to promote honor among students by eliminating temptation, if the honor committee of students adopts the plan which is under consideration. Instructors will be asked to remain out of the examination rooms as much as possible, and each student will be asked to maintain strict discipline without "close proctorship," such as is maintained in Eastern colleges. Mutilating books in the university library, stealing in the gymnasia and answering to absent class-mates' names at roll call are evils which the honor society will attempt to stamp out.

The Quickest Cough Cure—Cheap, But Unequaled

A Whole Pint of It for 50c. Saves You $2. Does the Work Quickly or Money Refunded.

For quick and positive results, the pint of cough syrup that you make with a 50-cent bottle of Pinex, cannot be equalled. It takes hold instantly and will usually stop the most obstinate deep-seated cough inside of 24 hours. Even croup and whooping cough yield to it quickly.

The user of Pinex mixes it with home-made sugar syrup. This gives you a full pint—a family supply—of better cough remedy than you could buy ready mixed for $2.50. Easily prepared in 5 minutes—full directions in package.

Pinex soothes and heals the inflamed membranes with remarkable rapidity. It stimulates the appetite, is slightly laxative, and tastes good—children like it. Excellent for hoarseness, asthma, bronchitis, and other throat troubles, and has a wonderful record in cases of incipient lung trouble.

Pinex is a special and highly concentrated compound of Norway White Pine extract, rich in guaiacol and other natural healing pine elements. Simply mix with sugar syrup or strained honey, in a pint bottle, and it is ready for use. Used in more homes in the U. S. and Canada than any other cough remedy.

Pinex has often been imitated, but never successfully, for nothing else will produce the same results. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is wrapped in each package. Your druggist has Pinex or will gladly get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

LARSEN, BENNETT AND GISELMAN IN GREEK THEATER

SANFORD BENNETT (aged 71).

UNIVERSITY OF CALIFORNIA, Oct. 19.—The Musical and Dramatic Committee of the University announces that a half-hour of music will be given in the Greek Theater next Sunday afternoon at 4 o'clock by Mrs. Fanny Ellsmore Larsen, pianist, and Sanford Bennett, baritone, with Marshall W. Giselman, accompanist. Mrs. Larsen is one of the most advanced pupils of George Kruger, and was highly recommended by him to the committee as a finished pianist of great ability. Twenty years ago there was no more popular concert singer in this vicinity than Bennett, who will be remembered by old San Franciscans as a member of the cast that first sang "Pinafore" in the city. At the age of 50 he lost both his health and his singing voice, and seemed destined for an early death. But in place of giving up in despair, he took himself in hand, devised a system of athletic exercises that he followed rigorously, and today, though 71, is as active and vigorous as a man of 40. At a private recital he proved to the satisfaction of members of the committee that his voice, too, had come back, and they very gladly gave him the opportunity to sing in the Greek Theater some of the songs that brought him fame so long ago. As he writes, "All are out of print and are new because they are so ancient." The complete program is as follows: Tarantelle, Nicode, Mrs. Larsen; "Ever of Thee," Mr. Bennett; Kammenoi Ostrow, Rubinstein, Mrs. Larsen; an old favorite, Mr. Bennett; Etude de Concert, Opus 23, Rubinstein, Mrs. Larsen; "If I Were Knight," Millard, Mr. Bennett. In case of inclement weather the concert will not be given.

WHEELER WRITES TO PRES. MADERO

University Head Congratulates Former Student of College On His Election.

UNIVERSITY OF CALIFORNIA, Oct. 19.—President-elect Francisco Ignacio Madero of Mexico, having once been a student of the University of California in 1892-93, President Wheeler, after his recent election, extended to him the congratulations of the University, writing to him as follows:

"As President of the University in which you were during the year 1892-93 enrolled as a student, I wish to send you my greetings and felicitations on the occasion of your election to the Presidency of your country. Your residence here is remembered with great pleasure still by members of the faculty who came in contact with you. I trust you will allow me to commend the patriotic self-control with which you declined to use your victory to establish yourself at the head of the state. Now that an election has been held after a considerable interval, you have unquestionably contributed greatly to the prestige and security of republican institutions, and also to the solidity of Mexico's government. I trust you may be able, in the position of President, to aid, enlighten and upbuild your native country. With high respect, believe me to be," etc.

In reply there came today a letter in Spanish from President-elect Madero which, translated, reads as follows:

"Your courteous letter of the fifth of this month has given me much pleasure in recalling memories of my sojourn at your well-known university in 1892 and 1893, and I am grateful to the members of her faculty for doing me the honor of remembering me.

"I thank you most deeply for your kind congratulations on the victory won in the presidential campaign, and I sincerely appreciate your good wishes for the welfare and progress of my country, in which liberty, based upon law and order, owing to the triumph of the revolution, has become an established fact."

ORGANIZE A TAX REFORM LEAGUE

BERKELEY, Oct. 19. — The Berkeley Local Option Tax Refort League was given temporary organization at a meeting of citizens last night. The meeting was called at the request of Mayor J. Stitt Wilson, who was the principal speaker. He suggested that the purpose of the movement would be to promote the adoption of a constitutional amendment which shall grant to the people local option in the matter of taxation, and permit the enactment of general laws which shall allow the citizens of the State to change their system of taxation to suit modern conditions and in conformity with the will of the people. He would suggest that no special form of taxation be advocated at present, leaving that to the judgment of the voters after the right to self-government in matters of taxation has been secured under the provisions of the initiative, recently approved by the people of California. It is admitted that the present plan of taxation is unscientific, and one subject of this society ought to be to provide information concerning improved methods of assessment and collection of revenue for State, county and municipal purposes. A committee was appointed to draft a statement of principles and plan of organization. Herman I. Stein acted as temporary chairman, and Wells Drury was temporary secretary.

CONGRESSMAN TO SPEAK TOMORROW

Henry George, Jr., to Address Students and Citizens of Berkeley.

BERKELEY, Oct. 19.—Congressman Henry George Jr. of New York will address students of the University of California and the public in Hearst hall tomorrow afternoon at 1 o'clock on the subject of the single tax movement in the United States and elsewhere, and its relation to modern civic questions. The address will be given before the classes of Prof. John Graham Brooks, who is giving a series of lectures in the University on "Advanced Steps in Social Reconstruction" and "Democracy and Industry." It is by invitation of Prof. Brooks that the Congressman will speak.

Congressman George will be tendered a luncheon at the Hotel Shattuck at noon tomorrow, immediately before his appearance at the University, and will make a few remarks to the guests at the luncheon.

Tomorrow Mr. George will deliver an address on the single tax in the auditorium of the Berkeley high school, corner of Allston way and Grove street.

This will be the initial lecture given under the auspices of the Berkeley Civic Center committee recently organized by the Berkeley Board of Education, which for this purpose has thrown open the high school auditorium, and the public is cordially invited to attend free of charge.

Congressman George is the oldest son of the late Henry George, author of "Progress and Poverty" and other works dealing with economic and sociological questions. Congressman George is himself the author of several works, prominent among them being "The Menace of Privilege."

SPEAKS IN ALAMEDA.

ALAMEDA, Oct. 19.—Advocating the cause of single tax as the cure for the high cost of living and as the chief factor in promoting municipal and state prosperity, Henry George Jr., the greatest American single tax advocate, spoke at a public meeting in Haight school hall last night, appearing under the auspices of the Unitarian Club. President George C. Thompson of the Unitarian Club presided, introducing former Mayor Edward Robeson Taylor of San Francisco, who served as temporary chairman. The honorary chairman was a close friend of Henry George Sr. when the elder George was writing "Progress and Poverty," and speaking for the same cause which his son is now advocating. George is a New York Congressman, but is a native of California.

A group of distinguished Alamedans served as vice-presidents. Among them were Congressman Joseph R. Knowland, Superior Judge John Ellsworth, Council President E. B. Bullock, Councilmen Alfred L. Morgenstern and Clark Spence, President J. B. Lanktree of the Board of Education, School Director William Tappan Lum, City Superintendent of Schools Will C. Wood, I. Ehrenberg, Alfred Latham, Dr. W. O. Smith and Walter Cramer. The music numbers were by the Orpheus quartet, Lowell R. Redfield, soloist.

Early in his address George stated briefly that single tax proposed to wipe out improvement tax, the income tax, the tariff, the customs and all manner of general and special taxation save the tax on land. He declared that this system would prove the remedy for the present high cost of living and would make land cheaper through forcing land holders to let go of the land and spread the ownership more evenly.

The speaker likened the taxpayer to the drunk and disorderly character who was fined $10 or given 10 days in jail, saying that the tax on fine improvement was the same as a fine, except that a man might be fined but once by a police magistrate, but that the man who improved his ground with a handsome business structure was fined each year by the tax collector.

The speaker called David Lloyd George the greatest statesman in the world today and explained at length the British statesman's land tax scheme of one-fifth of one per cent on actual land values. He showed that English land values in many instances had not been altered or advanced since the time of William the Conqueror.

$30,000,000 BABY IS BORN TO THE DREXELS

NEW YORK, Oct. 19. — A daughter was born yesterday to Mrs. Anthony J. Drexel Jr., who was Miss Marjorie Gould. The baby, who will have a fortune of at least $30,000,000 and be one of the world's greatest heiresses, is the first grandchild of Mr. and Mrs. George J. Gould and will be named Edith Kingdon Drexel, after her grandmother.

Mr. and Mrs. Gould were elated when they greeted the wee heiress, who was born in the splendid house at 1015 Fifth avenue, which Gould presented to his daughter as a wedding gift. When the news of the new arrival went abroad in society messages of congratulation poured into the Drexel mansion. The marriage of Marjorie Gould to Anthony J. Drexel Jr. took place on April 19, 1911. It was regarded as a tie between the various banking interests of the Drexels and the industrial interests of the Goulds.

MILITARY BAND HELPS CELEBRATE TWO BIRTHDAYS

BANDMASTER GEORGE W. HOLLISTER.

ALAMEDA, Oct. 19.—When Bandmaster George W. Hollister of the Fifth Regiment band, N. G. C., planned with Mrs. Hollister for a quiet observance of their birthdays, Tuesday night, he failed to count on the thirty members of the band he has directed for years and which he took to the Philippines in 1898 for war service with the old First regiment of California volunteers.

Mrs. Hollister invited a half dozen neighbors to the Hollister home, 1922 Broadway, for an evening at cards in honor of the birthdays of herself and husband, both being born on October 16. Just as the guests sat down to the card tables the band, which had silently gathered in front of the Hollister home gave their opening serenade, "Hail to the Chief," which was followed by "For He's a Jolly Good Fellow." The musicians were speedily invited inside the home and the entire company spent a pleasant evening.

The members of the band presented their leader with a leather Morris chair. The band is one of the finest military musical organizations on the coast and won many trophies in band competitions. The members hail from Alameda, Oakland, Berkeley and San Francisco.

COMMISSION TO HOLD MANY EXAMINATIONS

SAN RAFAEL, Oct. 19.—E. M. Dates, fire commissioner of Sausalito and also one of the wealthiest residents of the place, yesterday told to the officials of this county a strange story of attempted extortion and a murderous midnight assault. According to his story Tuesday night he was called up several times on the telephone by some unknown persons and told that he would have to put up $200 or be "done up."

He says that he was called up twice in the evening, but that whoever was doing the talking hung up before he could learn more. About 11 o'clock the same night he heard a noise in his barn and thinking that one of his $1000 team of trotters had become fast in his stall, he went to the barn and was unlocking the door when three men assailed him.

One dealt him a terrific blow on the head. Dates, who is a large man, then commenced to fight and felled one of his assailants, after which they all ran away. Dates is awaiting a hearing on a charge of assaulting Constable Cramer of Sausalito with a revolver and is now out on $1000 bonds.

MAN'S DEAD BODY IS FOUND ON RIVER BANK

ANTIOCH, Oct. 19. — The decomposed body of a man, evidently a laborer, who had met his deathby drowning, was found lying on the bank of a branch of the San Joaquin river on Bradford tract. No. 8, owned by Col. John P. Irish of Oakland, by S. C. Cunningham, a resident of this place, yesterday. Cunningham notified the local authorities and the body was removed to the Antioch Morgue, where it is being held awaiting identification.

There are no marks of violence on the body. It was apparent that the man had been drowned about ten days ago. He was attired in a green suit with heavy working shoes and was apparently about 45 years old, was heavy set and had a stubby mustache. He had a five-dollar greenback, and $8.56 in gold and silver in his pockets. The only clew to his identity is a card which was found in his vest, with the inscription, "Conrad & Johnson, Fourth and Mission streets, San Francisco."

FORBIDS PLEDGING OF MEMBERS FOR FRATS

ALAMEDA, Oct. 19. — The Alameda board of education has again taken up the "frat" problem in the Alameda high school and will rigidly enforce a new resolution which provides that pledging candidates for "frat" membership is to result in the suspension of the pledged and the bringing of the same party before the board for further discipline. The "frat" members and novitiates claim that they are not technically violating the State "frat" law in pledging members to join after the pledgees have graduated from the high school. Under this latest ruling of the Alameda board the "frat" members will be hereafter barred from doing this. If such a rule is generally enforced throughout the State the societies would eventually die for lack of members. The "frat" supporters have counted on this pledging scheme to keep the societies alive.

CLARK VAN ORDEN DIES OF INJURIES

Alameda Boy Athlete and High School Student Broke His Back On Trip.

ALAMEDA, Oct. 19.—Clark Van Orden, 16-year-old son of Dr. Leander and Dr. Kate Van Orden, died at the family home, 1125 Paru street this morning, after lingering in a paralyzed condition since June. He was one of the most popular boys in the Alameda high school and one of the best-known Alameda youths of his age. Up to the time of the fall which broke his back last summer he was a leading Alameda boy athlete, member of the high school baseball and track team, expert swimmer and finished canoeman and boat handler. He had won many trophies by his athletic prowess.

It was while enjoying a vacation at the Van Orden summer home at Brookdale that the accident happened which cost him his life. With members of a house party the Van Ordens were entertaining. The boy was on a veranda in front of the house. He was sitting on a rail with several others of the party, when the rail collapsed. The boy, a trained and agile athlete, might have saved himself from injury had he not attempted to save one of the guests first, a young Alameda girl. With the boy's assistance the girl grasped a post and retained her footing, but young Van Orden fell to the ground a few feet below. The fall broke his back and paralyzed his body from his shoulders down.

The injured lad was rushed to Alameda by a system of special autos and trains, but all treatment proved in vain. Specialists from San Francisco were brought into the case, but nothing could be done.

Besides the parents the boy leaves three sisters and a brother. The sisters are Mary and Katherine Van Orden and Mrs. Philip Talbot Harris, and the brother is Lincoln Van Orden. He was a member of the Phi Sigma fraternity and of the Encinal Yacht Club. The funeral will be held tomorrow afternoon at 2:30 o'clock.

Martinoni Steals a Base and Then Scores the Winning Run; Beavers and Seals Tie; Hap Wins

SACRAMENTO, Oct. 19.—When a pitcher steals a base and said thievery makes it possible for him to score the winning run he should be given a niche in the hall of fame. Such credit is due "Busher" Martinoni, for it was his theft of second in the seventh inning that was a 4 to 3 victory for for him. His team mates also ran wild on the bases to the extent of eight steals, but his dash was the only one that counted in the run making.

Thornton lasted six and a third innings before the Oaks and in all but the sixth pitched nice ball.

The Senators strung their runs throughout the second, third and seventh. Singles by Danzig and Price and Van Buren's sacrifice put over the first. In the third Heister doubled and scored on an infield out and Shinn's single. Two sacrifices did the work in the seventh, sending Jimmy Lewis around after he had signed and reached second on Price's free pass.

SEALS AND BEAVERS TIE.

SAN FRANCISCO, Oct. 19. — San Francisco came pretty close to putting Mac and his men a wee bit back in the lead for the rag and had Mohler pegged to the plate instead of to second base in the ninth inning the score would have been 6 to 5 for San Francisco. Ernie didn't do this, though, and the Beavers knotted up the score.

Then the two teams battled on another four innings and made it a 13 inning tie for the day.

It was Cack Henley that got the lacing on the Seals' side of the fence and Koestner on the Portland side of the fence.

Here's how the tallies were made:

HAP MAKES IT ANOTHER.

LOS ANGELES, Oct. 19. — Vernon 9, Los Angeles 2.

Another slaughter with the Angels playing the role of the helpless victim. All that is lacking to convert the fag-end season games at Washington street park into sure enough slumber parties is for some long haired zook with a hand organ to appear on the scene and grind out soothing lullabys.

Leverenz led off in the lobbing for Los Angeles and lingered for six innings, or long enough to assimilate a healthy whaling. His delivery was an open book in the third, fifth and sixth innings and was soaked in sundry and divers directions. But not until the seventh did Dillon relent and remove him from the danger zone. Agnew then went in, and, save for a harmless hit by Carlisle in the seventh, twirled bingless ball.

Raleigh gave a two hit, seven inning performance. In the eighth Gipe was placed on exhibition in response to an urgent demand from a Redondo delegation consisting of two fans, whereupon the Seraphs proceeded to spank out their two runs.

PETROSKY AND HOLLAND TO MEET IN 10-ROUND CONTEST

West Oakland Club Signs Middleweights to Box Next Tuesday Evening; Wheelmen to Match Winner With Thomas

The West Oakland Athletic Club has been fully reorganized and on next Tuesday evening will stage a night of boxing at the club rooms in West Oakland.

Sol. Levison, the well known glovemaker, has been appointed official matchmaker of the club, and has already prepared a card that should please the lovers of the padded mitts.

Harry Foley has been appointed official referee of the West Oakland Athletic club. Foley is also the official referee of the Wheelmen Club and has had a wide experience in the ring as boxer, manager, second and referee.

Sailor Ed Petroskey and Fritz Holland, two of the best middleweights in the short distance game, will clash in the ten-round main event, and Jimmy Fitten and Billy Holmes will meet in one of the six-round special bouts. Billy Atkins vs. K. O. Campi, at six rounds, and Kid Evans vs. Mugsy McGraw and Billy Weeks vs. Billy Rodgers at four rounds balance out the card.

Petroskey and Holland met in a four-round mill in San Francisco last Friday evening and after a hurricane bout the referee declared the affair a draw. Both boxers interposed objections to the decision and the fans began to clamor for another go between the pair. It was plain that they could noa settle their differences in four rounds and when the matchmaker of the West Oakland club offered to put them over the ten-round route both boxers jumped at the opportunity.

WHEELMEN TO SHOW OCTOBER 31.

The Wheelmen club will stage its next show on the evening of the 31st, one week after the festivities at the West End. The matchmaker has signed Joe Thomas to meet the winner of the Petroskey-Holland scrap and is now working on the balance of the card. Thomas boxes Vic Hansen at Coalinga Saturday night and if he gets by with the pride of the oil belt he will be a big card here. Joe is working out at Al White's Golden Gate camp and says he is in fine shape. He started training for Hansen at Coalinga, but found the rays of Old Sol a trifle too strong so he will work here until the day before the mill. Henry Hickey, the hustling local bantam, will appear in one of the six-round preliminaries with a fast boy for an opponent. The matchmaker of the Oakland Wheelmen's Club would like to stage a bout between Freddie Welsh and Frankie Burns. However, if Welsh declines to come here to box ten rounds with the transbay pugilist an effort will be made to bring Lew Powell and Burns together.

The only thing which is liable to prevent this match being closed is the Englishman's demand that a guaranteed sum be paid to him. If he is ready to box on a percentage basis, the deal could be closed at once.

GRIFFIN COMPLETES CARD.

Willie Ritchie and Jack Britton will box the ten-round windup to the Broadway Athletic Club's show on Friday night, October 27. Jim Griffin came to terms with the two boxers last evening. These lads fought a four-round go recently, the decision being given to Ritchie. Since then Jack Costella, who is handling Britton, has been claiming that his protege got the worst of it, and has been clamoring for a chance to send the Chicago lad against the local pugilist in a longer contest.

While this isn't much of an attraction for a professional club, it is the best that can be secured just now. Griffin allowed the time to slip by without paying much attention to the details of his card and consequently when he did get busy he found that the time was too short to make any arrangements to bring out a couple of classy pugilists.

After thinking the matter over Griffin came to the conclusion that fifty-six rounds of milling would bore the fans and has decided to stage only four ten-round contests. Eddie Campi vs. Jimmy Fox, Abe Label vs. Rufe Turner and Roy Moore vs. Lee Johnson are the other matches announced as having been consummated.

GOLDEN GATE CARD A GOOD ONE.

The preliminary contests on the Golden Gate club's card for Friday night are just as attractive as the main event between Charlie Reilly and "Kid" Dalton. The "Kid" George and Rufe Williams scrap promises to be the best bout of the evening, as this pair of middleweights are at the top of the 158 pound division here. Their former mixup was a thriller from start to finish. In that bout Williams managed to hang the lucky wallop on the Stocktonian.

Both scrappers have a haymaker and a knockout is looked for and it all depends upon who can sneak the decisive jolt home first.

Billy Walters is the man who has been selected to oppose Rufe Turner, the shifty ebon-tinted lightweight of Stockton.

The matchmakers endeavored to pick out the hardest nuts in the local colony for Lee Johnson, and in signing up Willie Chappelle, the Los Angeles Italian, as the colored lad's opponent, Eddie Powers didn't grab a soft mark for the Oaklander. Chappelle can go some and he will keep little Johnsing on the jump from the first tinkle of the bell until the windup.

With two human elephants such as Ed Dunkhorst and Charlie Miller, the card isn't lacking in freaks.

Diamond Dust

Both the Oakland and Portland teams are looking forward for their series of five games, which will open at Freeman Park a week from today.

With the keen rivalry that exists between these two teams and the fact that they are very evenly balanced from a playing point of view should apply the fans with some baseball well worth seeing.

* * *

Poor Mac! This morning he was notified that there would be a double-header on Saturday between the Seals and Beavers, it being necessary owing to yesterday's game going a tie.

Bill Steen is in Portland with his sick wife, but McCredie has wired him that he will have to come back if it is possible.

* * *

Benny Henderson has been a real bad boy since the Portland team took to the road and the up-north papers are panning the big pitcher to a fare-thee-well.

If Benny has done all that they say he has, then a suspension for life should be his. When no one would take up his battles after jumping his contract, THE TRIBUNE and Walter McCredie succeeded in having him reinstated and he promised to be good.

It was a hard job getting him back and Benny should have appreciated it.

* * *

Harry Ables and Bud Pernoll are sticking around the local ball parks watching the Seals and Beavers play. These two southpaws are saving their arms for the Oakland-Beavers series.

* * *

Oakland ran wild, especially Cutshaw, on the bases yesterday, and that's one reason they trounced the Senators.

* * *

Vernon walloped the Angels again yesterday and now Happy thinks he still nas a great chance for the bunting. Sure he has, if Portland loses all and he wins all.

* * *

Rain put a crusher on the big game back east again today and the ball players are sitting around telling how they won and lost the other games.

* * *

Hetling broke back into the game this week and is doing very well in the infield. Yesterday he clouted out two safeties out of two trips to the hill.

* * *

Little Mundroff is playing tip-top ball for the Seals and is sneaking in a nice hit every now and then. Lots of the fans tried to tell Titewadius that he was better than lots of fellows on his pay roll, but Tite would not believe it.

* * *

Happy had a new third baseman named Sadler in harness yesterday in place of Burnell, who has badly wrenched his back.

* * *

Jimmy Toman is umpiring with Finner in the southern series and doing well, according to the men of the press in the south.

MUST BREAK CLEAN IS NEW RULE AT NEW YORK

NEW YORK, Oct. 19.—Hereafter, in all fights in the state of New York the contestants must break clean in the clinches. This was decided upon yesterday by the New York state athletic commission at a meeting held in this city. The commission no longer favors the old practice in which fighters could protect themselves in the clinches. Upon complaint by Tom O'Rourke, manager of the National Sporting Club, the commission adopted a rule whereby all clubs must make written contracts with fighters of prominence.

BERKELEY MERCHANTS 11, BUSHROD PARK BOYS 6

The South Berkeley Merchants defeated the fast Bushrod park baseball team, 11 to 6, in a game played on the Bushrod grounds yesterday afternoon.

The features of the game were the pitching of Kramer for the South Berkeley Merchants, who struck out eight men, and the team work of Hurl and Hodgeman who constituted the battery for Bushrod.

Hurl, who is only 14 years of age, made a splendid showing against the South Berkeley boys who were considerably older.

A. McNelty umpired the game.

ROWDYDOWS AT YALE PUT REST OF BOYS IN BAD HOLE

NEW HAVEN, Conn., Oct. 19.—Every effort is being made to save the Yale freshman football eleven, which has lost most of its players through the severe penalties inflicted on the scientific school freshmen for rioting in the streets. The school student council hopes to persuade the faculty to withdraw its probation from about half the class who were not involved in last week's attempt to burn four highway bridges. Several of the leaders in the bridge burning affair have agreed to confess their part in the escapade, and thus save those who were not concerned.

VARSITY SQUAD BEGINS ITS ACTIVE TRAINING

The varsity football squad went into strict training yesterday. The training rules as announced by Coach Schaeffer are that the men must retire by 10:30 o'clock every night, and are to abstain from tobacco and liquors until after the Stanford game.

The first half of the schedule of the interclass track and field meet will be held tomorrow afternoon. The balance of the events will be held next Saturday. Handicaps will be allowed in all of the events except the low and high hurdles. Some godd performances are looked for, particularly in the sprints and middle distance.

ST. MARY'S RUGBYITES SHOW IMPROVEMENT IN FIELD WORK

St. Mary's squad showed marked improvement over their last game when they tackled the California second varsity team yesterday afternoon holding the Berkeley crowd to a five all tie game.

In the first half the Oakland collegians had all the best of the argument and outplayed the varsity representatives. In the second half, however, the second varsity men showed to better advantage, and the honors in this half were easily in favor of California, though the St. Mary's defense must be given full credit for withstanding the constant onslaughts made on the goal line.

A feature of the game was the punting of the opposing fullbacks. Lawton for California found touch for long gains, while Leonhardt of St. Mary's was equally proficient in kicking for distance, but was unable on the majority of occasions to send his kicks into touch. This lost his team considerable ground. Had his kicks been effective in this particular St. Mary's might possibly have added another try to its score. In the second half the California attack was first class and the whole back field was often caught in a passing rally that was of varsity caliber.

Early in the first half St. Mary's started a heavy bombardment of the varsity goal line. The varsity men repulsed the collegians time and again, only to be threatened anew, until at last, with a series of line kicks and solid forward work, St. Mary's worked the ball into a position where Hatt was enabled to pick up and go over for a try. Halfback Diavala converted. No further score was made in this period.

In the second half the varsity altered its tactics somewhat and the forwards did better work in the scrum. The backs got under way on several occasions, and it was now St. Mary's turn to put up a hard defense. About half way through the half Mini intercepted a pass and raced down the field for 30 yards, when he transferred to Evans, who scored a try near the posts. Evans converted his own try, making the score five all.

No further scoring was done, and when full time was called the St. Mary's team was hard on the defense, with California trying hard to score the try that would have meant victory. The defense was too good, however, and full time came with no change in the figures.

California—Lawton, fullback; Bogardus, Mini, Evans, three-quarters; Campbell, Black, five-eighths; McMahon, halfback; Malatesta, Carpenter, Barnet, Allen, J. Hale, Hollister, Wheeler, Shaw, forwards.

St. Mary's—Leonhardt, fullback; Togni, Roth, Simpson, Stoltz, three-quarters; Blanco, Incell, five-eighths; Diavala, halfback; Cann, Hatt, Bell, Bruzzoni, Guptil, Franchi, Giavlinchi, Greeley, forwards.

C. S. A. L. ENTRY LIST IS LARGE ONE; WELL BALANCED

The entry list of the Catholic Schools Athletic league closed yesterday afternoon with every school of the league entered in some of the events to be held at the indoor meet of the league, Oct. 27, at the Auditorium. St Bridgid's school, Star of the Sea school, St. James school, St. Peter's school and St. Joseph's academy, Berkeley, loom up as the hardest contenders for these two events. St. Francis de Sales school, Oakland, decided at the last moment to enter a team. Walt Sweeney, a graduate of the institution, is training the team. Other Oakland schools to enter are St. Anthony's, Sacred Heart and St. Joseph's institute.

FRAYNE WILLING TO BOX LEW POWELL

The matchmaker of the Oakland Wheelmen last night completed arrangements with Johnny Frayne to meet any boxer he might select. The matchmaker sent Frayne's defi to Lew Powell and now it is up to the sorrel top if he wants a scrap on the 31st of the month.

CRAZY BASEBALL FAN TAKES WILD SWING AT JOHN EVERS

CHICAGO, Oct. 19.—Johnny Evers, second baseman of the Cubs, was the victim of an attack during the final game of the baseball series yesterday, being struck in the face by an enraged fan, who assaulted the player as he was walking toward the club house. Before he could reach his assailant, the man made good his escape. Evers has a scratch over one of his eyes, while his lip is cut from the effects of the blow.

STANFORD BABIES DEFEAT BERKELEY

STANFORD UNIVERSITY, Oct. 19.—The Stanford freshman team yesterday afternoon defeated the fifteen of Berkeley high by a score of 12 to 0 in the last game of their schedule.

The playing of the freshmen shows improvements. The line-ups follow:

INVITES ENTRIES FOR TRANSPACIFIC RACES

LOS ANGELES, Oct. 19.—Letters, forwarded by Vice-Commodore Warren D. Wood of the South Coast Yacht Club are on the way today to every prominent yacht club in the United States inviting entries for a trans-Pacific race. Coast yachtsmen expect, if any general encouragement is encountered to make the Los Angeles-Hawaii race a national or international event. The Hawaii race is by far the longest in the world, the only one approaching it being the New York-Bermuda course, which is not more than a third as long. The entires for the race at present regarded as certain are the Lurline, which has twice won the Hawaii trophy; the Hawaii, which won last year's race; the yawl Gwendolyn II of Seattle; the schooner Lady Maud; the Aggie; Sweetheart; Marion and Chispa of San Francisco, and the Yankee Girl.

ARGONAUTS WILL TOUR PACIFIC NORTHWEST

SAN FRANCISCO, Oct. 19.—The Argonaut basket ball team, one of the strongest unlimited teams in the championship series last year, will tour the northwest during the coming season. Harvey Hurst left yesterday to book games for the team. He will visit Portland, Seattle, Spokane, Tacoma, Vancouver and Victoria. He will also try to arrange with the champion University of Oregon team at Eugene and the Washington university.

WRESTLERS TO MEET.

SAN FRANCISCO, Oct. 19.—An attempt will be made to review the wrestling game in this city unday evening, when Peter Buzukos of Portland, who claims the lightweight championship of the West, will meet Theodore Geenoff, a husky Bulgarian of the middleweight class. The latter is said to be a marvel of strength, though he has never been seen in action here.

$50,000 FORTUNE LEFT BY BEGGAR

Bank Books Found in the Bed of Recluse Reveal Golden Secret.

SAN FRANCISCO, Oct. 19. — Begging his meals from neighbors for years, Michael F. Sullivan, aged 86, who lived the life of a hermit in a shack at 2511 Jones street, was found dead last evening in his bed, and under the mattress were bank books showing that he had approximately $50,000 to his credit in banks of the city.

Sullivan's will was found with the bank books, dated June 2, 1909, and he leaves his fortune to his sister, Mary A. Sullivan, of Utica, New York. She is to get $5000 in cash at once and the San Francisco Savings Union is ordered to hold the balance in trust for her and give her the interest semi-annually.

The will provides that the estate shall be divided according to the laws of California, after her death, among her heirs. The will says that the fortune is left to the sister on account of her care for their mother.

Sullivan had not been seen for three days. The neighbors who had cared for him asked the police to investigate. They broke in the door of the shack, finding the body.

The coroner's officials discovered the bank books. One issued by the Hibernia bank shows that he has a balance there of $18,172; in the San Francisco Savings Union he has $26,700; in the German bank $1170; in the Mutual $4000; in the People's Home Savings Union $4000, and smaller amounts in other banks. But little is known of Sullivan's history.

IONE PLAYS HOST TO SAN FRANCISCO VISITORS

IONE, Oct. 19. — The San Francisco Chamber of Commerce excursion arrived here yesterday and was side-tracked for the night. Open house was held on the train for Ione business men last evening, and local visitors were entertained. The San Franciscans also visited the various local places of business and fraternized with the merchants, everywhere speaking a word for the 1915 exposition.

They found local people all alive to the importance of the exposition, and what aid can be given by such a small community as this will be freely extended to make the big show a success. The excursionists say they found the same enthusiasm at all points visited, this northern country being fully alive to the benefits that will accrue to the whole State from the exposition.

Today the excursionists went to Martell by train and from there by stage coaches to Jackson and Sutter Creek. After seeing the Mother Lode mines, they will come back through Ione and go on to Lodi, Lockeford, Clements, Wallace, Hellsma and Valley Springs, and returning to Lodi for the night.

COMMANDER ANDREWS TO BE HEAD OF BUREAU

WASHINGTON, Oct. 19.—Commander Phillip Andrews, aid to the Secretary of the Navy, will become head of the all-powerful bureau of navigation in the Navy Department on January 1, succeeding Rear Admiral Nicholson, who will hoist his flag as commander-in-chief of the Asiatic fleet. Although Admiral Nicholson will be relieved of his duty as head of the navigation bureau the first of the year, he will not assume his new command until March, when he will relieve Rear-Admiral Murdock, its present commander.

Commander Andrews, born in New York, was appointed from New Jersey, entering the service in 1882. Rear-Admiral Charles E. Vreeland, now aid for inspection, will succeed Rear-Admiral Richard Wainwright, aid for operations, when the latter retires on account of age on December 1.

GOOD SAMARITANS FALL INTO $84,000 FORTUNE

ST. PAUL, Oct. 19.—If there are two persons in St. Paul or elsewhere by the name of R. S. Knapp and F. B. Knapp they are heirs to $84,000 for doing an act of kindness to a man dying in a hospital on the Yukon river in Alaska. At least a letter written by the man, who signs himself Thomas Lynch, on his deathbed, and received by a local paper, so stated. The letter reads:

"Please notify R. S. Knapp and F. B. Knapp that there is $84,000 which I leave to them. They took care of me two weeks when I was sick and I want to pay them for it. I have been in Alaska nine years and have made a stake. I have but a few more days or weeks to live."

GOVERNMENT DREDGER SUCKS UP FORTUNES

LOS ANGELES, Oct. 19. — Employes on the Government dredge in the harbor at San Pedro have been gathering a harvest of coin amounting to hundreds of dollars. While the dredge was operating at the Fifth-street landing, deepening the channel from twenty-five to thirty feet, two of the men who kept watch on the discharge pipe recovered $135. Another picked up $40 in various denominations out of a rubber coupling on one of the pipes in which the coins had lodged. No work had been done at that point for years, and in the meantime purses and money have been constantly lost off the wharf by excursionists and others. Many tons of coal, lost overboard long ago, have also been recovered.

$1,000,000 OF ALASKAN GOLD ON STEAMSHIP

SEATTLE, Wash., Oct. 19.—The steamship Victoria arrived from Nome, Alaska, last night with a million dollars in gold bullion and 41 passengers, the record for the season's southward passage. Half of the gold was consigned to Seattle banks and the assay office here and the remainder to San Francisco.

F. Keppler, fourth mate of the Victoria, sustained three broken ribs when the vessel was caught in a terrific storm October 13. Keppler was on duty on the bridge and was hurled against the rail.

Morgan have accepted the invitation of the New York Economic Club to attend a dinner here on November 20, at which the subject for discussion will be "Government Regulation of the Trusts." Among the speakers will be Senator Cummins of Iowa, and Nicholas Murray Butler, president of Columbia University.

WORK BEGINS ON BIG POWER PLANT

Pitt River Enterprise Will Be Greatest in State When Completed.

REDDING, Oct. 19.—Work upon the greatest electrical power plant ever attempted in California has been begun in the big bend of Pitt river by the Northern California Power Company of this city. One hundred and twenty thousand horsepower will be developed from 250,000 inches of water turned from Pitt river near the town of Wengler. It is estimated that the total cost will be $4,000,000. It will be by far the largest electrical power plant in the State.

The ditches and tunnels will have a combined length of five and one-quarter miles. The diverting canal will be 32 feet wide on the bottom, 50 feet wide on top and 15 feet deep. Each of the five tunnels will be 24 feet wide and 26 feet high, being made larger than necessary for them to carry the 250,000 inches of water, for they are to be excavated with steam shovels. Water will be turned into the ditch and tunnels by a diverting dam 120 feet long and seven feet above low water mark. At the outlet of the canal the water will have a fall of 464 feet.

The great work will not be completed for two years. The company has just about completed its largest installation at Coleman, on Battle creek, where 21,000 horsepower is developed, and it is transferring steam shovels and other machinery used in construction there to the new works on the Pitt.

The construction of a system that will develop 120,000 horsepower electrically from one stream of water at one spot has never before been attempted in California. The Great Western's 50,000 horsepower plant is believed to be the greatest in California today.

No pole lines will be built. The current will be conveyed over wires strung on steel towers, five to the mile. There will be three circuits, which means that nine wires will be strung on the towers. The Great Western's tower lines have only two circuits or six wires.

Redding will be the base from which all the machinery and supplies will have to be hauled by teams to the scene of the extensive construction work. The distance is sixty-seven miles.

H. C. Capwell Co. THE LACE HOUSE

The Manufacturers' Story

Just across on the other page the manufacturers have bought space in this paper to tell you some important news about

"Mérode" (Hand-Finished) Underwear.

The story is entertainingly and convincingly told—as only the makers of the goods can tell it, for they know just how each stitch is wrought in these knit undergarments that keep you so warm and comfortable during winter.

The only thing they left out was the fact—and we suppose they thought you knew it, which you probably do—that the H. C. CAPWELL CO. are the largest distributors in Alameda county of this superior product of these manufacturers.

The quality of the MERODE goods and the purchasing power of this store could have but one result—WE DO THE LARGEST KNIT UNDERWEAR BUSINESS IN OAKLAND.

Don't be left shivering and shaking when that heavy fog sweeps down of these mornings and separates you from the warm sunshine, which instead of MERODE underwear, has been serving you for the last week.

The sunshine is cheaper, of course, but you can't always have it with you.

MERODE knit garments are the best substitute.

DECLINE FOLLOWS RISE IN PRICES

Market Weakens When Large Amount of Stocks Are Placed On Sale.

NEW YORK, Oct. 19.— An unusually active selling movement this morning depressed the stock market after prices had been advanced generally. The selling was largely in the nature of a bear raid, which proved so active that considerable long stock was forced on the market. Announcement of the U. S. Steel Corporation's decision to cancel its lease of the Great Western ore lands was accepted as a bullish factor at the opening and was largely responsible for heavy buying of U. S. Steel and other standard issues.

The market encountered active selling on the rise. Acute weakness of various specialties, notably American Car, which broke four points, alarmed holders of stocks.

There was more general selling which depressed prices of some of the important issues substantially. The apparent absence of support encouraged the professionals to seek weak spots, and they uncovered stop-loss orders at various points.

Talk of government proceedings against the Corn Products Company led to increased sales of these stocks at sharp declines. Purchases led to increased sales of these stocks at sharp declines. Purchases by the short interest and a 2 point rally by Great Northern Ore certificates steadied the market before midday.

Bonds were heavy, especially American Tobacco 6s, which went down 1⅛ to 111, making the week's loss 3 points.

Decided irregularity prevailed in the opening range of prices of stocks. There was a large volume of buying orders. Quotations of the majority of the more active issues were advanced. United States Steel was in unusually good demand and was soon forced up a point above yesterday's closing.

Great Northern Ore lost 2½, and among the railroad stocks, Reading, Southern Pacific and Lehigh Valley gained a point or more. Atlantic Coast Line lost a point and Beat Sugar ¾.

Large amounts of stocks were put out at the higher range of prices and the market weakened materially. Union Pacific sold a point below yesterday's closing, Great Northern preferred 1½ and Reading, United States Steel and Lehigh Valley a sharp fraction, and the whole market began to manifest extreme weakness on heavy selling. The break was effected by a drop of seven points in Great Northern Ore certificates, which touched 40.

Stocks were bought sparingly but the movement upward was continuous and by 1 o'clock favorite issues had recovered to a parity with yesterday's closing or above.

Having taken their profits on the earlier rald the bear faction withdrew from the market and prices hardened. The demand was not urgent and there was little inquiry for stocks around last night's level.

The market closed strong. There was an increasing show of strength by the general list. Canadian Pacific sold 2¼ above yesterday's closing, Lehigh Valley 2½. The copper stocks moved up vigorously on the announcement of an advance in the price of the metal.

SURELY BREAKS UP A BAD COLD

The Most Severe Cold and Grippe Misery Will Be Relieved in Just a Few Hours.

It is a positive fact that a dose of Pape's Cold Compound taken every two hours until three consecutive doses are taken will cure Grippe or break up the most severe cold, either in the head, chest, back, stomach or limbs.

You distinctly feel the cold breaking and all the disagreeable grippe symptoms leaving after the very first dose. It promptly ends the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad *after effects* as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

TWO HUNGRY MEN PLAN BURGLARY

Listening Policeman Frustrates Efforts and Lands Duo in Jail.

SAN FRANCISCO, Oct. 19.—The plan of two hungry men to commit burglary in order to obtain money with which to buy food conceived and carried out within the hearing of a plain clothes policeman resulted in the arrest early this morning of Lawrence McGovern, and Joseph Holliday, who were booked at the city prison.

Policeman Tracy in civilian dress was standing at the corner of Grant avenue and Pacific street, half concealed in the doorway when two men passed leisurely and at first failed to notice the presence of any one about. "I am just starving," said one in a whisper, "and I have got to rob a store and get money even if the whole police force gets on to me. I tell you I'm—" and before this sentence was finished, the pair became aware of the presence of the silent figure on the corner. "Wait until he gets out of the way," were the last words that officer Tracy heard, and as he walked away down a narrow alley, the men proceeded along Montgomery avenue. Tracy, however, kept them in sight and summoned his partner, Policeman Moran. The pair concealed themselves in a doorway and saw the burglars throw a brick through the window of the second-hand establishment of Michael Benjamin at 1102 Montgomery avenue. The noise was heard by a Morse patrolman and the pair, frightened, fled without obtaining any loot. They were pursued by Trace and Moran who soon had the handcuffs on their wrists and they were charged at the prison with burglary.

PLAN ON FOOT FOR STATE REFORESTATION

SACRAMENTO, Oct. 19. — The first step toward the reforestration of the State will be the establishment of a State forest experimental department in San Diego this winter, according to the announcement of State Forester Homans today. The station will be operated nder the direction of the State Department of Forestry. Homans' decision to establish the station was made after a conference with Max Watson, city forester of San Diego, who made a trip to Sacramento for a conference. San Diego already has 7000 acres devoted to forestry purposes and which are being developed on plans similar to those in vogue in European cities. The station will be established for the purpose of trying out hard wood and other rapid growing species to determine the advisability of growing them for commercial purposes.

BEATEN BY POLICEMAN, SHIPPER PLANS TO SUE

ROSEVILLE, Oct. 19. — R. Duff, a prominent cattle shipper from San Francisco, was arrested in the railroad yards here by a special raiload policeman, after an altercation with Trainmaster J. W. Knightlinger. Duff was shipping a carload of cattle. He was told that his train would not leave until 5 o'clock. At 4 o'clock he telephoned to the yard office and was told his train had gone.

The quarrel with Knightlinger followed. Although he did not resist the officer, according to witnesses, he was roughly handled, clubbed and handcuffed and placed in jail. Yesterday morning the case against him was dismissed. Duff says he will sue for damages.

LEAPS FROM SWIFT TRAIN.

HANFORD, Oct. 19.—A demented woman traveling from the east on Santa Fe train No. 7, with two small children, leaped from an open window while the train was traveling, near here, at thirty miles an hour. She was picked up unconscious and taken through to Fresno.

FRECKLES GONE

"Simple Remedy From Osgood Bros. Removed Them," Says Society Lady.

"The best skin specialists told me that nothing would remove my freckles and that I would carry them to my grave," said a well known society woman, "but I fooled them all with a new drug—othine—double strength, that I bought at Osgood Bros., which cleared my skin and gave me a fine complexion."

The action of othine is really remarkable, for when applied at night, many of the freckles disappear entirely by morning, and the rest have begun to fade. An ounce is usually all that is needed, even for the worst case.

Be sure to ask Osgood Bros. for the double strength othine, as this is sold under a guarantee of money back if it fails to remove the freckles.

WORLD HAS EYES ON GROWING CITY

Chamber of Commerce Has Worked Wonders With Publicity Efforts.

The correspondence of the Chamber of Commerce is an indication of the widespread interest and inquiry with regard to developments in Oakland and Alameda county.

As a result of the publicity campaign carried on by the Chamber of Commerce the mails are burdened with letters from people from all parts of the world who want information about Oakland.

The Oakland Chamber of Commerce lately prepared for circulation a new booklet extensively illustrated, of which an edition of twenty-five thousand has been issued. In connection with this booklet a prominent resident of Oakland writes:

"I have been looking over the new booklet issued by the Chamber of Commerce, and wish to say it is as pretty a piece of color and half-tone work as I have seen in many months. The descriptive text, too, is well written."

In addition to the above mentioned booklet, the Chamber of Commerce has prepared a new edition of a small eight-page leaflet suitable for enclosure in an envelope. This folder contains a concise statement of Oakland and its advantages, and is intended for a wide circulation in letters of the Chamber of Commerce and of businessmen throughout the city. The Chamber of Commerce, however, is scarcely able to keep on hand sufficient literature to meet demands.

MANY REQUESTS.

Within the past week requests have been received for literature about Oakland to be sent to Breslau, Germany; Frederickshaven, Denmark; London, England; Glasgow, Scotland; Anaconda, Mont.; New Britain, Conn.; Portland, Ore.; Orange, N. J.; Guanajuato, Mexico; Panasoffkee, Fla.; Los Angeles, Cal.; Fulton, N. Y.; Fargo, N. D.; Tacoma, Wash.; Yuma, Ariz.; Toledo, Ohio; Fenton, Mich.; Kansas City, Mo.; Mine, Nev.; Oskosh, Wis.; Tucson, Ariz.; New York, N. Y.; Joplin, Miss.; Philadelphia, Pa.; Kenefick, Okla.; Dayton, Ohio; Antioch, Cal.; Providence, R. I.; Springfield, Mass.; Pawtucket, R. I.; Des Moines, Iowa; Fresno, Cal.; Norton, Mass.; Holyoke, Mass.; Wayne, Pa.; South Hadley Falls, Pa.; Brooklyn, N. Y.; San Diego, Cal.; Fenton, Mich.; Devil's Lake, N. D.; St. Louis, Miss., and Omaha, Neb.

This gives a slight indication of the publicity work which is being carried on by the Chamber of Commerce exclusive of such advertising as that secured through the sending of advance notices of the laying of the cornerstone of the city hall by President Taft, with portraits of the same to more than a hundred of the leading daily papers and press agencies throughout the United States, and through numerous magazine and newspaper articles supplied for publication in various places.

RAZOR DRAWN TO END BLOODY FISTIC DISPUTE

SAN FRANCISCO, Oct. 19.—When Joseph Lennon, a teamster, and Henry Howard, a laborer had a dispute at Washington and East street at 8:30 this morning they determined to settle their difficulties with their fists. There was soon a ring of admiring spectators around them and when blood began to flow Lennon drew a razor, cutting Howard on the wrist and severing an artery. Policeman Bower interfered and prevented further slashing, sending Howard to the Harbor Hospital and locking Lennon up on a charge of assault with a deadly weapon.

One building will cost $90,000 and the other about $75,000. Each will be three stories high, and will be of entirely separate construction and ownership, but will be leased by Collins to be run under one management. Plans are being drawn by B. G. McDougall of San Francisco.

There will be no meeting of the Oakland chapter, No. 140 O. E. S., tonight.

THIEF HAS WILD RIDE IN PATROL

Break in Shaft Starts Horses On Run at Breakneck Speed.

SAN FRANCISCO, Oct. 19.—The breaking of the shaft of the patrol wagon attached to the Bush Street Station, this morning was responsible for a runaway and an exciting ride over a half-dozen blocks for petty larceny thief, Fred Smith, Policeman Hospetter and Driver Eddie Hussler. Smith fearing that he would be hurt, begged the officer to be allowed to jump from the moving vehicle but was restrained while Hussler did his best to stop the frantic horses.

The pole broke while the wagon was on Van Ness avenue and Post street and struck one of the animals. The frightened team ran along Van Ness to Sutter, then to Post where a turn was made almost on two wheels and then along Post to Bush where almost in front of the station it was stopped. Driver Hussler had his hands bruised and a finger broken in the struggle to stop the runaway. He was treated at the Central Emergency Hospital.

WRIGHT DOES "STUNTS;" MACHINE IS WRECKED

KITTY HAWK, N. C., Oct. 19. — Two world startling features were accomplished by Orville Wright in his new biplane late yesterday before the frail machine was hurled to the ground in a 35-mile gale and wrecked. He remained in the air for 1 minute and 15 seconds in two flights, breaking the world's gliding record. In the same two flights the aviator brought the biplane to complete standstill, remaining in a fixed position at an altitude of nearly 100 feet for five seconds. In the fifth flight, when the biplane turned upside down twice and struck the ground with terrific force, Wright was bruised severely.

When Wright regained his feet after turning a double somersault on the sand when thrown from the biplane the newspaper correspondents surrounded him. The upper and lower planes on the right hand side of the machine had been snapped in two and several of the upright bars broken. Wright said that the machine would be repaired at once and that he would continue his experiments.

"I am perfectly well satisfied with results so far," he said.

SOCIETY WOMAN VICTIM OF HUSBAND'S INSANITY

ST. JOSEPH, Mo., Oct. 19.—Prof. Joel Van Dell Patch, a noted artist and portrait painter, received word late last night of the murder of his daughter, Mrs. Lulu Bethel Millichamp, at the hands of her husband, who then committed suicide, at Portland, Ore.

Mrs. Millichamp, according to the message, was killed seated at a piano, her husband then blowing out his own brains. The double tragedy is supposed to have occurred Monday night, the bodies being found yesterday when a neighbor broke down the door to the Millichamp apartments.

Mrs. Millichamp, who was also an artisa, was, before her marriage a prominent society woman of St. Joseph. She married Millichamp at Seattle in March, 1907. It is believed Millichamp was suffering from insanity. Patch is prostrated by the news.

PLAN COMMERCIAL CLUB.

FRESNO, Oct. 19.—A movement has been started for the formation in Fresno of a commercial club, to coordinate the social and business interests of those engaged in mercantile pursuits in this city. President H. A. Wilkinson of the Merchants' Association is leading the movement, and has announced a meeting of officers of the Chamber of Commerce, Realty Board and other organizations, at which plans will be formed to launch the club.

TOWNS TO BE ON NEW S. P. BRANCH

Proposed Road to Tap Some of California's Richest Sugar Beet Line.

The Hamilton City-Colusa branch line of the Southern Pacific company, the construction of which was authorized several months ago and upon which considerable work has already been done, will touch the main line of the Southern Pacific at Harrington. This means that the railroad has selected the longer route between Colusa and a main line point and that the towns of Sycamore, Grimes and College City will soon be railroad points. The length of this branch line, from Hamilton City to Harrington, will be approximately 60.5 miles.

This new branch line will traverse one of the richest sugar beet sections of the country, nearly all of it being river bottom land. Thousands of acres of these sugar beets have already been planted along the Sacramento river, which the branch will follow the entire distance, and several beet sugar factories are now in course of construction.

When the Southern Pacific company announced that it would build the line from Hamilton City to Colusa, last June, it also announced that the branch would be extended to a point on the main line. Just where the branch was to intersect the main line could not be determined at that time. Two routes were proposed. One direct from Colusa to Arbuckle; the other to Harrington, via Sycamore, Grimes and College City. The latter route has just been decided upon, the officials of the Southern Pacific company feeling that the longer route will do more for the development of the valley.
